For the fiscal year ended **December 1, 2023**
or

☐ **TRANSITION REPORT PURSUANT TO SECTION 13 OR 15(d) OF THE SECURITIES EXCHANGE ACT OF 1934**

For the transition period from _____ to _____
Commission File Number: **0-15175**

ADOBE INC.

(Exact name of registrant as specified in its charter)

Delaware
(State or other jurisdiction of
incorporation or organization)

77-0019522
(I.R.S. Employer
Identification No.)

345 Park Avenue, San Jose, California 95110-2704
(Address of principal executive offices)

(408) 536-6000
(Registrant's telephone number, including area code)

Securities registered pursuant to Section 12(b) of the Act:

Title of Each Class	Trading Symbol	Name of Each Exchange on Which Registered
Common Stock, \$0.0001 par value per share	ADBE	NASDAQ

Securities registered pursuant to Section 12(g) of the Act: None

Indicate by check mark if the registrant is a well-known seasoned issuer, as defined in Rule 405 of the Securities Act. Yes ☒ No ☐

Indicate by check mark if the registrant is not required to file reports pursuant to Section 13 or Section 15(d) of the Act. Yes ☐ No ☒

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes ☒ No ☐

Indicate by check mark whether the registrant has submitted electronically every Interactive Data File required to be submitted pursuant to Rule 405 of Regulation S-T (§ 232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit such files). Yes ☒ No ☐

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company, or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company," and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer ☒ Accelerated filer ☐ Non-accelerated filer ☐ Smaller reporting company ☐ Emerging growth company ☐

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act. ☐

Indicate by check mark whether the registrant has filed a report on and attestation to its management's assessment of the effectiveness of its internal control over financial reporting under Section 404(b) of the Sarbanes-Oxley Act (15 U.S.C. 7262(b)) by the registered public accounting firm that prepared or issued its audit report. ☒

If securities are registered pursuant to Section 12(b) of the Act, indicate by check mark whether the financial statements of the registrant included in the filing reflect the correction of an error to previously issued financial statements. ☐

Indicate by check mark whether any of those error corrections are restatements that required a recovery analysis of incentive-based compensation received by any of the registrant's executive officers during the relevant recovery period pursuant to §240.10D-1(b). ☐

Indicate by check mark whether the registrant is a shell company (as defined in Rule 12b-2 of the Act). Yes ☐ No ☒

The aggregate market value of the registrant's common stock, \$0.0001 par value per share, held by non-affiliates of the registrant on June 2, 2023, the last business day of the registrant's most recently completed second fiscal quarter, was \$165.53 billion (based on the closing sales price of the registrant's common stock on that date). Shares of the registrant's common stock held by each officer and director and each person who owns 5% or more of the outstanding common stock of the registrant have been excluded in that such persons may be deemed to be affiliates. This determination of affiliate

status is not necessarily a conclusive determination for other purposes. As of January 5, 2024, 452.0 million shares of the registrant’s common stock, \$0.0001 par value per share, were issued and outstanding.

DOCUMENTS INCORPORATED BY REFERENCE

Portions of the Proxy Statement for the registrant’s 2024 Annual Meeting of Stockholders (the “Proxy Statement”), to be filed within 120 days of the end of the fiscal year ended December 1, 2023, are incorporated by reference in Part III hereof. Except with respect to information specifically incorporated by reference in this Form 10-K, the Proxy Statement is not deemed to be filed as part hereof.

Forward-Looking Statements

In addition to historical information, this Annual Report on Form 10-K contains “forward-looking statements,” within the meaning of applicable securities laws, including statements related to product development plans and new or enhanced offerings; our business, artificial intelligence and innovation momentum; our vision for the digital world, innovation and AI; our market opportunity and future growth, market and AI trends, strategic investments; revenue, operating margin, operating efficiencies and annualized recurring revenue; industry positioning; and customer acquisition and retention. In addition, when used in this report, the words “will,” “expects,” “could,” “would,” “may,” “anticipates,” “intends,” “plans,” “believes,” “seeks,” “targets,” “estimates,” “looks for,” “looks to,” “continues” and similar expressions, as well as statements regarding our focus for the future, are generally intended to identify forward-looking statements. Each of the forward-looking statements we make in this report are based on information available to us as of the date of this report and involves risks, uncertainties and assumptions based on information available to us as of the date of this report. Such risks and uncertainties, many of which relate to matters beyond our control, could cause actual results to differ materially and adversely from these forward-looking statements. Factors that might cause or contribute to such differences include, but are not limited to, those discussed in the section titled “Risk Factors” in Part I, Item 1A of this report and elsewhere herein. The risks described herein and in Adobe’s other filings with the U.S. Securities and Exchange Commission (the “SEC”), including our Quarterly Reports on Form 10-Q to be filed in fiscal 2024, should be carefully reviewed. Undue reliance should not be placed on the financial information set forth in this report, which reflects estimates based on information available at this time. Adobe assumes no obligation to, and does not currently intend to, update these forward-looking statements.

PART I

ITEM 1. BUSINESS

OVERVIEW

Adobe is a global technology company with a mission to change the world through personalized digital experiences. For over four decades, Adobe’s innovations have transformed how individuals, teams, businesses, enterprises, institutions, and governments engage and interact across all types of media. Our products, services and solutions are used around the world to imagine, create, manage, deliver, measure, optimize and engage with content across surfaces and fuel digital experiences. We have a diverse user base that includes consumers, communicators, creative professionals, developers, students, small and medium businesses and enterprises. We are also empowering creators by putting the power of artificial intelligence (“AI”) in their hands, and doing so in ways we believe are responsible. Our products and services help unleash creativity, accelerate document productivity and power businesses in a digital world.

OFFERINGS

We deliver a wide range of products, services and solutions to empower our customers and users to imagine and express ideas, create content and bring any digital experience to life. We focus our strategic investments in two areas of growth:

Digital Media. We provide products, services and solutions that enable individuals, teams, businesses and enterprises to create, publish and promote their content anywhere, and accelerate their productivity by transforming how they view, share, engage with and collaborate on documents and content creation. Our Digital Media segment is centered around Adobe Creative Cloud and Adobe Document Cloud, which include Adobe Express, Adobe Firefly, Photoshop, Illustrator, Lightroom, Premiere Pro, Acrobat, Acrobat Sign and many more products, offering a variety of tools for creative professionals (like photographers, video editors and game developers), communicators and other consumers. This is the core of what we have delivered to customers and users for decades, and we have continually evolved and expanded our Digital Media business model to provide our customers and users with a range of flexible solutions to help them reach their full creative potential.

Digital Experience. We provide an integrated platform and set of products, services and solutions through Adobe Experience Cloud that enable businesses to create, manage, execute, measure, monetize and optimize customer experiences spanning from analytics to commerce. Our customers include marketers, advertisers, agencies, publishers, merchandisers, merchants, web analysts, data scientists, developers and executives across the C-suite. The foundation of our offering is Adobe Experience

Platform, which provides businesses and brands with an open and extensible system for customer experience management that transforms customer data into robust customer profiles that update in real time and uses insights to deliver personalized digital experiences across various channels.

We offer a comprehensive suite of products, services and solutions to our customers and users in our Digital Media business and Digital Experience business. In addition, our Adobe GenStudio solution bundles together certain Digital Media

and Digital Experience products across Creative Cloud and Adobe Experience Cloud, allowing businesses to simplify their content supply chain process with generative AI capabilities and intelligent automation. We believe we are positioned to compete well in both the Digital Media and Digital Experience strategic areas where our mission to change the world through personalized digital experiences has never been more relevant as people seek new ways to create, collaborate and communicate and businesses continue to invest in digital transformation.

SEGMENTS

Our business is organized into three reportable segments:

- Digital Media;
- Digital Experience; and
- Publishing and Advertising.

These segments provide Adobe's senior management with a comprehensive financial view of our key businesses. Our segments are aligned around our two strategic growth opportunities further described below, and our legacy products, services and solutions are contained within the third segment, Publishing and Advertising.

MARKET OVERVIEW

This overview provides an explanation of our markets and a discussion of strategic opportunities in fiscal 2024 and beyond for each of our segments. *See the section titled "Results of Operations" in Part II, Item 7 titled "Management's Discussion and Analysis of Financial Condition and Results of Operations" and Note 2 of our Notes to Consolidated Financial Statements of this report for further segment information.*

Digital Media

Opportunity

In today's digital world, content and digital documents are fueling the global economy, and productivity, design and creativity have never been more relevant, providing a significant market opportunity for Adobe in digital media. Everyone has a story to tell and needs products and services at their fingertips to tell those stories on an ever-increasing number of canvases. AI- and generative AI-powered technologies are increasing this opportunity by growing the demand for and production of content. This shift is changing how creative professionals work by accelerating their processes, increasing their productivity, and allowing them to explore and create in new fields, while empowering new creators by dramatically lowering barriers to creativity. At the same time, creativity is increasingly a team sport that is redefining productivity, making quick and easy collaboration even more critical to every company's success. Adobe is driving the innovation to shape these trends, democratize creativity, empower individuals to create wherever inspiration strikes and enable more effective collaboration between creators and stakeholders.

The flagship of our Digital Media business is Adobe Creative Cloud, a subscription service that allows subscribers to use our creative products integrated with cloud-delivered services across various surfaces and platforms. We believe in creativity for all, and Creative Cloud addresses the needs of all content creators, from creative professionals, such as artists, designers, developers, students, and administrators, to knowledge workers, marketers, educators, enthusiasts, communicators, and consumers. Our customers rely on our products for content creation, photo editing, design, video and animation production, mobile application ("app") and gaming development, and more. Customers can choose between the speed and ease of Adobe Express, our AI- and template-first, task-based web and mobile app, or the greater power and precision of our flagship Creative Cloud apps. We believe we have significant opportunities to grow our Digital Media business by advancing every creative category across all surfaces; expanding content-first, task-based creativity with Adobe Express; enabling seamless collaboration across all stakeholders; inspiring the creative community through sharing and monetization; and expanding the user base of our tools through the infusion of AI into our products, services and solutions to enable users of any skill level to easily and efficiently create content using tools like Adobe Express while also enhancing the power and AI capabilities of our flagship apps for creative professionals.

Our Digital Media segment includes our Adobe Document Cloud business, a unified, cloud-based document services platform that integrates Adobe's pioneering PDF technology with our Acrobat and Acrobat Sign apps to deliver fully digital document workflows across all surfaces. We have the

opportunity to continue to accelerate document productivity with Adobe Document Cloud and transform how people view, share, collaborate, and engage with documents. Trillions of PDF documents are created every year, reflecting the important role PDF plays globally. There are hundreds of millions of users who engage with PDF files on a daily basis in industries such as legal, financial services, and publishing, as well as a broad array of

communicators and Acrobat Reader customers who use the expanded capabilities provided by our Acrobat apps and the document services platform in Document Cloud.

Strategy

Our goal for our Digital Media business is to be a leading platform for creativity and digital document solutions, where we offer a range of products and services that allow anyone to design and deliver content seamlessly. We aim to achieve this goal by using data-driven customer engagement, driving product-led growth to allow our customers to create content and interact with documents in ways that are more frictionless, efficient and accessible, and meeting customer needs holistically to increase the value they derive from our services.

We are redefining the creative process with Creative Cloud to unleash everyone's ability to imagine and express ideas. We are empowering anyone, including novice content creators, communicators and creative professionals, to create, edit, schedule and share content quickly and easily using Adobe Express, which employs capabilities from products like Photoshop, Premiere Pro and Acrobat to deliver the best of Adobe to customers at any level. We continue to integrate collaboration capabilities into our apps and workflows such as our native integration of Frame.io's review and approval capabilities into Premiere Pro, After Effects, Adobe Illustrator and Adobe InDesign. We are expanding the capabilities of Creative Cloud on the web with the launch of Adobe Firefly and Photoshop on the web. We are also infusing AI into our creative apps as a co-pilot to help our customers and users work faster and smarter, with new models for images and vector graphics, and AI-powered video features natively integrated into our flagship products like Photoshop, Illustrator, and Premiere Pro. We are building our own foundation models in areas where we have domain expertise and which we believe are most relevant to our customers. Developing our own foundation models enables us to design Firefly to be commercially safe and in line with our AI Ethics principles of accountability, responsibility and transparency. In fiscal 2023, we introduced other innovations, such as new Adobe Firefly models, Text-Based Editing in Premiere Pro, Generative Fill and Generative Expand in Photoshop, Generative Recolor in Illustrator and Text to Image and Text Effects in Adobe Express.

We are pursuing new ways to inspire, empower and connect the creative community, such as through our Create Change series, our creative residency program, and supporting live, interactive tutorials with creators on Behance. We also offer a range of other creative products and services, including libraries of creative assets, such as Adobe Stock and Adobe Fonts, mobile-first apps, such as Lightroom Mobile, and Creative Cloud Libraries, a central place for users to store their assets. Further descriptions of our Digital Media products are included below under "Principal Products, Services and Solutions."

In our Creative Cloud business, we employ our product-led growth strategy to minimize the friction of customer interactions and drive positive product experiences, which results in increasing customer adoption, usage, conversion, expansion and loyalty. We also continue to employ a pricing strategy, as appropriate, to migrate our customers to higher-value offerings as well as attract past customers and potential users to try out our products and ultimately subscribe. We use a data-driven operating model and our Adobe Experience Cloud solutions to drive and optimize customer awareness, engagement and licensing of our creative products and services at every stop of the customer journey through our website and across other channels. Adobe.com is the central destination where we engage individual and small business customers to sign up for and renew Creative Cloud subscriptions. Our customers have the flexibility to subscribe to over twenty of our Creative Cloud products through a single subscription or, for many of our apps, through various collections of our individual subscriptions to point products. To better serve our current users and potential users, we offer free and premium levels for certain apps, such as Adobe Firefly and Adobe Express, and targeted packages and suites, such as our Photography Plan and Substance 3D Collection. Our generative AI capabilities are increasing the value of our existing subscription products, expanding our potential customer base and increasing engagement and retention through Generative Credits—credits that provide users and subscribers the ability to generate content with Firefly. The collaboration features across many of our products, such as in Photoshop on the web and Frame.io, help us to further expand our universe of customers beyond creative professionals to other stakeholders who use our products for review and approval, copywriting, social media marketing or other social content creation. We utilize channel partners to target mid-size creative customers with our Creative Cloud for Teams offering. Our direct sales force is focused on building relationships with our largest customers and driving adoption of our Creative Cloud for Enterprise offering. Overall, our strategy with Creative Cloud is designed to enable us to increase our revenue with existing customers, attract new customers and grow a recurring and predictable revenue stream that is recognized ratably.

In our Adobe Document Cloud business, we expect to drive sustained long-term revenue growth through an expansion of our customer base by continuing to employ our product-led growth strategy, deliver the best PDF experience on and across every platform, improve Acrobat web's functionality and ease of use, and expand the number of digital document and workflow-based actions in Acrobat. We are driving innovation with Adobe Sensei, our cross-platform AI and machine learning technology, to make documents more intelligent and responsive. We are unlocking business workflows through PDF and Acrobat Sign Application Programming Interfaces ("APIs"), accelerating Document Cloud adoption through digital and direct sales, and deploying diversified go-to-market motions to reach all industries and businesses of all sizes. With over 50 million

online searches for PDF-related actions per month, we intend to harness that demand and attract new users and customers to our Document Cloud services through Acrobat web, which allows anyone to quickly access tools to create, edit, convert, sign and compress PDFs through their web browser. As with our Creative Cloud strategy, we utilize a data-driven operating model to market our Document Cloud solutions and optimize our subscription-based pricing for individuals as well as small and medium businesses, large enterprises, and government institutions around the world. We utilize our corporate and volume licensing programs to increase our reach in our key markets and are continuing to focus on marketing and licensing Acrobat in targeted vertical markets such as education, financial services, telecommunications and government, and on expanding into emerging markets. We will continue to engage in strategic partnerships to help expand our distribution reach and drive the enterprise business.

As our Document Cloud customers increasingly expect business processes to be seamless across surfaces and the web, we are expanding our Document Cloud capabilities to meet this need. Acrobat Reader is available on mobile, and features AI-powered “Liquid Mode” to automatically reformat PDFs for quick navigation and easier consumption on smaller screens. Acrobat is available on the web, delivering quick results for common PDF actions with a single click. Adobe Scan powers mobile devices with scanning capabilities, transforming paper documents into full-featured PDFs. Acrobat Sign also provides a green alternative to costly, paper-based solutions and offers a convenient solution for customers to digitally manage their documents, automate processes and contract workflows, and is integrated into Acrobat across all surfaces. By using Adobe Sensei to enhance customer experiences and adding new capabilities to Acrobat, Adobe Scan and Acrobat Sign, we help our customers and users continue to migrate away from paper-based processes and adopt our solutions for personalized, digital document experiences, growing our revenue with this business in the process.

Digital Experience

Opportunity

Consumers today buy experiences, not just products, and they demand personalized digital experiences that are relevant, engaging, seamless and secure across an ever-expanding range of channels and surfaces. Business customers increasingly have the same expectations, driving business-to-business (“B2B”) companies to deliver equally engaging and seamless experiences as business-to-consumer (“B2C”) companies. With AI-powered automation and personalization, people and brands will increasingly stand out through unique creative expression, and the future of experiences across industries and everyday life will become increasingly personalized. Delivering the best, personalized experience to a consumer at a given moment requires the right combination of data, insights and content across multiple channels in real time and at scale. We have a strategic opportunity to provide solutions that enable real-time personalization at scale and accelerate our customers’ content supply chain, with a streamlined and coordinated process from content ideation through deployment and measurement and optimization. Marketing is also increasingly evolving from a centralized discipline to a multi-practitioner, cross-functional, collaborative field, and marketing and IT teams are looking for a return on investment to demonstrate the business impact of their transformation initiatives.

Adobe Experience Cloud is powering digital businesses by helping them provide exceptional personalized experiences to their customers via a comprehensive suite of solutions. Addressing the challenges of customer experience management is a large and growing opportunity and we are in position to help businesses and enterprises invest in solutions that aid their goals to transform how they engage with their customers and constituents digitally.

Strategy

Our goal is to be a leading provider of cloud-based solutions for delivering digital experiences and enabling digital transformation. The Adobe Experience Cloud apps and services are designed to manage customer journeys, enable personalized experiences at scale and deliver intelligence for businesses of any size in any industry. The Adobe Experience Platform further strengthens our differentiation by offering a way to connect our comprehensive set of solutions. Further descriptions of our Digital Experience products are included below under “Principal Products, Services and Solutions.”

Adobe Experience Cloud delivers solutions for our customers across the following strategic growth pillars:

- *Data insights and audiences.* Our products, including Adobe Analytics, Customer Journey Analytics, Adobe Product Analytics, and our Real-time Customer Data Platform, deliver actionable data in real time to provide highly tailored and adaptive experiences across platforms.

- *Content and commerce.* Our products help customers manage, deliver, monetize, and optimize content delivery through Adobe Experience Manager and build multi-channel commerce experiences for B2B and B2C customers on a single platform with Adobe Commerce.

- *Customer journeys.* Our products help businesses manage, test, target and personalize customer journeys delivered as campaigns across B2B and B2C use cases, including through Adobe Marketo Engage, Adobe Campaign, Adobe Target and Adobe Journey Optimizer.
- *Marketing planning and workflow.* Our products help businesses intelligently measure, optimize, and plan marketing investments through the Adobe Mix Modeler, and allow businesses to strategically plan, manage, collaborate, and execute on workflows for marketing campaigns and other projects at speed and scale with our enterprise work management app, Adobe Workfront.

Our goal is to deploy our capabilities to help enterprises generate highly engaging experiences, enable content creators to enhance creativity and scale content production, and provide marketing strategists with recommendations to improve marketing strategy and enhance the delivery of personalized customer journeys. We believe innovations like Adobe Sensei and Adobe Sensei GenAI—our collection of natively embedded AI services in Adobe Experience Cloud that enable the delivery of more relevant and personalized customer journeys—enhance the delivery and personalization of digital experiences. Adobe Experience Cloud offers domain-specific AI services in areas such as attribution and automated insights, customer journey management, lead management, sentiment analysis, one-click personalization, enhanced anomaly detection and more that work with Adobe Experience Platform to augment our Experience Cloud product offerings. We are also building generative AI into our Adobe Experience Cloud product offerings, such as the updated Adobe Experience Manager. By building on these features and capabilities, we increase the value we provide our customers and create a competitive differentiation in the market.

Adobe Experience Cloud offers an open platform and ecosystem through the Adobe Experience Platform. Adobe Experience Platform's open system transforms user data from across Adobe solutions and third-party software into robust customer profiles. Adobe customer profiles are updated in real time and include AI-driven insights, allowing a brand to deliver the right customer experiences across channels. This open architecture offers scalability with a wide variety of supporting products and services empowers users to quickly develop innovative apps to interact with customers and enables a broad industry ecosystem.

To drive growth of Adobe Experience Cloud, we focus on delivering customer engagement, growth within existing customer accounts, product differentiation and the best customer experience management solutions for B2B and B2C buyers across enterprise and mid-market segments. Within our established base of customers, we intend to pursue growth through a scaled go-to-market approach focused on C-suite partnerships, transformational accounts, continued customer acquisition, customer value realization and solution expansion. We utilize a direct sales force to market and license our Experience Cloud solutions, as well as an extensive ecosystem of partners, including marketing agencies, systems integrators and independent software vendors that help license and deploy our solutions to their customers. We also maintain several strategic partnerships with other technology companies that allow us to increase our market reach. We have made significant investments to broaden the scale and size of all these routes to market and believe these investments will result in continued growth in revenue in our Digital Experience segment in fiscal 2024 and beyond.

Publishing and Advertising

Our Publishing and Advertising segment contains legacy products and services that address diverse market opportunities including eLearning solutions, technical document publishing, web conferencing, document and forms platform, web app development, high-end printing and our Adobe Advertising offerings. Graphics professionals and professional publishers continue to require quality, reliability and efficiency in production printing, and our Adobe PostScript and Adobe PDF printing technologies provide advanced functionality to meet the sophisticated requirements of this marketplace. As high-end printing systems evolve and transition to fully digital, composite workflows, we believe we are well positioned to be a supplier of software and technology based on the Adobe PostScript and Adobe PDF standards for this industry.

Adobe Advertising delivers an end-to-end, demand-side platform for managing advertising across digital formats and simplifies the delivery of video, display and search advertising across channels and screens.

We generate revenue in our legacy Publishing products and services by licensing our technology to original equipment manufacturers that manufacture workflow software, printers and other output devices, and we generally generate revenue in Advertising through usage-based offerings.

COMPETITION

Overview

We participate in a rapidly evolving, highly competitive global environment, where our competitors vary by industries and range from large multinational enterprises to smaller entities with specialized and focused product offerings. Across our business, we recognize hundreds of competitors worldwide. The markets for our products and services are characterized by new industry standards, evolving distribution models, rapid technology innovation, frequent product introductions and short product life cycles. Our future success will depend on our ability to enhance our existing products, services and solutions and introduce new ones on a timely and cost-effective basis, accurately predict and meet changing customer needs, provide best-in-class information security to build customer confidence and combat cyber-attacks, extend our core technologies into new apps and anticipate emerging standards, business models, software delivery methods and other technological changes.

A summary of the competitive environment for each of our business segments is included below. *See the section titled “Risk Factors” contained in Part 1, Item 1A of this report for additional information regarding risks related to competition.*

Digital Media

Our Digital Media segment faces competition from large, established companies as well as a variety of point offerings, free products, websites, downloadable apps and other products and offerings. We compete in a rapidly evolving and growing market and face significant direct or indirect competition from:

- software companies and AI companies;
- device, hardware and camera manufacturers, including those that integrate software for digital media, such as photo and video;
- proprietary and open-source web-authoring tools;
- mobile-first apps;
- web native tools and platforms;
- social media platforms that provide digital media offerings, including editing capabilities;
- providers of stock content;
- digital document creation, storage, collaboration and signing providers; and
- operating system developers that integrate digital media document viewers and markup features with their operating systems.

We believe competitive factors in our markets include:

- brand, product features and functionalities;
- integration with related tools, third-party apps and workflows;
- the intuitiveness and visual appeal of user interfaces;
- demonstrable cost-effective benefits to customers;
- pricing;
- the flexibility of services to match changing business demands;
- usability and accessibility across surfaces and platforms;
- success in educating customers in how to utilize services effectively;
- the ability to create and use AI models and integrate AI capabilities for digital media generation and editing; and
- responsible and secure data handling and storage protocols.

We attract customers in this segment through our broad and comprehensive array of products and services, which are powerful, standalone tools that also work well together and complement one another as part of Creative Cloud or Document Cloud. With Creative Cloud, we believe we compete well with our features and functionality, AI models, ease of use, product reliability, value and performance characteristics. With Adobe Firefly, we believe we compete well by offering generative AI capabilities that are natively integrated into our products and designed to be safe for commercial use. With Adobe Express, we believe we compete well by making our creative technologies accessible to a wide audience and enabling easy-to-use, efficient content creation, collaboration and sharing for quick projects. With Document Cloud, we believe we compete well through our PDF offerings, features and functionalities that are critical tools for millions of business communicators, and our brand.

Digital Experience

Our Digital Experience segment competes in markets that are growing and evolving rapidly and characterized by intense competition. Our Adobe Experience Cloud solutions face competition from:

- large, established companies, including large enterprise software, internet and database management companies;
- point product solutions and focused companies;
- new companies constantly entering the digital experience markets;
- companies that provide Software-as-a-Service (“SaaS”) solutions to customers, generally through the web and software that is installed by customers directly on their servers; and
- customers’ or potential customers’ internally-developed apps.

We believe competitive factors in our markets include:

- the proven performance, security, scalability, flexibility and reliability of services;
- the strategic relationships and integration with third-party apps;
- the intuitiveness and visual appeal of user interfaces;
- demonstrable cost-effective benefits to customers;
- pricing;
- the flexibility of services to match changing business demands;
- enterprise-level customer service and training;
- brand;
- data governance features and functionality;
- the usability of services;
- real-time data and reporting;
- independence from portals and search engines;
- the ability to deploy the services globally;
- success in educating customers in how to utilize services effectively; and
- the integration and customization of high-quality AI models and the ability to customize and use such AI models.

We believe we compete well with our enterprise and low-cost alternatives based on many of these competitive factors, including:

- our strong feature set;
- the breadth of our offerings, which work well together and complement one another as part of Adobe Experience Cloud;

- our focus on global, multi-brand companies;
- provision of AI through Adobe Sensei AI services;
- our intuitive user experience;
- tools for building multi-screen;
- tools for managing data across apps and geographies;
- cross-channel apps;
- standards-based architecture;
- scalability;
- connecting content creation with digital experience delivery, personalization and optimization; and
- performance.

Publishing and Advertising

Our Publishing and Advertising segment faces competition from large-scale publishing systems and Extensible Markup Language-based publishing companies and smaller desktop-publishing products. Our web conferencing product faces competition from a number of established products from other large software companies. Competition involves a number of factors, including product features, ease-of-use, the level of customization and integration supported, the number of hardware platforms supported, service and price. We believe we can successfully compete based upon the quality and features of our products, their complementarity with our Creative Cloud, Document Cloud and Digital Experience products and our strong brand among users.

PRINCIPAL PRODUCTS, SERVICES AND SOLUTIONS

Digital Media Offerings

Creative Cloud

Adobe Creative Cloud is a cloud-based subscription to a collection of apps that enables creative professionals and enthusiasts alike to express themselves and collaborate with apps and services for photography, design, video, social media, and more that connect across surfaces, platforms and geographies. Subscribers have access to cloud storage to easily sync, access, collaborate and share their work, files and assets.

Creative Cloud paid plans include the Adobe Firefly web app, the premium version of Adobe Express, and AI-powered features natively integrated throughout Photoshop, Illustrator and Premiere Pro. Creative Cloud, Adobe Firefly, and Adobe Express paid plans include a monthly allocation of Generative Credits, which are tokens that enable subscribers to use our generative AI features to generate content using text-based prompts. All apps listed below and many more are available through subscriptions to Creative Cloud (except Substance 3D apps, which are sold separately through the Adobe Substance 3D Collection plan). The Creative Cloud All Apps subscription offering includes Adobe Acrobat for creating, converting and editing PDFs, which is also available as a standalone product on Adobe.com. Many of our apps are also available as a point product subscription.

Adobe Photoshop and Adobe Lightroom

Adobe Photoshop is the world's most advanced digital imaging and design app, with powerful editing and effects tools to transform photos. It is available on desktop, iPad and through a web version. Features introduced in fiscal 2023 include Generative Fill and Generative Expand, which allow customers to use text prompts to quickly create, add to, remove, or replace images, or expand the borders of an existing image with AI-generated content without leaving Adobe Photoshop. Adobe Lightroom is our cloud-based photo service that allows subscribers to edit, organize, store and share photos across desktop, tablet, mobile devices and the web. Features introduced in fiscal 2023 include Lens Blur to blur the background or foreground by making a depth map of the photo using Adobe Sensei, the Denoise feature to remove noise in RAW photos and People Masking features to automatically select and edit facial hair and clothing. In addition to individual subscriptions to Photoshop and Lightroom, we offer a Photography Plan, which is a more limited cloud-based offering than Creative Cloud, targeted at photographers and photo enthusiasts and includes Photoshop, Lightroom and Lightroom Classic.

Adobe Illustrator and Adobe Fresco

Adobe Illustrator is our industry-standard vector graphics app for desktop and iPad used worldwide by designers of all types who want to create digital graphics and illustrations for all kinds of media—print, web, interactive, video and mobile—from web and mobile graphics to product packaging to book illustrations and billboards. Features introduced in fiscal 2023 include Generative Recolor, which enables users to generate different color palettes using text prompts and apply them to their illustrations. Adobe Fresco is our illustration app, available as a free or premium version on various surfaces, that brings together the world's largest collection of vector and raster brushes and Live Brushes, powered by Adobe Sensei, to deliver a natural painting and drawing experience.

Adobe Premiere Pro

Adobe Premiere Pro is a nonlinear video editing app used by filmmakers, TV editors, YouTubers and videographers. Customers can import and combine various types of media, from video shot on a mobile device to 8K to virtual reality, and then edit in its native format without transcoding. Automated tools and workflows for color, graphics, audio and immersive 360/VR make the editing process more efficient. Premiere Pro offers Text-Based Editing, which allows users to review transcripts or search for keywords to find and edit the right content faster.

Adobe After Effects

Adobe After Effects is our industry-standard motion graphics and visual effects app used by a wide variety of animators, designers and compositors to create cinematic movie titles, add effects and create animations. With an AI-enhanced Roto Brush, users can cut out objects from footage faster and more accurately than ever. After Effects works together seamlessly with other Adobe apps such as Premiere Pro, Photoshop, Illustrator and Adobe Audition, as well as third party software and hardware partners.

Adobe InDesign

Adobe InDesign is a design and layout app for print and digital media. Our customers use it to create, preflight and publish a broad range of content including books, eBooks, digital magazines, posters and interactive PDFs for print, online and tablet app delivery. Tight integration with other Adobe offerings such as Photoshop, Illustrator, Acrobat, Adobe Stock, Adobe InCopy and Adobe Experience Manager expands InDesign's capabilities and allows customers to collaborate and share content, fonts and graphics across projects. Customers can also access Adobe's digital publishing capabilities from within InDesign to create and publish engaging apps for a broad range of surfaces.

Adobe Express

Adobe Express is our all-in-one creativity app with an array of AI-first capabilities directed towards first-time creators and communicators that enables easy-to-use video, marketing, and social content creation. Users can easily design high-impact design elements, engaging videos and images, resumes, PDFs, animation and content ready for Instagram, TikTok and other social channels and platforms. The app features guided tools, one-click solutions for quick projects, simple drag and drop functions, collaboration tools, thousands of templates and access to more than 20,000 fonts and the entire Adobe Stock photo collection, and allows users to easily plan, schedule, preview, and publish content all from one place. Firefly integrated into Adobe Express makes it possible to quickly generate custom images and text effects from text prompts in over 100 languages and is designed to be commercially safe. Adobe Express includes both free and premium features. With Adobe Express, Premium Creative Cloud subscribers can easily access, edit and work with creative assets from Photoshop and Adobe Illustrator directly, or add linked files into Adobe Express that always stay in sync across apps.

Adobe Firefly

Adobe Firefly is our family of creative generative AI models and standalone web app for exploring AI-assisted creative expression. Firefly's foundation generative AI models allow users to generate images, text effects, design templates, and vector graphics using a text description. Firefly AI models include a version of the Firefly Image Model, a Firefly Vector Model that generates fully editable vector graphics from text prompts, and a Firefly Design Model that generates fully editable design templates. Adobe Firefly supports text prompts in more than 100 languages. In addition, with Adobe Firefly for Enterprise, certain businesses are eligible to obtain an intellectual property indemnification for AI-generated content generated by most Firefly-powered workflows. Adobe Firefly-powered generative AI features are also available in Adobe Photoshop, Adobe Illustrator, Adobe Express and Adobe Stock. Adobe Firefly is available for free with a limited number of Generative Credits per

month. Once that limit is reached, users and subscribers can buy additional Generative Credits through a Firefly paid subscription plan.

The content that Adobe Firefly generates is designed to be commercially safe because the Adobe Firefly generative AI model is trained on licensed content, such as Adobe Stock, and public domain content for which copyright has expired. Every asset created using Adobe Firefly includes Content Credentials to indicate that generative AI was used, bringing more trust and transparency to digital content. Content Credentials are verifiable details that serve as a digital “nutrition label” and can show information including an asset’s name, creation date, tools used for creation and any edits made.

Adobe Stock

Adobe Stock provides designers and businesses with access to millions of high-quality, curated, royalty-free photos, vectors, illustrations, videos, templates, audio and 3D assets, for all their creative projects. Adobe Stock is built into our Creative Cloud apps, including Photoshop, Illustrator, InDesign and Adobe Express, enabling users to search, browse and add assets to their Creative Cloud Libraries and instantly access them across all connected surfaces. Adobe Stock assets include free and paid collections and may be licensed directly within Adobe’s apps, through stock.adobe.com or as a multi-asset subscription.

Frame.io

Frame.io is our cloud-native creative collaboration platform that streamlines the production of creative assets by enabling creative professionals and key project stakeholders to collaborate with real-time upload, review and approval, frame-accurate commenting, annotations and more—now with support for still images, design files and PDFs. Frame.io is directly integrated with Premiere Pro and After Effects to allow video creators to request and receive streamlined frame-specific comments directly in those apps. Frame.io’s Camera to Cloud functionality allows creators automatically to upload footage from cameras and other recording devices on set directly into Frame.io for review, with integrations with still image cameras that can connect natively to the platform.

Substance 3D Collection

Substance 3D is an ecosystem of desktop apps, including Substance 3D Stager, Substance 3D Painter, Substance 3D Sampler, Substance 3D Designer and Substance 3D Modeler. Customers can build and assemble 3D scenes with Stager, use tools in Painter to texture 3D assets, from advanced brushes to Smart Materials that automatically adapt to your model and use Sampler to digitize and enrich assets. Substance 3D Assets is a 3D materials library from which users can import professional quality 3D textures into their projects and generate infinite texture variations. Substance 3D Modeler, which is available on desktop and Meta Quest VR headsets, interprets spatial input from the physical world, allowing the user to sculpt a model as if in a real workshop, using natural, fluid gestures of the artistic flow, and switch between VR and desktop, at every project stage.

Behance

Behance is a social community for creators to showcase and discover creative work online and live-stream their skills and creations from Creative Cloud apps. Adobe Portfolio allows users to quickly and simply build a fully customizable and hosted website that seamlessly syncs with Behance.

Adobe Document Cloud

Adobe Document Cloud is a cloud-based subscription offering that enables complete, reliable and automated digital document and signature workflows across desktop, mobile, web and third-party enterprise apps to drive business productivity for individuals, teams, small businesses and enterprises. With Document Cloud, users can create, review, approve, sign and track documents and store them in the cloud for easy access and sharing across surfaces. Document Cloud includes Adobe Acrobat, Acrobat Sign, Adobe Scan and other apps and API services that work standalone or integrate with users’ existing productivity apps, processes and systems.

All the apps listed below are available through a subscription to Adobe Acrobat. With the Acrobat Standard plan, subscribers can convert, edit, request signatures, and protect PDFs. With the Acrobat Pro plan, subscribers have full convert and edit capabilities, advanced e-signature features including bulk send and custom branding, advanced protection, and additional PDF features. We also offer Adobe Acrobat subscription plans for teams and enterprises. Acrobat Sign is included in Adobe Acrobat subscriptions for individuals and teams. Document Cloud for enterprise includes Acrobat, Acrobat Sign,

and APIs including third-party partner integrations. Adobe Acrobat Reader and Adobe Scan are also separately available as free downloads.

Adobe Acrobat

At the heart of Adobe Document Cloud is Adobe Acrobat, our comprehensive PDF solution with a full set of tools to convert, edit, share and sign PDFs across various surfaces and platforms. Acrobat enables automated, collaborative workflows with a rich set of commenting, editing and sharing tools and direct integration with Acrobat Sign. Acrobat's unified Share button combines sharing a link, sending the file by email, and sharing a file with others into one streamlined action, simplifying the sharing and review experience. Our Acrobat Chrome and Edge extensions allow users to access our Acrobat tools without leaving the web browser. Acrobat is offered on a standalone basis and in our Creative Cloud All Apps subscription offering.

Adobe Acrobat Reader

Adobe Acrobat Reader, our free software for reliable viewing, annotating and printing of PDF documents on a variety of surfaces and platforms, offers features to create, edit, export, combine, share and collaborate on PDF documents, including the "Liquid Mode" feature powered by Adobe Sensei that automatically reformats PDFs for quick navigation and consumption on mobile devices. Users of both Acrobat and Acrobat Reader can also access, edit and save changes to their PDF files stored in the Adobe Document Cloud, or other third-party cloud storage services.

Adobe Scan

Adobe Scan can be used for free on mobile devices to provide scanning capabilities in the pocket of every person. It captures paper documents as images and transforms them into full-featured and versatile PDFs via Adobe Document Cloud services for instant sharing with others. Optical character recognition allows users to convert scanned documents into editable, searchable PDF files instantly.

Acrobat Sign

Our cloud-based e-signature service, Acrobat Sign, allows users securely to send any document electronically for signature across surfaces. Through web and mobile apps, Acrobat Sign enables users to e-sign documents and forms, send them for signature, track responses in real time and obtain instant signatures with in-person signing. Acrobat Sign also integrates with users' enterprise systems through a comprehensive set of APIs and Adobe Experience Manager Forms and Advanced Workflows for Acrobat Sign, to create forms and provide seamless experiences to customers across web and mobile sites.

Digital Experience Offerings

Adobe Experience Cloud is a comprehensive collection of best-in-class products, services and solutions to manage the customer experience, all integrated onto a cloud platform, along with service, support and an open ecosystem. Adobe Sensei uses AI and machine learning technology to analyze large amounts of data and make intelligent in-app recommendations, automate repetitive tasks, and drive real-time decisions within our products. Adobe Sensei GenAI allows customer experience and marketing teams to use natively embedded generative AI to deliver more accurate and personal customer journeys.

Experience Cloud is comprised of the following sets of solutions for our customers: Adobe Experience Platform, Data Insights and Audiences, Content and Commerce, Customer Journeys and Marketing Planning and Workflow, which are each described below.

Adobe Experience Platform

Adobe Experience Platform is a purpose-built platform for customer experience management that helps users collect, connect and activate known and unknown customer data from every interaction across sources and channels in real time to create robust, unified customer profiles. Adobe Experience Platform standardizes data for intelligence and profile creation and provides an open and extensible cloud infrastructure, real-time updates, and AI-driven insights and scalability. Adobe Experience Platform also offers Query Service and Data Science Workspace, which enable users to gain deeper insights from stored datasets and customer journey intelligence. These tools leverage predefined data-driven operational best practices, AI and business intelligence to enable and optimize real-time decisions, actions and business processes. Users can leverage Adobe Experience Platform to activate AI-driven insights across all Adobe Experience Cloud apps in near real time.

Data Insights and Audiences

Our Data Insights and Audiences solutions enable users to stitch together data from across the consumer journey into a single view to provide insights based on every interaction in real time, easily

share data and analyses across teams and organizations and use AI and machine learning to optimize personalization. The following is a brief description of our products for Data Insights and Audiences.

Adobe Analytics

Adobe Analytics helps our customers create a holistic view of their business by turning customer interactions into actionable insights. Driven by AI and machine learning, Adobe Analytics collects, organizes and structures vast streams of data from virtually any channel, including streaming web data, to deliver real-time insights that are easy for users to process, analyze and share to quickly identify problems and opportunities and to drive conversion and relevant customer experiences. Our customers can use these analytics to continuously improve marketing activities and better direct their marketing spend. Our Analysis Workspace features a drag-and-drop interface that allows customers to craft an analysis, add visualizations so they can bring data to life, curate a dataset and share and schedule projects across their organization, among other features.

Adobe Product Analytics

Adobe Product Analytics enables product teams to self-serve data and insights about their product experience through guided analysis workflows built on cross-channel data from Customer Journey Analytics. This cross-functional analytics suite allows product teams to partner closely with their marketing and customer experience counterparts to coordinate and deliver more personalized customer experiences across all channels using a single source of data, audience, and metrics. Adobe Product Analytics has native integrations across Adobe Experience Platform, including integrations with Adobe Journey Optimizer and Real-Time Customer Data Platform that allow product owners to act immediately by publishing real-time audiences for activation.

Customer Journey Analytics

Our Customer Journey Analytics service, built on Adobe Experience Platform, brings a powerful set of analytics tools that allow brands to interactively explore and visualize the end-to-end customer journey across multiple channels and utilize AI-powered insights, while making such analytics more accessible across their organization, to ensure that customer journeys flow seamlessly regardless of channel.

Real-Time Customer Data Platform

Adobe's Real-Time Customer Data Platform is an app service that delivers real-time personalization at scale to enable our enterprise customers to bring together their internal and external, known and unknown customer data to activate real-time customer and account profiles that allow for B2C and B2B marketers to deliver timely, relevant experiences across channels. It does so by activating Adobe Experience Platform's unified customer profiles across channels to leverage intelligent decision making throughout the customer journey and deliver hyper-personalized experiences across all known channels and surfaces. The Real-Time Customer Data Platform utilizes an open and extensible architecture that allows integration with a variety of data sources and activation touchpoints and provides continuous data refreshes to keep customer profiles updated in near real time.

Content and Commerce

Our Content and Commerce solutions help our customers manage, deliver, personalize and optimize content across web, mobile and app interfaces, as well as enable shopping experiences that scale from mid-market to enterprise businesses, across surfaces and channels. The following is a brief description of our products for Content and Commerce.

Adobe Experience Manager

Adobe Experience Manager combines digital asset management with a content management system and an end-to-end digital document solution. Adobe Experience Manager Sites provides a marketer and developer-friendly content management system built on a scalable, cloud-native foundation to create and deploy personalized experiences across every channel. Adobe Experience Manager Assets offers cloud-native digital asset management to create, manage, deliver and optimize personalized experiences at scale. Adobe Experience Manager Forms provides a cloud-native and scalable solution for personalized end-to-end digital customer onboarding and enrollment, enabling users to create, manage, publish and approve forms and documents.

Adobe Experience Manager Screens allows customers to connect online and in-venue experiences through digital signage, and Adobe Developer App Builder, which provides a set of tools and services to developers to extend Experience Manager to customers' existing infrastructure and apply unique parameters to make the UI look and feel unique for their organizations.

Adobe Commerce

Adobe Commerce offers a highly customizable, end-to-end e-commerce platform to manage, personalize and optimize the commerce experience for physical and digital goods across every touchpoint by bringing together digital commerce, order

management and predictive intelligence to enable engaging shopping experiences across B2C, B2B and direct-to-consumer. Based on an open-source ecosystem with thousands of third-party extensions, Adobe Commerce extends beyond the online shopping cart to shoppable experiences, with actionable data analysis and automated back-end workflows, native integrations with other Adobe products, such as Analytics, Target, Experience Manager and Creative Cloud and the capability to be scalable and extensible.

Customer Journeys

Our Customer Journeys solutions enable our customers to manage and orchestrate individual cross-channel campaigns that encourage meaningful customer experiences, personalize content and deliver optimized experiences at scale that are important to each of their customers and plan, orchestrate and measure engagement with their prospects and consumers at every stage of the customer journey. The following is a brief description of our products for Customer Journeys.

Adobe Marketo Engage

Adobe Marketo Engage is a customer experience management solution optimized for B2B, cross-channel campaigns by bringing together planning, engagement and measurement capabilities into an integrated marketing platform. Capabilities include lead nurturing and management, predictive account profiling for creating account-based experiences, integrated sales app and integrations with third-party marketing apps and Adobe Experience Cloud. Adobe Marketo Engage simplifies how companies plan, orchestrate and measure engagement at each stage of the customer experience, and allows companies to better align marketing and sales to engage high priority accounts.

Adobe Campaign

Adobe Campaign is optimized for managing B2C cross-channel marketing campaigns. Adobe Campaign enables marketers to orchestrate the entire consumer journey and use consumer data to create, coordinate and deliver dynamic, personalized experiences that are synchronized across channels, including email, mobile and offline, and determined by their consumers' behaviors and preferences. Adobe Campaign's features also include AI-powered email management, multidimensional targeting, in-app messaging and dynamic, customizable reports to analyze success.

Adobe Target

Adobe Target is an AI- and machine learning-driven personalization engine that lets our customers test, target and optimize content across channels. With Adobe Target, our customers have the tools they need to create omnichannel personalized experiences and create A/B and multivariate tests, done at scale through AI-powered automation so they can quickly discover the best consumer experience and deliver that experience across all touchpoints.

Adobe Journey Optimizer

Adobe Journey Optimizer is a scalable app built on the Adobe Experience Platform that allows brands to orchestrate and deliver personalized, connected customer journeys across any app, surface, screen, or channel. With this solution, brands can manage inbound customer engagement with outbound omnichannel campaigns and offer personalized content based on real-time profiles, data-driven insights, cloud-native scalability and API extensibility, all within a single app. Our enterprise customers can trigger individual consumer journeys and use real-time insights to personalize that journey, as well as visually map individual journeys across systems in an intuitive, workflow-based interface. Adobe Journey Optimizer also allows businesses to track detailed performance of executed journeys and how individuals are progressing in real time, with data automatically sent to Adobe Experience Platform to allow full-funnel analysis.

Marketing Planning and Workflow

Adobe Workfront

Adobe Workfront provides a unified work management app to enable teams to work more efficiently, with tools to strategize, plan, execute, review and deliver on complex workflows. Integrations with Creative Cloud and Adobe Experience Manager Assets allow our enterprise customers to scale content production with greater speed and efficiency.

Adobe Mix Modeler

Adobe Mix Modeler is a self-serve solution powered by Adobe Sensei that helps organizations measure, optimize, and plan marketing investments. Adobe Mix Modeler applies machine learning models that provide insights via cross-channel, summary datasets in Adobe Experience Platform on the historic and future impact of marketing investments on key business

goals. This holistic understanding of the top-to-bottom impact of campaigns enables marketers to measure, plan, monitor, and adjust all marketing campaigns in a single app.

Other Products, Services and Solutions

We also offer a broad range of other enterprise and digital media products, services and solutions. Information about other products, services and solutions not referenced here can be found on our corporate website, adobe.com.

OPERATIONS

Marketing and Sales

We market our products, services and solutions directly to enterprise customers through our sales force and local field offices and directly to consumers. We license our products to end users through app stores and our own website at adobe.com. We offer many of our products via a SaaS model or a managed services model (both of which are referred to as hosted or cloud-based) as well as through term subscription and pay-per-use models. Beginning in late 2023, we offer subscriptions with Generative Credits for generative AI creation with Firefly. We also market and distribute our products through sales channels, which include distributors, retailers, software developers, mobile app stores, systems integrators, independent software vendors and value-added resellers, as well as through original equipment manufacturer and hardware manufacturer customers.

Our local field offices include locations in Armenia, Australia, Belgium, Brazil, Canada, China, Denmark, France, Germany, Hong Kong, India, Ireland, Italy, Japan, Mexico, Republic of Moldova, the Netherlands, Poland, Romania, Singapore, South Africa, South Korea, Spain, Sweden, Switzerland, Taiwan, Thailand, the United Kingdom and the United States.

We sell most of our products through a software subscription model where our customers purchase access to a product for a specific period during which they always have rights to use the most recent version of that product. We also license perpetual versions of certain products with maintenance and support, which includes rights to upgrades, when and if available, support, updates and enhancements.

Services and Support

We provide expert consulting, customer success management, technical support and learning services across all our customer segments, which include enterprises, small and medium businesses, creative professionals and consumers. With a focus on ensuring sustained customer success and realized value, this comprehensive portfolio of services is designed to help customers and partners maximize the return on their investments in our cloud solutions and licensed products.

Consulting Services

We have a global professional services team dedicated to designing and implementing solutions for our largest customers. Our professional services team uses a comprehensive, customer-focused methodology that has been refined over years of capturing and analyzing best practices from numerous customer engagements across a diverse mix of solutions, industries and customer segments. Our customers continually seek to integrate across Adobe's products and cloud solutions and engage our professional services teams for their expertise in leading customers' digital strategies, multi-solution integrations and in running customer platforms. Using our methodology, our professional services teams can accelerate customers' time to value and maximize customers' return on their investment in Adobe solutions.

Another key component of Adobe's strategy is developing a large partner ecosystem to expand the availability of Adobe solutions in the global marketplace. To assist partners in building their respective digital practices, Adobe Global Services provides a comprehensive set of deliverables through Adobe's Solution Partner Program. The breadth of services offered in the program provides systems integrators, agencies and regional partners the tools required to develop core capabilities for positioning and building with Adobe technology, as well as implementing and running customer platforms. We believe that through these programmatic services and support, our joint customers benefit greatly from the combination of Adobe technology and the deep customer context that our partners represent.

Customer Success Account Management

Adobe Customer Solutions provides Customer Success Managers, who work with enterprise and commercial customers on an ongoing basis to understand their current and future business needs, promote faster solution adoption and align product capabilities to customers' business objectives to

maximize the return on their investment in Adobe's offerings. We engage customers to share innovative best practices, relevant industry and vertical knowledge and proven success strategies based on

our extensive engagements with leading marketers and brands. The performance of these teams is directly associated with customer-focused outcomes.

Technical Support

Adobe provides enterprise maintenance and support services to customers of subscription products as part of the subscription entitlement and to perpetual license customers via annual fee-based maintenance and support programs. These offerings provide customers with:

- technical support on the products customers have purchased from Adobe;
- “how to” help in using our products; and
- product upgrades and enhancements during the term of the maintenance and support or subscription period, which is typically one to three years.

We provide product support through our support organization that includes several regional and global support centers, supplemented with outsourced vendors for specific services. Customers can seek help through multiple channels including phone, chat, web, social media and email, allowing quick and easy access to the information they need. These teams are responsible for providing timely, high-quality technical expertise on all our products.

Certain consumers are eligible to receive Getting Started support, to assist with easy adoption of their products. Support for some products and in some countries may vary. For enterprise customers with greater support needs, we offer personalized service options through Premium Services options, delivered by global support centers and technical account managers who can also provide proactive risk mitigation services and on-site support services for those with business-critical deployments.

We also offer delivery assurance, technical support and enablement services to partners and developer organizations. We provide developers with high-quality tools, software development kits, information and services.

Digital Learning Services

Adobe Customer Solutions offers a comprehensive portfolio of learning and enablement services to assist our customer and partner teams in the use of our products, including those within Digital Experience, Digital Media and other legacy products, services and solutions. Our training portfolio includes a large number of free online self-service learning options on learning.adobe.com. Adobe Digital Learning Services also has an extensive portfolio of fee-based learning programs including a wide range of traditional classroom, virtual and on-demand training and certifications delivered by our team of training professionals and partners across the globe.

These core offerings are complemented by our custom learning services, which support our largest enterprise customers and their unique requirements. Solution-specific skills assessments help our enterprise customers objectively assess the knowledge and competencies within their marketing teams and tailor their learning priorities accordingly.

Investments

From time to time, we make direct investments in privately held companies. We enter into these investments with the intent of securing financial returns as well as for strategic purposes, as they often increase our knowledge of technological developments in the industry and expand our opportunities to provide Adobe products, services, and solutions.

RESEARCH & DEVELOPMENT

With the speed of innovation and technological change that characterizes the software industry, a continuous high level of investment is required for the research and development of the cutting-edge technologies that lead to the development of new products, services and solutions and the continual enhancement of existing products, services and solutions. Our Adobe Research team of research scientists, engineers and designers help turn ideas into technologies that power the future of our products, services and solutions. We are investing, and intend to continue to invest, in research and development to strengthen our existing products, services and solutions, and to expand our offerings across our Creative Cloud, Document Cloud, Experience Cloud and the next generation of AI, machine learning and deep learning-driven tools and features to solve problems in areas such as content understanding and generation, recommendations, personalization and more.

In addition to our own research and development, we acquire products or technology developed by others by purchasing the stock or assets of the business entity that owns the technology. In other instances, we have licensed or purchased the intellectual property ownership rights of programs developed by others with license or technology transfer agreements that may

obligate us to pay a flat license fee or royalties, typically based on a dollar amount per unit or a percentage of the revenue generated by those programs.

PROTECTING AND LICENSING OUR PRODUCTS

We protect our intellectual property through a combination of patents, copyrights, trademarks and trade secrets, foreign intellectual property laws, confidentiality procedures and contractual provisions. We have U.S. and international patents and pending applications that relate to various aspects of our products and technology. Although our patents have value, no single patent is essential to any of our principal businesses. We have also registered, and applied for the registration of, U.S. and international trademarks, service marks, domain names and copyrights.

We license our desktop software and mobile apps to users under 'click through' or signed license agreements containing restrictions on duplication, disclosure and transfer. Similarly, cloud products and services are provided to users under 'click through' or signed agreements containing restrictions on access and use. Our enterprise customers license our hosted offerings as SaaS or Managed Services via agreements based on our enterprise licensing terms.

Despite our efforts to protect our proprietary technology and our intellectual property rights, unauthorized parties may attempt to copy or obtain and use our technology to develop apps with the same functionality as our apps. Policing unauthorized use of our technology and intellectual property rights is difficult. We believe that our subscription-based business model combined with the increased focus on cloud-based computing has and may continue to improve our efforts to combat the pirating of our products.

HUMAN CAPITAL

Our culture is built on the foundation that our people and the way we treat one another promote creativity, innovation and performance, which spur our success. We are continually investing in our global workforce to further drive diversity and inclusion, provide fair and market-competitive pay and benefits to support our employees' wellbeing, and foster their growth and development. As of December 1, 2023, we employed 29,945 people, of which 50% were in the United States and 50% were in our international locations. During fiscal 2023, our total attrition rate was 7.4%. We have not experienced work stoppages and believe our employee relations are good. Our employee listening program helps us understand employee sentiment on a wide range of topics throughout the employee lifecycle, providing insights that inform our decisions about employee programs, talent risks, management opportunities, employee networks and more. In fiscal 2023, 80% of our employees participated in our most recent engagement survey.

Digital transformation and the COVID-19 pandemic have fundamentally changed how people work, and we are leaning into digital-first workflows, tools and resources to enable us to be productive, wherever we are. We also believe in the value of people being together—fostering trust, relationships and collaboration and innovation. We have evolved into a hybrid model, in which employees who are assigned to an office can divide their work between the office and home about half the time. We continue to pilot, test and iterate our approach to support new ways of working and evolving the employee experience.

We encourage you to visit our website for more detailed information regarding our Human Capital programs and initiatives.

Compensation, Benefits and Wellbeing

We offer fair, competitive compensation and benefits that support our employees' overall wellbeing. To ensure alignment with our short- and long-term objectives, our compensation programs for all employees include base pay, short-term incentives and opportunities for long-term incentives. We believe this alignment, whether through equity awards issued by Adobe or employee participation in our employee stock purchase plan, provides employee shareholders with meaningfully deeper connections to us and contributes to our long-term success. Our wellbeing and benefit programs focus on four key pillars: physical, emotional, financial and community. We offer a wide array of benefits including comprehensive health and welfare insurance, generous time-off and leave, including company-wide global wellbeing days for employees to take a break from work and take care of themselves, and retirement and financial support. We provide emotional and mental wellbeing services through our Employee Assistance Program and a variety of interactive apps. Our wellness reimbursement of up to \$600 per year for each eligible employee, lifestyle coaching, global wellbeing speaker series and ergonomic programs help to support employees' physical and emotional wellbeing. In addition, our

financial education and financial wellness coaches offer employees tools and resources to reach their personal financial goals. To build community, we bring together our employees

through onsite events, discussion groups, messaging forums and our Employee Networks to share stories and engage with one another.

Growth and Development

Our employees are given the opportunity to drive their own career development. The Global Talent Development team creates programs to support leaders, managers and employees in their career growth and personal development. In addition to the content created in house, employees also have access to on-demand content via several industry-leading learning platforms. Through Adobe's Learning Fund, employees are eligible to receive up to \$11,000 per year toward university and short-term learning opportunities.

We are committed to enabling a culture that celebrates talent sharing, career development and agility across Adobe. We post all roles internally first before sharing them externally and provide resources to make the internal job search easier for employees. We also provide forums for managers and employees to have regular conversations about their career and contributions throughout the year.

Diversity and Inclusion

Adobe for All is our vision to advance diversity, equity and inclusion across Adobe. We recognize that when people feel respected and included, they can be more creative, innovative and successful. As of December 1, 2023, women represented 35.3% of our global employees, and underrepresented minorities ("URMs," defined as those who identify as Black/African American, Hispanic/Latinx, Native American, Pacific Islander and/or two or more races) represented 11.6% of our U.S. employees.

We have a three-pillar strategy to grow the diversity of our workforce over time, on which we have continued to drive progress during fiscal 2023:

- *Workforce:* We take actions to improve the hiring, retention and promotion of a more diverse workforce. In fiscal 2023, we invested in partnerships and events to engage candidates across underrepresented communities. We have continued to develop and invest in our partnerships with Historically Black Colleges and Universities and Hispanic-Serving Institutions. We aim to give individuals from nontraditional backgrounds in the United States new opportunities to enter technology and design careers, such as through Adobe Digital Academy, in partnership with our educational partner, General Assembly.
- *Workplace:* We advance our vision of Adobe for All by building an inclusive environment that inspires a sense of belonging. Our annual Adobe for All event provides a unifying moment for employees to celebrate progress, be inspired by employee and guest speakers' stories, and commit to making meaningful change. We expanded our family-friendly benefits, continued to support our employee resource groups to create community for employees from underrepresented groups and offered employees a learning environment to continue their allyship development with our Action Circles program.
- *Ecosystem:* We actively align our diversity, equity and inclusion commitments to our products, partnerships, and suppliers to amplify our reach and impact. We collaborate with industry peers to advance diversity across multiple dimensions, including through our participation in the CEO Action for Diversity & Inclusion, The Valuable 500, the Ascend 5-Point Action Agenda and ParityPledge. In fiscal 2023, we expanded our Equity and Advancement Initiative, a multi-faceted grantmaking program to support non-profit organizations, and we continued to invest in our Supplier Diversity Program to help ensure that Adobe's purchasing strategy includes businesses that are certified as majority-owned and operated by entrepreneurs from underrepresented groups.

Additional information on our diversity and inclusion strategy, diversity metrics and programs can be found on our website at adobe.com/diversity.

AVAILABLE INFORMATION

Our website address is adobe.com. Our Annual Report on Form 10-K, Quarterly Reports on Form 10-Q, Current Reports on Form 8-K and all amendments to those reports filed or furnished pursuant to Sections 13(a) and 15(d) of the Securities Exchange Act of 1934, as amended, are available free of charge on our Investor Relations website at www.adobe.com/adbe as soon as reasonably practicable after we electronically file such material with, or furnish it to, the SEC. The information posted to our website and contents of the websites referred to above are not incorporated into this Annual Report on Form 10-K.

Investors and others should note that we announce material financial information to our investors using our investor relations website (www.adobe.com/adbe), SEC filings, press releases, public conference calls and webcasts. We use these

channels, including our website and social media, to communicate with our investors and the general public about us, our products, services and solutions and other issues, and to comply with our disclosure obligations under Regulation FD. It is possible that the information that we make available on our website or social media could be deemed to be material information. Therefore, we encourage investors and others interested in Adobe to review the information we make available on our website and the social media channels listed on our website.

INFORMATION ABOUT OUR EXECUTIVE OFFICERS

Adobe's executive officers as of January 16, 2024 are as follows:

Name	Age	Positions
Shantanu Narayen	60	<p>Chair and Chief Executive Officer</p> <p>Mr. Narayen currently serves as our Chief Executive Officer and Chair of the Board. He joined Adobe in January 1998 as Vice President and General Manager of our engineering technology group. In January 1999, he was promoted to Senior Vice President, Worldwide Products, and in March 2001, he was promoted to Executive Vice President, Worldwide Product Marketing and Development. In January 2005, Mr. Narayen was promoted to President and Chief Operating Officer, and effective December 2007, he was appointed our Chief Executive Officer and joined our Board. In January 2017, he was named our Chair of the Board. Mr. Narayen holds a B.S. in Electronics Engineering from Osmania University in India, a M.S. in Computer Science from Bowling Green State University and an M.B.A. from the Haas School of Business, University of California, Berkeley.</p>
Daniel Durn	57	<p>Chief Financial Officer and Executive Vice President, Finance, Technology Services and Operations</p> <p>Mr. Durn currently serves as Chief Financial Officer and Executive Vice President, Finance, Technology Services and Operations. Mr. Durn joined Adobe in October 2021 as Executive Vice President and Chief Financial Officer. Mr. Durn most recently served as a Senior Vice President and Chief Financial Officer of Applied Materials, Inc., a semiconductor equipment company, from August 2017 to October 2021. Previously, he was Executive Vice President and Chief Financial Officer at NXP Semiconductors N.V. from December 2015 to August 2017 following its merger with Freescale Semiconductor Inc. ("Freescale"). Before Freescale, he was Chief Financial Officer and Executive Vice President of Finance and Administration at GlobalFoundries, a multinational semiconductor company, and he served as Managing Director and Head of Mergers and Acquisitions and Strategy at Mubadala Technology Fund, a private equity fund. Prior to that, Mr. Durn was a Vice President of Mergers and Acquisitions in the technology practice at Goldman Sachs & Company, a global investment banking firm. Mr. Durn received his MBA in Finance from Columbia Business School and graduated from the U.S. Naval Academy with a B.S. in Control Systems Engineering. He served in the Navy for six years, reaching the rank of lieutenant.</p>
Anil Chakravarthy	56	<p>President, Digital Experience</p> <p>Mr. Chakravarthy currently serves as President of Adobe's Digital Experience business. Mr. Chakravarthy joined Adobe in January 2020 as Executive Vice President and General Manager, Digital Experience and was given responsibility over Worldwide Field Operations in July 2020, when he was appointed Executive Vice President and General Manager, Digital Experience Business and Worldwide Field Operations. Prior to joining Adobe, he served as Chief Executive Officer of Informatica LLC ("Informatica"), a software company, from August 2015 to January 2020 and Executive Vice President and Chief Product Officer from September 2013 to August 2015. Prior to joining Informatica, for over nine years, Mr. Chakravarthy held multiple leadership roles at Symantec Corporation ("Symantec"), a cybersecurity software and services company, most recently serving as its Executive Vice President, Information Security from February 2013 to September 2013. Prior to Symantec, he was a Director of Product Management for enterprise security services at VeriSign Inc., a network infrastructure company. Mr. Chakravarthy began his career as an engagement manager at McKinsey & Company, a global management consulting firm. He currently serves on the board of Ansys, Inc. and also served on the board of the Silicon Valley Leadership Group until December 2021. Mr. Chakravarthy holds a Bachelor of Technology in Computer Science and Engineering from the Institute of Technology, Varanasi, India and M.S. and Ph.D. degrees from the Massachusetts Institute of Technology.</p>

[Table of Contents](#)

Name	Age	Positions
David Wadhwani	52	<p>President, Digital Media</p> <p>Mr. Wadhwani currently serves as President of Adobe's Digital Media business. Mr. Wadhwani rejoined Adobe in June 2021 to lead Adobe's global Digital Media business across Adobe Creative Cloud and Adobe Document Cloud as Chief Business Officer and Executive Vice President, Digital Media. Prior to joining Adobe, he was a Venture Partner at Greylock Partners, a venture capital firm, since October 2019. From September 2015 to October 2019, he was President and CEO of AppDynamics, a software company. Before that, Mr. Wadhwani previously worked at Adobe as Senior Vice President and General Manager of Adobe's Digital Media business, having joined Adobe in 2005 through the Company's acquisition of Macromedia, Inc., a software company, where he had been Vice President of Developer Products. Mr. Wadhwani holds a bachelor's degree in computer science from Brown University and serves on the Brown computer science department advisory board. Mr. Wadhwani also advises early stage and growth companies and is on the board of directors of Gem Software, Inc. and on the board of trustees for StoryCorps and the Fine Arts Museums of San Francisco.</p>
Scott Belsky	43	<p>Chief Strategy Officer and Executive Vice President, Design & Emerging Products</p> <p>Mr. Belsky currently serves as Chief Strategy Officer and EVP, Design & Emerging Products. From December 2017 to March 2023, he served as Chief Product Officer and Executive Vice President, Creative Cloud. Prior to joining Adobe in December 2017, Mr. Belsky was a venture investor at Benchmark, a venture capital firm, from February 2016 to December 2017. Prior to Benchmark, Mr. Belsky led Adobe's mobile strategy for Creative Cloud from December 2012 to January 2016, having joined the Company through the acquisition of Behance, a social media platform for creative work. Mr. Belsky co-founded Behance in 2006 and served as its Chief Executive Officer for over 6 years. He was an early advisor and investor to Pinterest, Inc., a software company, Uber Technologies, Inc., a multinational ride-sharing company, and Warby Parker Inc., an online retailer, and other early-stage companies, and serves on the board of Globality, Inc., an enterprise procurement company. Mr. Belsky also serves on the advisory board of Cornell University's Entrepreneurship Program and on the board of trustees of the Smithsonian CooperHewitt National Design Museum. Mr. Belsky holds a bachelor's degree from Cornell University and an MBA from Harvard Business School.</p>
Gloria Chen	59	<p>Chief People Officer and Executive Vice President, Employee Experience</p> <p>Ms. Chen joined Adobe in 1997 and currently serves as Chief People Officer and Executive Vice President, Employee Experience. In her more than 20 years at Adobe, she has held senior leadership positions in worldwide sales operations, customer service and support, and strategic planning. In October 2009, Ms. Chen was appointed Vice President and Chief of Staff to the Chief Executive Officer. In March 2018, she was promoted to Senior Vice President, Strategy and Growth, in November 2019, she was elevated to Executive Vice President, Strategy and Growth and in January 2020, she was promoted to Chief People Officer and Executive Vice President, Employee Experience. Prior to joining Adobe, Ms. Chen was an engagement manager at McKinsey & Company, a global management consulting firm. Ms. Chen holds a BS in electrical engineering from the University of Washington, an M.S. in electrical and computer engineering from Carnegie Mellon University and an MBA from Harvard Business School.</p>
Dana Rao	54	<p>Executive Vice President, General Counsel & Chief Trust Officer and Corporate Secretary</p> <p>Mr. Rao currently serves as our Executive Vice President, General Counsel & Chief Trust Officer and Corporate Secretary. He joined Adobe in April 2012 and served as our Vice President, Intellectual Property and Litigation where he spearheaded strategic initiatives including the Company's litigation efforts, and its patent, trademark and copyright portfolio strategies until June 2018. Prior to joining Adobe, Mr. Rao was with Microsoft Corporation, a multinational technology company, for 11 years, serving in a variety of roles including Associate General Counsel of Intellectual Property and Licensing. From 1997 until March 2001, he served as a patent attorney at Fenwick & West, a law firm. He holds a B.S. in Electrical Engineering from Villanova University and a JD from George Washington University.</p>

Name	Age	Positions
Mark Garfield	53	Senior Vice President and Chief Accounting Officer
<p>Mr. Garfield currently serves as our Senior Vice President and Chief Accounting Officer. Prior to joining Adobe in December 2018, Mr. Garfield served as the Vice President of Finance of Cloudflare, Inc., a cloud services provider, since November 2017. He served as Senior Vice President and Chief Accounting Officer at Symantec Corporation ("Symantec"), a cybersecurity software and services company, from March 2014 to October 2017. Prior to joining Symantec, he was at Brightstar Corporation, a global wireless device services company, where he served primarily as Senior Vice President and Chief Accounting Officer from January 2013 to February 2014. Mr. Garfield served as Director of Finance at Advanced Micro Devices, a semiconductor company, from August 2010 to December 2012. Prior to Advanced Micro Devices, Mr. Garfield also served in senior level finance roles at LoudCloud, a software company, and Ernst and Young, a public accounting firm. Mr. Garfield is a board member of the Adobe Foundation. Mr. Garfield holds a B.A. in Business Economics from the University of California, Santa Barbara.</p>		

ITEM 1A. RISK FACTORS

As previously discussed, our actual results could differ materially from our forward-looking statements. Below we discuss some of the factors that could cause these differences. The occurrence of these and many other factors described in this report, and factors that we do not presently know or that we currently believe to be immaterial, could materially and adversely affect our operations, performance and financial condition. Many factors affect more than one category and the factors are not in order of significance or probability of occurrence because they have been grouped by categories.

Risks Related to Our Ability to Grow Our Business

We may be unsuccessful at innovating in response to rapid technological changes to meet customer needs, which could cause our operating results to suffer.

We operate in rapidly evolving markets and expect the pace of innovation to continue to accelerate. We must continually introduce new, and enhance existing, products, services and solutions to retain customers and attract new customers. Developing new products is complex and may not be profitable, and our investments in new technologies are speculative and may not yield the expected business or financial benefits. The commercial success of new or enhanced products, services and solutions depends on a number of factors, including timely and successful development; effective distribution and marketing; market acceptance; compatibility with existing and emerging standards, platforms, software delivery methods and technologies; accurately predicting and anticipating customer needs and expectations and the direction of technological change; identifying and innovating in the right technologies; and differentiation from other products, services and solutions. If we fail to anticipate or identify technological trends or fail to devote appropriate resources to adapt to such trends, our business could be harmed. For example, generative artificial intelligence technologies provide new ways of marketing, creating content and interacting with documents that could disrupt industries in which we operate, and our business may be harmed if we fail to invest or adapt. While we have released new generative artificial intelligence products, such as Adobe Firefly, and are focused on enhancing the artificial intelligence ("AI") capabilities of such products and incorporating AI into existing products, services and solutions, there can be no assurance that our products will be successful or that we will innovate effectively to keep pace with the rapid evolution of AI across our Creative Cloud, Document Cloud and Experience Cloud. If we do not successfully innovate, adapt to rapid technological changes and meet customer needs, our business and our financial results may be harmed.

Issues relating to the development and use of AI, including generative AI, in our offerings may result in reputational harm, liability and adverse financial results.

Social and ethical issues relating to the use of AI, including generative AI, in our offerings may result in reputational harm, liability and additional costs. We are increasingly incorporating AI technologies into many of our offerings. If our AI development, deployment, content labeling or governance is ineffective or inadequate, it may result in incidents that impair the public acceptance of AI solutions or cause harm to individuals, customers or society, or result in our offerings not working as intended or producing unexpected outcomes.

Around the world, AI regulation is in the nascent stages of development. The evolving AI regulatory environment may increase our research and development costs, increase our liability related to the use of AI by our customers or users that are beyond our control and result in inconsistencies in evolving legal

frameworks across jurisdictions. While we have taken a responsible approach to the development and use of AI in our offerings, there can be no guarantee that future AI regulations will not adversely impact us or conflict with our approach to AI, including affecting our ability to make our AI offerings available without costly changes, requiring us to change our AI development practices, monetization strategies and/or indemnity protections and subjecting us to additional compliance requirements, regulatory action, competitive harm or legal

liability. In addition, new competition regulation on AI development and deployment could impose new requirements on our markets that could impact our business and financial results.

Uncertainty around new and evolving AI use, including generative AI, may require additional investment to develop responsible use frameworks, develop or license proprietary datasets and machine learning models and develop new approaches and processes to attribute or compensate content creators, which could be costly. Developing, testing and deploying AI systems may also increase the cost of our offerings, including due to the nature of the computing costs involved in such systems. These costs could adversely impact our margins as we continue to add AI capabilities to our offerings and scale our AI offerings without assurance that our customers and users will adopt them. Further, as with any new offerings based on new technologies, consumer reception and monetization pathways are uncertain, our strategies may not be successful and our business and financial results could be adversely impacted. New AI offerings and technologies could disrupt workforce needs, result in negative publicity about AI and have the potential to affect demand for our existing products, services and solutions, all of which could adversely impact our business.

We may not realize the anticipated benefits of investments or acquisitions, and they may disrupt our business and divert management's attention.

Investments and acquisitions involve numerous risks and uncertainties, the occurrence of which may have an adverse effect on our business. These risks and uncertainties include:

- inability to achieve the financial and strategic goals of the investment or acquisition;
- difficulty in effectively integrating the operations, technologies, products, services, solutions, culture or personnel of the acquired business;
- disruption of our ongoing business and distraction of our management and other personnel;
- challenges to completing or failure to complete an announced investment or acquisition related to the failure to obtain regulatory approval, or the need to satisfy certain conditions precedent to closing such transaction (such as divestitures, ownership or operational restrictions or other structural or behavioral remedies) that could limit the anticipated benefits of the transaction;
- entry into markets in which we have minimal prior experience and where competitors in such markets have stronger market positions;
- inability to retain personnel, key customers, distributors, vendors and other business partners of the acquired business;
- delay in customer and distributor purchasing decisions due to uncertainty about the direction of our product and service offerings;
- incurring higher than anticipated costs to effectively integrate an acquired business, to bring an acquired company into compliance with applicable laws and regulations, additional compensation issued or assumed in connection with an acquisition, to divest products, services or solutions acquired in unsuccessful investments or acquisitions, to amortize costs for acquired intangible assets or because of our inability to take advantage of anticipated tax benefits;
- increased collection times, elevated delinquency or bad debt write-offs related to receivables of an acquired business we assume;
- difficulty in maintaining controls, procedures and policies during the transition and integration and inability to conclude that our internal controls over financial reporting are effective;
- potential identified or unknown security vulnerabilities in acquired products that expose us to additional security risks or delay our ability to integrate the product into our offerings;
- exposure to litigation or other claims in connection with, or inheritance of claims or litigation risk as a result of, an acquisition;
- incurrence of additional debt to finance an acquisition, which will increase our interest expense and leverage, and/or issuance of equity securities to finance acquisitions, which will dilute current shareholders' percentage ownership and earnings per share; and
- failure to identify significant problems, liabilities or other challenges during due diligence.

Our ability to acquire other businesses or technologies, make strategic investments or integrate acquired businesses effectively may also be impaired by adverse economic and political events, including trade tensions, and increased global scrutiny of acquisitions and strategic investments. A number of countries, including the United States and countries in Europe and the Asia-Pacific region, are considering or have adopted more stringent restrictions or guidelines for such transactions. Governments may continue to adopt or tighten restrictions of this nature, and such restrictions or government actions could negatively impact our business and financial results. Further, if we are not able to complete an announced acquisition or investment, or we do not achieve the financial and strategic goals of an acquisition or investment, we may not realize the anticipated benefits of such acquisition or investment or we may incur additional costs, which may negatively impact our business and financial results.

We participate in rapidly evolving and intensely competitive markets, and, if we do not compete effectively, our operating results could suffer.

The markets for our products, services and solutions are rapidly evolving and intensely competitive. We expect competition to continue to intensify. Our competitors range in size from diversified global companies with significant sales and research and development resources, broad brand awareness, long operating histories or access to large customer bases to small, specialized companies whose narrow focuses may allow them to be more effective in deploying technical, marketing and financial resources. Our competitors may develop products, services or solutions that are similar to ours or that achieve greater acceptance, may undertake more far-reaching and successful product development efforts or marketing campaigns, or may adopt more aggressive pricing policies. As a result, current and potential customers may select the products, services or solutions of our competitors. Further, our future success depends on our continued ability to effectively appeal to businesses and consumers. New industry standards, evolving distribution models, limited barriers to entry, short product life cycles, customer price sensitivity, global market conditions and the frequent entry of new products or competitors may create downward pressure on pricing and gross margins and adversely affect our renewal, upsell and cross-sell rates as well as our ability to attract new customers. In addition, we expect to face more competition as AI continues to be integrated into the markets in which we compete. Our competitors or other third parties may incorporate AI into their offerings more successfully than we do and achieve greater and faster adoption, which could impair our ability to compete effectively and adversely affect our business and financial results. Further, we expect the markets for standalone AI offerings to be highly competitive and rapidly evolving. For example, we face increasing competition from companies offering text-to-image generative AI technology that may compete directly with our own creative offerings. If we are not able to provide products, services and solutions that compete effectively, we could experience reduced sales and our business could be adversely affected. *For additional information regarding our competition and the risks arising out of the competitive environment in which we operate, see the section titled "Competition" contained in Part I, Item 1 of this report.*

If our reputation or our brands are damaged, our business and financial results may be adversely affected.

We believe our reputation and brands have been, and we expect them to continue to be, important to our business and financial results. Maintaining and enhancing our brands may require us to make substantial investments and these investments may not be successful. There are numerous ways that our reputation or brands could be damaged, including, among other things, introduction of new products, features or services that do not meet customer expectations, our position on or approach to new and evolving technologies, backlash from customers, government entities or other stakeholders that disagree with our product offering decisions or public policy positions, significant litigation or regulatory actions that negatively reflect on our business practices, our action or inaction or actual or perceived failure to meet our commitments on environmental, social and governance, ethical or political issues, public scrutiny regarding our handling of user privacy, data practices or content, data security breaches or compliance failures, or our approach to AI. Further, our brands may be negatively affected by uses of our products, services or solutions, particularly our AI offerings, in ways that are out of our control, such as to create or disseminate content that is deemed to be misleading, deceptive or intended to manipulate public opinion, or for illicit, objectionable or illegal ends, or by our failure to respond appropriately and in a timely manner to such uses. Such uses may result in controversy or claims related to defamation, rights of publicity, illegal content, intellectual property infringement, harmful content, misinformation and disinformation, harmful bias, misappropriation, data privacy, derivative uses of third-party AI and personal injury torts. If we fail to appropriately respond to objectionable content created using our products, services or solutions or shared on our platforms, our users may lose confidence in our brands. Entry into markets with weaker protection of brands or changes in the legal

systems in countries in which we operate may also impact our ability to protect our brands. If we fail to maintain, enhance or protect our brands, or if we incur excessive expenses in our efforts to do so, our business and financial results may be adversely affected.

Risks Related to the Operation of Our Business

Service interruptions or failures of our or third-party information technology systems may impair the availability of our products, services and solutions, which may expose us to liability, damage our reputation and harm our future financial results.

Much of our business, including our online store at adobe.com and our Creative Cloud, Document Cloud and Experience Cloud solutions, relies on hardware and services that are hosted, managed and controlled directly by us or third-party service providers to be available to customers and users without disruption. We do not have redundancy for all our systems, many of our critical applications (“apps”) reside in only one of our data centers, and our disaster recovery planning may not account for all eventualities. If any critical third-party service provider of hosting or content delivery services is negatively affected or becomes unavailable to us for any reason, we may not be able to deliver the corresponding products, services or solutions to our customers and users. Failure of our systems or those of our third-party service providers could disrupt our business operations and those of our customers, subject us to reputational harm, require costly and time-intensive notifications, and cause us to lose customers, users and future business. Occasionally, we migrate data among data centers and to third-party hosted environments. If a transition among data centers or to third-party service providers encounters unexpected interruptions, unforeseen complexity or unplanned disruptions despite precautions undertaken during the process, this may impair our delivery of products, services and solutions to customers and result in increased costs and liabilities, which may harm our operating results, reputation and our business.

It is also possible that hardware or software failures or errors in our systems (or those of our third-party service providers) could result in data loss or corruption, cause the information that we collect or maintain to be incomplete or contain inaccuracies that our customers regard as significant, or cause us to fail to meet committed service levels or comply with applicable notification requirements or other relevant contractual obligations to our customers. Furthermore, our ability to collect and report data may be delayed or interrupted by a number of factors, including access to the internet, the failure of our network or software systems, security breaches or significant variability in visitor traffic on customer websites. We may also find, on occasion, that we cannot deliver data and reports to our customers in near real-time due to factors such as significant spikes in customer activity on their websites or failures of our network or software (or that of a third-party service provider). If we fail to plan infrastructure capacity appropriately and expand it proportionally with the needs of our customer and user base, and we experience a rapid and significant demand on the capacity of our data centers or those of third parties, service outages or performance issues could occur, which may impact our customers. Such a strain on our infrastructure capacity may subject us to regulatory and customer notification requirements, violations of service level agreement commitments or financial liabilities and result in customer dissatisfaction or harm our business. If we supply materially inaccurate information or experience significant interruptions in our systems, our reputation could be harmed, we could lose customers and we could be found liable for damages or incur other losses.

Security incidents, improper access to or disclosure of our customers’ data or other cyber incidents may harm our reputation and materially and adversely affect our business.

Our products, services and solutions collect, store, manage and otherwise process third-party data, including our customers’ data and our own data. Such products, services and solutions as well as our technologies, systems and networks have been subject to, and may in the future be subject to, cyberattacks, computer viruses, ransomware or other malware, fraud, worms, social engineering, denial-of-service attacks, malicious software programs, insider threats and other cybersecurity incidents that have in the past, and may in the future, result in the unauthorized access, disclosure, acquisition, use, loss or destruction of sensitive personal or business data belonging to us and our customers.

Cybersecurity incidents can be caused by human error from our workforce or that of our third-party service providers, by malicious third parties, acting alone or in groups, or by more sophisticated organizations, including nation-states and state-sponsored organizations. Such risks may be elevated in connection with geopolitical tensions, including the Russia-Ukraine war. Certain unauthorized parties have in the past managed, and may in the future manage, to overcome our security measures and those of our third-party service providers to access and misuse systems and software by exploiting defects in design or manufacture, including bugs, vulnerabilities and other problems that unexpectedly compromise the security or operation of a product or system. Further, malicious third parties have in the past attempted, and may in the future attempt, to fraudulently induce our employees or users of our products, services or solutions to disclose sensitive, personal or confidential information via illegal electronic spamming, phishing or other tactics, and this risk is heightened in our current hybrid model working environment. Malicious actors may engage in fraudulent or abusive activities through our

products, services and solutions, including unauthorized use of accounts through stolen credentials, use of stolen credit cards or other payment vehicles, failure to pay for services accessed, or other activities that violate our terms of service. While we actively combat such fraudulent activities, we have experienced, and may in the future experience, impacts to our revenue from such activities. Further, unauthorized parties may also gain physical access to our facilities and infiltrate our information systems or attempt to gain

logical access to our products, services or information systems to access content and data. The loss of or unauthorized access to data, such as resulting from computer viruses, worms, ransomware or other malware may harm our systems, expose us to litigation or regulatory investigation and subject us to costly and time-intensive notification requirements.

We devote significant resources to address security vulnerabilities through engineering more secure products, enhancing security and reliability features in our products and systems, code hardening, conducting rigorous penetration tests, deploying updates to address security vulnerabilities, regularly reviewing our service providers' security controls, reviewing and auditing our products, services and solutions against information security control frameworks, providing resources, such as security training, to our workforce, and continually assessing and improving, as appropriate, our incident response process. Despite our preventative efforts, there is no assurance that our security measures will provide full effective protection from such events. The costs to prevent, eliminate, mitigate or remediate cybersecurity or other security problems and vulnerabilities are significant and may reduce our operating margins. Further, our efforts to address these problems, including notifying affected third parties when appropriate, have in the past been, and may in the future be, unsuccessful or delayed, which could result in business interruptions, cessation of service and loss of existing or potential customers.

Maintaining the security of our products, services and solutions is a critical issue for us and our customers. It is impossible to predict the extent, frequency or impact cybersecurity issues may have on us. Breaches of our security measures and the accidental loss, inadvertent disclosure or unauthorized dissemination of proprietary information or sensitive, personal or confidential data about us, our employees, our customers or their end users, including the potential loss or disclosure of such information or data could expose us, our employees, our customers or other individuals affected to a risk of loss or misuse of this information. Actual or perceived security vulnerabilities or incidents may result in claims or litigation and liability or fines (and have in the past led to such claims), costly and time-intensive notice requirements, governmental inquiry or oversight or a loss of customer confidence, any of which could harm our business and damage our brand and reputation. Our customers may also adopt security measures to protect their computer systems and their instances of our software from attack and may suffer a cybersecurity attack on their own systems, unrelated to our systems. Even if such breach is unrelated to our security systems, solutions or programs, such breach could cause us reputational harm and require us to incur significant economic and operational consequences to adequately assess and respond to their breach, and to implement additional safeguards designed to protect against future breaches.

While we maintain insurance to cover operational risks, such as cyber risk and technology outages, our insurance may not be sufficient to cover all liability described herein. These risks will likely increase as we expand our hosted offerings, integrate our products, services and solutions and store and process more data. Moreover, delayed sales, lower margins or lost customers resulting from disruptions caused by cyberattacks, overly burdensome preventative security measures or failure to fully meet information security control certification requirements could materially and adversely affect our financial results, stock price and reputation.

If we are unable to develop, manage and maintain critical third-party relationships, such as our sales, partner and distribution channels, suppliers and service providers, our revenue and business may be adversely affected.

We contract with a number of software distributors and other third parties to distribute our products, services and solutions, none of which are individually responsible for a material amount of our total net revenue in any recent period. Successfully managing our distribution channels and sales partners to reach various customers for our products, services and solutions is a complex and global process. If an agreement with one of our distributors or partners was terminated, any prolonged delay in securing a replacement distributor or partner could have a negative impact on our results of operations. We also face legal risk and potential reputational harm from the activities of these independent third parties including, but not limited to, export control violations, workplace conditions, corruption and anti-competitive behavior.

If our partner and distribution channels are not effective or if we stop or change our partner or distribution channels, we may lose sales opportunities, customers and revenue. We rely on third-party distribution platforms and are subject to changes in pricing structure, terms of service, privacy practices and other policies at the discretion of the platform provider. Any adverse changes to the terms with such third-party distribution platforms which we rely on to distribute our products, services and solutions may adversely affect our financial results. Additionally, our distribution channels may not continue to market

or sell our products, services and solutions effectively and may favor products, services and solutions of other companies.

We sell many products, services and solutions through our direct sales force. Risks associated with this sales channel include challenges related to hiring, retaining and motivating our direct sales force, and substantial amounts of ongoing training for sales representatives. Our business could be harmed if our direct sales expansion efforts do not generate the corresponding efficiencies and revenue we anticipated from such investment. In addition, the loss of key sales employees could impact our customer relationships and future ability to sell to certain accounts covered by such employees.

We rely on third-party service providers and technologies to deliver our products, services and business operations and to operate critical business systems, such as cloud-based infrastructure, data center facilities, encryption and authentication technology and company email, communications with customers. If such third parties are negatively affected, if we fail to effectively develop, manage and maintain our relationships with such third parties, or if we are unable to renew our agreements with them on favorable terms or at all, our expenses could significantly increase, and we and our customers may experience service interruptions. Any disruption or damage to, or failure of our systems generally, including the systems of our third-party platform providers, could result in interruptions in our services and harm our business. Further, interruptions in our services caused by us or our third-party service providers may cause us to issue credits or pay penalties, cause customers to make warranty or other claims against us or to terminate their subscriptions or contracts, and adversely affect our attrition rates and our ability to attract new customers, all of which may adversely affect our financial results. Our business and reputation would also be harmed if our customers and potential customers believe our services are unreliable.

We face various risks associated with our operating as a multinational corporation, and global adverse economic conditions may harm our business and financial condition.

We derive a large portion of our total revenue from, and have significant operations, outside of the United States. As a multinational corporation, we are subject to a number of risks, including from global adverse economic conditions, that are uncertain and beyond our control and that make forecasting operating results and decisions about future investments difficult, such as:

- inflation and actions taken by central banks to counter inflation, including increasing interest rates;
- international and regional economic, political and labor conditions, including any instability or security concerns abroad, such as uncertainty caused by economic sanctions, downturns and recessions, trade disputes, armed conflicts and wars;
- tax laws (including U.S. taxes on foreign subsidiaries);
- increased financial accounting and reporting burdens and complexities;
- changes in, or impositions of, legislative or regulatory requirements, including antitrust and competition regulations;
- changes in laws governing the free flow of data across international borders;
- inadequate local infrastructure and difficulties in managing and staffing international operations;
- costs, potential liability, delays or loss of sales resulting from trade restrictions imposed by the United States and other countries, as well as trade laws, including but not limited to economic sanctions and export controls;
- costs and delays associated with developing products in multiple languages; and
- operating in locations with a higher rate of corruption and fraudulent business practices.

Additionally, third parties we do business with and our customers have international operations and are also subject to the above risks. Adverse changes in global economic conditions have in the past resulted and may in the future result in our customers' and business partners' insolvency, inability to obtain credit to finance or purchase our products, services and solutions, or a delay in paying or an inability to pay their obligations to us. Other third parties, such as our service providers, suppliers and distributors, may be unable to deliver or be delayed in delivering critical services, products or technologies that we rely on, and our business and reputation may be harmed. Our customers' spending rate and demand for our products, services and solutions may also be adversely affected by the above risks. If our global sales are reduced, delayed or canceled because of any of the above risks, our revenue may decline.

Further, a disruption in global financial markets could impair our banking partners, on which we rely for operating cash management, capital market transactions and derivative programs. Such disruption could also negatively impact our customers' ability to pay us due to delays or inability to access their existing cash.

As of December 1, 2023, our investment portfolio consisted of asset-backed securities, corporate debt securities, money market funds, time deposits, U.S. agency securities and U.S. Treasury securities. These investments are subject to credit, liquidity, market, and interest rate risks as well as economic downturns or events that affect global or regional financial markets that may cause the value of our investments to decline, requiring impairment charges, which could adversely affect our financial condition.

If we are unable to recruit and retain key personnel, our business may be harmed, and our hybrid work model may present challenges, which could adversely impact our business.

Much of our future success depends on the continued service, availability and performance of our senior management and highly skilled personnel across all levels of our organization. Our senior management has acquired specialized knowledge and skills with respect to our business, and the loss of any of these individuals could harm our business, especially if we are not successful in developing adequate succession plans. Our efforts to attract, develop, integrate and retain highly skilled employees may be compounded by intensified restrictions on travel, immigration or the availability of work visas. The technology industry is often subject to substantial and continuous competition for talent, particularly with cybersecurity and AI backgrounds, and demand for cutting-edge or unique skill sets can be highly competitive, both of which are heightened with the increased availability of hybrid or remote working arrangements. We face an increasingly difficult challenge to attract and retain highly qualified security personnel to assist us in combating security threats. We may experience higher compensation costs to retain and recruit senior management and highly skilled personnel that may not be offset by improved productivity or increased sales. Our hybrid work environment may also present operational and workplace culture challenges, which could negatively affect our ability to execute against our business objectives and retain and recruit personnel.

We continue to hire personnel in countries where exceptional technical knowledge and other expertise are offered at lower costs, which increases the efficiency of our global workforce structure and reduces our personnel-related expenditures. Nonetheless, as globalization continues, competition for talent in those countries has increased, which may impact our ability to retain these employees and increase our compensation-related expenses.

Some of our enterprise offerings have extended and complex sales cycles, which may increase our costs and make our sales cycles unpredictable.

As we continue to target large enterprise customers for certain of our offerings, including Adobe Experience Cloud in our Digital Experience business and our Enterprise Term License Agreements in our Digital Media business, we may face increased costs, longer sales cycles, greater competition and less predictability in completing our sales. For our enterprise customers, the evaluation process may be longer and more involved, and require us to invest more in educating our customers about our products, services and solutions, particularly because the decision to use our products, services and solutions is often an enterprise-wide decision. We may be required to submit more robust proposals, participate in extended proof-of-concept evaluation cycles and engage in more extensive contract negotiations. In addition, our enterprise customers often demand more complex configurations and additional integration services and product features. Adverse macroeconomic conditions have caused, and may cause in the future, delays in our enterprise customers' purchasing decisions. Due to these factors, we often must devote greater sales support to certain enterprise customers, which increases our costs and time required to complete a sale, without assurance that potential customers will ultimately purchase our solutions. We also may be required to devote more services resources to implementation, which increases our costs, without assurance that customers receiving these services will renew or renew at the same level. Since the sales cycles for our enterprise offerings are multi-phased and complex, it is often unpredictable when a given sales cycle will close. Our revenue from enterprise customers may be affected by longer-than-expected sales and implementation cycles, extended collection cycles, potential deferral of revenue and alternative licensing arrangements. Additionally, our enterprise sales pattern has historically been uneven, where a higher percentage of a quarter's total sales occur during the final weeks of each quarter, which is common in our industry.

Risks Related to Laws and Regulations

We are subject to risks associated with compliance with laws and regulations globally, which may harm our business.

We are a global company subject to varied and complex laws, regulations and customs, both domestically and internationally. These laws and regulations relate to a number of aspects of our business, including trade compliance, import and export control, anti-boycott, economic sanctions and embargoes, data and transaction processing security, payment card industry data security standards, consumer protection, records management, user-generated content hosted on websites we operate, privacy practices, data residency, corporate governance, antitrust and competition, employee and third-party complaints, anti-corruption, gift policies, conflicts of interest, securities regulations and other regulatory requirements affecting trade and investment. The application of these laws and regulations to our business is often unclear and may at times conflict. For example, we are subject to the U.S. Foreign Corrupt Practices Act and other anti-corruption and anti-bribery laws, but in other foreign countries,

particularly those with developing economies, it is common to engage in practices that would be prohibited under such acts. We cannot provide assurance that our employees, contractors, agents, business partners and vendors will not take actions in violation of our internal policies, U.S. laws or other applicable international laws. Compliance with these laws and regulations may involve significant costs or require changes in our business practices that result in reduced revenue and profitability. Non-compliance could also result in fines, damages, criminal sanctions against us, our officers or our employees, prohibitions on the conduct of our business and damage to our reputation.

In addition, approximately 50% of our employees are located outside the United States. Accordingly, we are exposed to changes in laws governing our employee relationships in various U.S. and foreign jurisdictions, including laws and regulations regarding wage and hour requirements, fair labor standards, employee data privacy, unemployment tax rates, workers' compensation rates, citizenship requirements and payroll and other taxes, which likely would have a direct impact on our operating costs.

Increasing regulatory focus on privacy and security issues and expanding laws and regulatory requirements could impact our business models and expose us to increased liability.

We are subject to global data protection, privacy and security laws, regulations and codes of conduct that relate to our various business units and data processing activities, which may include sensitive, confidential, and personal information. These laws, regulations and codes are inconsistent across jurisdictions and are subject to evolving and differing (sometimes conflicting) interpretations. Government officials and regulators, privacy advocates and class action attorneys are increasingly scrutinizing how companies collect, process, use, store, share and transmit personal data. This scrutiny can result in new and shifting interpretations of existing laws, thereby further impacting our business. For example, the General Data Protection Regulation ("GDPR") in the European Economic Area, and the United Kingdom continues to be interpreted by European and UK courts in novel ways leading to shifting requirements, country specific differences in application and uncertain enforcement priorities. More recently enacted laws, such as the Personal Information Protection Law in China, and new and emerging state laws in the United States on privacy, data and related technologies, such as the California Consumer Privacy Act, the California Privacy Rights Act, the Colorado Privacy Act and the Virginia Consumer Data Protection Act, as well as industry self-regulatory codes and regulatory requirements, create new privacy and security compliance obligations and expand the scope of potential liability, either jointly or severally with our customers and suppliers. As a security example, pursuant to the U.S. Securities and Exchange Commission's Rules on Cybersecurity Risk Management, Strategy, Governance, and Incident Disclosure we are required to make certain disclosures related to material cybersecurity incidents and the reasonably likely impact of such an incident on Form 8-K and will be required to make certain other cybersecurity disclosures on Form 10-K. Determining whether a cybersecurity incident is notifiable or reportable may not be straightforward and any such mandatory disclosures could be costly and lead to negative publicity, loss of customer confidence in the effectiveness of our security measures, diversion of management's attention and governmental investigations.

While we have invested in readiness to comply with applicable requirements, the dynamic and evolving nature of these laws, regulations and codes, as well as their interpretation by regulators and courts, may affect our ability (and our enterprise customers' ability) to reach current and prospective customers, to respond to both enterprise and individual customer requests under the laws (such as individual rights of access, correction and deletion of their personal information), to implement our business models effectively and to adequately address disclosure requirements. These laws, regulations and codes may also impact our innovation and business drivers in developing new and emerging technologies (for example, AI and machine learning) and may impact demand for our offerings and force us to bear the burden of more onerous obligations in our contracts. Perception of our practices, products, services or solutions, even if unfounded, as a violation of individual privacy, data protection rights or cybersecurity requirements, subjects us to public criticism, lawsuits, investigations, claims and other proceedings by regulators, industry groups or other third parties, all of which could disrupt or adversely impact our business and reputation and expose us to increased liability, fines and other punitive measures including prohibition on sales of our products, services or solutions, restrictive judicial orders and disgorgement of data. Additionally, we collect and store information on behalf of our business customers and if our customers fail to comply with contractual obligations or applicable laws, it could result in litigation or reputational harm to us.

Transferring personal information across international borders is complex and subject to legal and regulatory requirements as well as active litigation and enforcement in a number of jurisdictions around the world, each of which could have an adverse impact on our ability to process and transfer personal data as part of our business operations. For example, European data transfers outside the European Economic Area are highly regulated and litigated. The mechanisms that we and many other companies rely upon for European data transfers (for example, Standard Contractual Clauses and the EU - US Data Privacy Framework) are the subject of legal challenge, regulatory interpretation and judicial decisions by the Court of Justice of the European Union. The suitability of Standard Contractual Clauses for data transfer in some scenarios has recently been the subject of legal challenge, and while the United States and the European Union reached agreement on the EU - US Data Privacy Framework, there are legal challenges to that data transfer mechanism as well. We continue to closely monitor for developments

related to valid transfer mechanisms available for transferring personal data outside the European Economic Area (including the EU - US Data Privacy Framework) and other countries that have similar trans-border data flow requirements and adjust our practices accordingly. The open judicial questions and regulatory interpretations related to the validity of transfers using Standard Contractual Clauses have resulted in some changes in the obligations required to provide our services in the European Union and could expose us to potential sanctions and fines for non-compliance. Several other countries, including China, Australia, New Zealand, Brazil, Hong Kong and Japan, have also established specific legal requirements for cross-border transfers of personal information and certain countries have also established specific legal requirements for data

localization (such as where personal data must remain stored in the country). If other countries implement more restrictive regulations for cross-border data transfers or do not permit data to leave the country of origin, such developments could adversely impact our business and our enterprise customers' business, our financial condition and our results of operations in those jurisdictions.

Our intellectual property portfolio is a valuable asset and we may not be able to protect our intellectual property rights, including our source code, from infringement or unauthorized copying, use or disclosure.

Our patents, trademarks, trade secrets, copyrights and other intellectual property are valuable assets to us. Infringement or misappropriation of such intellectual property could result in lost revenues and ultimately reduce their value. We protect our intellectual property by relying on federal, state and common law rights in the United States and internationally, as well as a variety of administrative procedures and contractual restrictions. Despite our efforts, protecting our intellectual property rights and preventing unauthorized use of our intellectual property are inherently difficult. For instance, we actively combat software piracy, but we continue to lose revenue due to illegal use of our software. Third parties may illegally copy and sell counterfeit versions of our products. To the extent counterfeit installations and sales replace otherwise legitimate ones, our operating results could be adversely affected. We apply for patents in the United States and in foreign countries, but we are not always successful in obtaining patent protection or in obtaining such protection timely to meet our business needs. Our patents may be invalidated or circumvented. Moreover, due to challenges in detecting patent infringement pertaining to generative AI technologies, it may be more difficult to protect our generative AI and related innovations with patents. Additionally, if we use generative AI in the creation of our source code, we may not be able to rely on copyright to protect such intellectual property. Further, the laws of some foreign countries do not provide the same level of intellectual property protection as U.S. laws and courts and could fail to adequately protect our intellectual property rights. If unauthorized disclosure of our source code occurs through security breach, cyber-attack or otherwise, we could lose future trade secret protection for that source code. Such loss could make it easier for third parties to compete with our products by copying functionality, which could cause us to lose customers and could adversely affect our revenue and operating margins. If we cannot protect our intellectual property against unauthorized copying, use, or other misappropriation, our business could be harmed.

We are, and may in the future become, subject to litigation, regulatory inquiries and intellectual property infringement claims, which could result in an unfavorable outcome and have an adverse effect on our business, financial condition, results of operation and cash flows.

We are subject to various legal proceedings (including class action lawsuits), claims and regulatory inquiries that are not yet resolved and additional claims, enforcement actions and inquiries may arise in the future. Any proceedings, actions, claims or inquiries initiated by or against us, whether successful or not, may be time consuming; result in costly litigation, damage awards, consent decrees, injunctive relief or increased costs of business; require us to change our business practices or products; result in negative publicity; require significant amounts of management time; result in the diversion of significant operational resources, or otherwise harm our business and financial results.

Additionally, we are currently, and may in the future be subject to claims, negotiations and complex, protracted litigation relating to disputes regarding the validity or alleged infringement of third-party intellectual property rights, including patent rights. Intellectual property disputes and litigation are typically costly and can be disruptive to our business operations by diverting the attention of management and key personnel. Third-party intellectual property disputes, including those initiated by patent assertion entities, could subject us to significant liabilities, require us to enter into royalty and licensing arrangements on unfavorable terms, prevent us from offering certain products, services or solutions, subject us to injunctions restricting our sales, cause severe disruptions to our operations or the markets in which we compete, or require us to satisfy indemnification commitments with our customers, including contractual provisions under various license arrangements and service agreements. In addition, we have incurred, and may in the future incur, significant costs in acquiring the necessary third-party intellectual property rights for use in our products, in some cases to fulfill contractual obligations with our customers. Any of these occurrences could significantly harm our business.

We have not prevailed, and may not in the future prevail, in every lawsuit or dispute. *For further information about specific litigation and proceedings, see the section titled "Legal Proceedings" contained in Part II, Item 8, Note 16 of our Notes to Consolidated Financial Statements of this report.*

Changes in tax rules and regulations or interpretations thereof may adversely affect our effective tax rates.

We are a U.S.-based multinational company subject to tax in multiple domestic and foreign tax jurisdictions. Significant judgment is required in determining our current provision for income taxes and deferred tax assets or liabilities. Tax laws in the United States as well as other countries and jurisdictions in which we conduct business are subject to change as new laws are passed and/or new interpretations are made available, which may have a material impact on our business. These countries, governmental bodies, such as the European Commission of the European Union, and intergovernmental economic

organizations, such as the Organization for Economic Cooperation and Development, have made or could make unprecedented assertions about how taxation is determined and, in some cases, have proposed or enacted new laws that are contrary to the way in which rules and regulations have historically been interpreted and applied.

Changes in our operating landscape, such as changes in laws or interpretations of tax rules, could adversely affect our effective tax rates and/or cause us to respond by making changes to our business structure, which could adversely affect our operations and financial results. Our future effective tax rates are likely to be unfavorably affected by changes in the tax rates in jurisdictions where our income is earned, changes in jurisdictions in which our profits are determined to be earned and taxed, changes in the valuation of our deferred tax assets and liabilities, changes in or interpretation of tax rules and regulations in the jurisdictions in which we do business, or unexpected negative changes in business and market conditions that could reduce certain tax benefits. An increase in our effective tax rate would reduce our profitability.

Moreover, we are subject to the examination of our income tax returns by domestic and foreign tax authorities. We regularly assess the likelihood of outcomes resulting from these examinations to determine the adequacy of our provision for income taxes and have reserved for potential adjustments that may result from these examinations. While we believe our tax estimates are reasonable, we cannot provide assurance that the final determination of any of these examinations will not have an adverse effect on our financial position and results of operations.

Contracting with government entities exposes us to additional risks inherent in the government procurement process.

We provide products, services and solutions, directly and indirectly, to a variety of domestic and foreign government entities, which introduces certain risks and challenges not present in private commercial agreements, including varying governmental budgeting processes, fluctuations due to government spending cuts and shutdowns, highly competitive and lengthy bidding process that may be subject to political influence and adherence to complex procurement regulations and other government-specific contractual requirements. We incur significant up-front time and costs without any assurance that we will win a contract. Operating within a highly regulated industry, we have been and may in the future be subject to audits and investigations relating to our government contracts and any violations could result in termination of contracts and various civil and criminal penalties and administrative sanctions, including payment of fines and suspension or debarment from future government business, as well as harm to our reputation and financial results. We have made, and may continue to make, significant investments to support future sales opportunities in various government sectors, including to obtain various security authorizations and certifications. Such processes are complex, lengthy and can often be delayed. Furthermore, requirements may change, or we may be unable to achieve or sustain one or more government authorizations or certifications, which could affect our ability to sell to government entities until we meet any revised requirements.

Risks Related to Financial Performance

If there is a change in subscriptions or renewals in a reporting period, this could cause our financial results to suffer and may not be immediately reflected in our revenue and financial results for that period because we recognize revenue over the subscription term.

Our offerings are typically subscription-based, pursuant to product and service agreements. We generally recognize revenue from our subscription offerings ratably over the terms of their subscription agreements, which typically range from 1 to 36 months. As a result, most of the subscription revenue we report each quarter is the result of subscription agreements entered into during previous quarters. Lower sales and subscriptions, reduced demand for our products, services and solutions, and increases in our attrition rate in any given period may not be fully reflected in our results of operations until future periods. Our subscription model could also make it difficult for us to rapidly increase our revenue from subscription-based or hosted services through additional sales in any period, as revenue from new customers will be recognized over the applicable subscription term. Our renewal rates may decline or fluctuate as a result of a number of factors, including our customers' level of satisfaction, our ability to continue enhancing features and functionality, reliability of our offerings, prices of ours and competitors' offerings, the actual or perceived information security of our systems and services, decreases in the size of our customer base, changes as a result of regulatory or legal requirements, changes in the composition of our customer base and reductions in our customers' spending levels or declines in customer activity. If our customers do not renew their subscriptions or if they renew on terms less favorable to us, our revenue may decline. Further, such impact on our revenue may not be immediately reflected in our financial results in the period in which our renewal rates changed and may adversely

affect our financial results in future periods. If any of our assumptions about revenue from our subscription-based offerings prove incorrect, our actual results may suffer and vary from those anticipated.

We are subject to fluctuations in foreign currency exchange rates and may not be able to effectively hedge our exposure.

Our operating results and performance metrics are subject to fluctuations in foreign currency exchange rates due to the global scope of our business. Geopolitical and economic events, including war, trade disputes, economic sanctions and

emerging market volatility, and associated uncertainty have caused, and may in the future cause, currencies to fluctuate. Accordingly, amounts reported as annualized recurring revenue, a performance metric which we measure at currency rates that are set at the beginning of each fiscal year and held constant throughout the year, may vary from actual revenue recognized in accordance with generally accepted accounting principles in the United States.

We attempt to mitigate a portion of these foreign currency exchange risks to our operating results through foreign currency hedging based on our judgment of the appropriate trade-offs among risk, opportunity and expense. We regularly review our hedging program and make adjustments that we believe are appropriate. Our hedging activities have not, and may not in the future, offset more than a portion of the adverse financial impact, including on our actual revenue recognized, resulting from unfavorable movement in foreign currency exchange rates, which could adversely affect our financial condition, business performance or results of operations.

If our goodwill or intangible assets become impaired, then we could be required to record a significant charge to earnings.

We test goodwill for impairment at least annually. We review our goodwill and intangible assets for impairment when events or changes in circumstances indicate the carrying value may not be recoverable, including declines in stock price, market capitalization or reduced future cash flow estimates and slower growth rates in our industry. Depending on the results of our review, we may be required to record a significant charge to earnings in our consolidated financial statements during the period in which any impairment of our goodwill or intangible assets was determined, negatively impacting our results of operations.

Our existing and future debt obligations may adversely affect our financial condition and future financial results.

As of December 1, 2023, we had \$3.65 billion in senior unsecured notes outstanding and a \$3 billion commercial paper program with no amounts outstanding. We also had a \$1.5 billion senior unsecured revolving credit agreement and \$3.5 billion delayed draw term loan agreement, both of which were undrawn. Subsequent to December 1, 2023, the delayed draw term loan agreement was terminated. This debt or future additional indebtedness may adversely affect our financial condition and future financial results by, among other things:

- requiring the dedication of a portion of our expected cash flows from operations to service our debt, thereby reducing the amount of expected cash flows available for other purposes, including capital expenditures and acquisitions;
- increasing our vulnerability to adverse changes in our business and general economic and industry conditions; and
- limiting our ability to obtain future financing for working capital, capital expenditures, future acquisitions, general corporate or other purposes, which may also impact our ability to service and repay outstanding indebtedness as it becomes due.

Our senior unsecured notes, commercial paper program and revolving credit agreement impose restrictions on us and require us to maintain compliance with specified covenants. Our ability to comply with these covenants may be affected by events beyond our control. If we breach any of the covenants and do not obtain a waiver from the noteholders or lenders, then, subject to applicable cure periods, any outstanding debt may be declared immediately due and payable.

In addition, changes by any rating agency to our credit rating may negatively impact the value and liquidity of both our debt and equity securities, as well as the potential costs associated with a refinancing of our debt. Under certain circumstances, if our credit ratings are downgraded or other negative action is taken, the interest rate payable by us under our revolving credit agreement could increase. Downgrades in our credit ratings could also restrict our ability to obtain additional financing in the future and affect the terms of any such financing.

General Risk Factors

Catastrophic events, including events associated with climate change, may disrupt our business and adversely affect our financial condition and results of operations.

Our business relies on our network infrastructure and enterprise apps, internal technology systems and websites. A disruption, infiltration or failure of our systems, data centers or operations, or those of

our third-party service providers due to a major earthquake, other natural disasters, including climate-related events (such as drought, water security, heat waves, cold waves, wildfires and poor air quality), power shutoff or loss, telecommunications failure, epidemic, pandemic, war, terrorist attack or other catastrophic event, could cause interruptions to our systems and business operations, damage to critical infrastructure, loss of intellectual property, data security breaches and data loss. Our corporate headquarters, significant research and development activity, certain of our data centers and other critical business operations are in the San Francisco Bay Area and the Salt Lake Valley Area, both of which are near major earthquake faults. A catastrophic event, particularly one that may

disrupt our data centers or our critical activities, could prevent us from conducting normal business operations and providing our products, services and solutions, which could adversely affect our business. A catastrophic event could negatively impact a country or region in which we sell and, in turn, decrease demand for our products, services and solutions, which could negatively impact our business. Climate-related catastrophic events that may harm our business are also increasing in frequency and severity. We may be subject to additional climate-related regulations and reporting requirements and changing market dynamics and stakeholder expectations regarding climate change and our environmental impacts, all of which may impact our business, financial condition and results of operations.

The occurrence of an epidemic or a pandemic, such as the COVID-19 pandemic, has had and may continue to have an adverse effect on our operating results. The extent to which epidemics and pandemics impact our financial condition or results of operations will depend on many factors outside of our control and whether there is a material impact on the businesses or productivity of our customers, employees, suppliers and other partners. A global pandemic may also intensify the other risks described in this Part I, Item 1A of this report.

Our stock price may be volatile and your investment could lose value.

Our stock price has been and may continue to be volatile and subject to fluctuations. All factors described in this Part I, Item 1A of this report, some of which are beyond our control, may affect our stock price, including:

- shortfalls in or changes to estimates, recommendations or expectations about our revenue, margins, earnings, annualized recurring revenue or other key performance metrics set forth in guidance we provide or provided by financial analysts;
- changes in investor and analyst valuation models for our stock;
- changes in unearned revenue, remaining performance obligations and revenue recognized at a point in time, all of which may impact implied growth rates;
- developments related to products or services, technological advancements, strategic alliances, acquisitions or significant transactions by us or our competitors;
- changes in the amounts or frequency of stock repurchases;
- the loss of large customers or our inability to retain or increase sales to existing customers or attract new customers;
- changes to our management team, including recruitment or departure of key personnel;
- variations in our or our competitors' results of operations, changes in the competitive landscape generally and developments in our industry;
- general economic, political or market conditions; and
- other events, such as significant litigation and regulatory actions.

In addition, the market for technology stocks or the stock market in general has experienced, and may in the future experience, extreme fluctuations, which has caused, and may in the future cause, our stock price to decline for reasons unrelated to our financial performance. Volatility in our stock price has increased, and in the future may increase, our susceptibility to securities class action litigation, which could result in substantial costs and divert management's attention and resources, which may adversely affect our business.

ITEM 1B. UNRESOLVED STAFF COMMENTS

None.

ITEM 1C. CYBERSECURITY

Not applicable.

ITEM 2. PROPERTIES

Our corporate headquarters is located in San Jose, California where we occupy approximately 1.7 million square feet of office space. We own all of our San Jose, California properties which we use for research, product development, sales, marketing and administrative purposes. We own and lease properties in various locations throughout the United States which we also use for research, product development, sales, marketing and administrative purposes, and data centers.

Outside of the United States, we own and lease properties throughout Europe, Middle East and Africa (“EMEA”) and Asia-Pacific (“APAC”) for research, product development, sales, marketing and administrative purposes. The largest properties we occupy outside of the United States are our Bangalore, India and Noida, India offices which are approximately 0.7 million and 0.5 million square feet, respectively. We own and lease these properties in India.

During fiscal 2023, we continued to operate under a hybrid work model. We believe our existing facilities, both owned and leased, are in good operating condition and suitable for the conduct of our business.

See Note 18 of our Notes to Consolidated Financial Statements for further information regarding our lease obligations.

ITEM 3. LEGAL PROCEEDINGS

The material set forth in the section titled “Legal Proceedings” in Note 16 of our Notes to Consolidated Financial Statements is incorporated herein by reference.

ITEM 4. MINE SAFETY DISCLOSURES

Not applicable.

PART II

ITEM 5. MARKET FOR REGISTRANT'S COMMON EQUITY, RELATED STOCKHOLDER MATTERS AND ISSUER PURCHASES OF EQUITY SECURITIES

Market Information for Common Stock

Our common stock is traded on the Nasdaq Global Select Market under the symbol "ADBE."

Stockholders

According to the records of our transfer agent, there were 905 holders of record of our common stock on January 5, 2024. Because many of such shares are held by brokers and other institutions on behalf of stockholders, we are unable to estimate the total number of stockholders represented by these record holders.

Dividends

We do not anticipate paying any cash dividends in the foreseeable future.

Issuer Purchases of Equity Securities

Below is a summary of stock repurchases for the three months ended December 1, 2023. See Note 14 of our Notes to Consolidated Financial Statements for information regarding our stock repurchase programs.

Period	Total Number of Shares Repurchased	Average Price Paid Per Share	Total Number of Shares Purchased as Part of Publicly Announced Plans	Approximate Dollar Value that May Yet be Purchased Under the Plans ⁽¹⁾
	(in millions, except average price per share)			
Beginning repurchase authority				\$ 3,483
September 2 — September 29, 2023				
Shares repurchased	0.6	\$ 538.26	0.6	\$ (333)
September 30 — October 27, 2023				
Shares repurchased	0.6	\$ 521.39	0.6	\$ (328) ⁽²⁾
October 28 — December 1, 2023				
Shares repurchased	0.6	\$ 536.94	0.6	\$ (318) ⁽²⁾
Total	1.8		1.8	\$ 2,504

⁽¹⁾ In December 2020, the Board of Directors granted authority to repurchase up to \$15 billion in our common stock through the end of fiscal 2024.

⁽²⁾ In September 2023, we entered into a structured stock repurchase agreement with a large financial institution whereupon we provided them with a prepayment of \$1 billion. As of December 1, 2023, approximately \$354 million of the prepayment remained under this agreement.

ITEM 6. [RESERVED]

ITEM 7. MANAGEMENT'S DISCUSSION AND ANALYSIS OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS

The following discussion should be read in conjunction with our Consolidated Financial Statements and Notes thereto. Discussion regarding our financial condition and results of operations for fiscal 2022 as compared to fiscal 2021 is included in Item 7 of our Annual Report on Form 10-K for the fiscal year ended December 2, 2022, filed with the SEC on January 17, 2023.

CRITICAL ACCOUNTING POLICIES AND ESTIMATES

In preparing our Consolidated Financial Statements in accordance with GAAP and pursuant to the rules and regulations of the SEC, we make assumptions, judgments and estimates that affect the reported amounts of assets, liabilities, revenue and expenses, and related disclosures of contingent assets and liabilities. We base our assumptions, judgments and estimates on historical experience and various other factors that we believe to be reasonable under the circumstances. Actual results could differ materially from these estimates under different assumptions or conditions. We evaluate our assumptions, judgments and estimates on a regular basis. We also discuss our critical accounting policies and estimates with the Audit Committee of the Board of Directors.

We believe that the assumptions, judgments and estimates involved in the accounting for revenue recognition and income taxes have the greatest potential impact on our Consolidated Financial Statements. These areas are key components of our results of operations and are based on complex rules requiring us to make judgments and estimates, and consequently, we consider these to be our critical accounting policies. Historically, our assumptions, judgments and estimates relative to our critical accounting policies have not differed materially from actual results.

Revenue Recognition

Our contracts with customers may include multiple goods and services. For example, some of our offerings include both on-premise and/or on-device software licenses and cloud services. Determining whether the software licenses and the cloud services are distinct from each other, and therefore performance obligations to be accounted for separately, or not distinct from each other, and therefore part of a single performance obligation, may require significant judgment. We have concluded that the on-premise/on-device software licenses and cloud services provided in our Creative Cloud and Document Cloud subscription offerings are not distinct from each other such that revenue from each offering should be recognized ratably over the subscription period for which the cloud services are provided. In reaching this conclusion, we considered the nature of our promise to Creative Cloud and Document Cloud customers, which is to provide a complete end-to-end creative design or document workflow solution that operates seamlessly across multiple devices and teams. We fulfill this promise by providing access to a solution that integrates cloud-based and on-premise/on-device features that, together through their integration, provide functionalities, utility and workflow efficiencies that could not be obtained from either the on-premise/on-device software or cloud services on their own.

Cloud-based features that are integral to our Creative Cloud and Document Cloud offerings and that work together with the on-premise/on-device software include, but are not limited to: Creative Cloud Libraries, which enable customers to access their work, settings, preferences and other assets seamlessly across desktop and mobile devices and collaborate across teams in real time; shared reviews which enable simultaneous editing and commenting of digital assets across desktop, mobile and web; automatic cloud rendering of a design which enables it to be worked on in multiple mediums; and Sensei, Adobe's cloud-hosted artificial intelligence and machine learning framework, which enables features such as automated photo-editing, photograph content-awareness, natural language processing, optical character recognition and automated document tagging.

Accounting for Income Taxes

We use the asset and liability method of accounting for income taxes. Under this method, income tax expense is recognized for the amount of taxes payable or refundable for the current year. In addition, deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the financial reporting and tax bases of assets and liabilities, and for operating loss and tax credit carryforwards. Significant judgment is required in determining our current provision for income taxes and deferred tax assets or liabilities. We record a valuation allowance to reduce deferred tax assets to an amount for which realization is more likely than not.

Our assumptions, judgments and estimates relative to the current provision for income taxes take into account our interpretation and application of current tax laws and possible outcomes of current and future examinations conducted by domestic and foreign tax authorities. We have established reserves

for income taxes to address potential exposures involving tax positions that could be challenged by tax authorities. We regularly assess the likelihood of outcomes resulting from these examinations to determine the adequacy of our provision for income taxes and associated reserves. To the extent that the final

determination of any of these examinations is different from the amounts recorded, such differences will affect the provision for income taxes and the effective tax rate in the period in which such determination is made.

Recent Accounting Pronouncements

See Note 1 of our Notes to Consolidated Financial Statements for information regarding recent accounting pronouncements that are of significance or potential significance to us.

RESULTS OF OPERATIONS

Overview of 2023

For our fiscal 2023, we experienced strong demand across our Digital Media and Digital Experience offerings, driven by our innovative product roadmap. As we execute on our long-term growth initiatives and deliver product innovation, we have continued to experience growth in software-based subscription revenue across our portfolio of offerings.

Digital Media

In our Digital Media segment, we are a market leader with Creative Cloud, our subscription-based offering which provides desktop tools, mobile apps and cloud-based services for designing, creating and publishing rich content and immersive 3D experiences. Creative Cloud includes Adobe Express, a web and mobile app designed to enable a broad spectrum of users, including novice content creators, communicators and creative professionals, to create, edit and customize content quickly and easily with content-first, task-based solutions. In September 2023, we released Adobe Firefly, a group of creative generative AI models designed to generate high quality images and text effects. Adobe Firefly-powered generative AI features are also available across Creative Cloud apps including Adobe Photoshop and Adobe Express. Creative Cloud delivers value with deep, cross-product integration, frequent product updates and feature enhancements, cloud-enabled services including storage and syncing of files across users' devices, machine learning and artificial intelligence, access to marketplace, social and community-based features with our Adobe Stock and Behance services, app creation capabilities, tools which assist with enterprise deployments and team collaboration, and affordable pricing for cost-sensitive customers.

We offer Creative Cloud for individuals, students, teams and enterprises. We expect Creative Cloud will drive sustained long-term revenue growth through a continued expansion of our customer base by attracting new users with new features and products like Adobe Express and Adobe Firefly that make creative tools accessible to first-time creators and communicators, and delivering new features and technologies to existing customers with our latest releases such as share for review and generative AI capabilities. We have also built out a marketplace for Creative Cloud subscribers to enable the delivery and purchase of stock content in our Adobe Stock service. Overall, our strategy with Creative Cloud is designed to enable us to increase our revenue with existing users, continue to attract new customers, and grow our recurring and predictable revenue stream that is recognized ratably.

We continue to implement strategies that are designed to accelerate awareness, consideration and purchase of subscriptions to our Creative Cloud offerings. These strategies include increasing the value Creative Cloud users receive, such as offering new and enhanced desktop, web and mobile apps, as well as targeted promotions and offers that attract past customers and potential users to experience and ultimately subscribe to Creative Cloud. Because of the shift towards Creative Cloud subscriptions and Enterprise Term License Agreements ("ETLAs"), revenue from perpetual licensing of our Creative products has been immaterial to our business.

We are also a market leader with our Document Cloud offerings built around our Adobe Acrobat family of products, with a set of integrated mobile apps and cloud-based document services which enable users to create, collaborate, review, approve, sign and track documents regardless of platform or application source type. Document Cloud, which enhances the way people manage critical documents at home, in the office and across devices, includes Adobe Acrobat, Adobe Acrobat Sign and Adobe Scan. Adobe Acrobat is offered both through subscription and perpetual licenses, and is also included in our Creative Cloud All Apps subscription offering.

As part of our Creative Cloud and Document Cloud strategies, we utilize a data-driven operating model ("DDOM") and our Adobe Experience Cloud solutions to raise awareness of our products, drive new customer acquisition, engagement and retention, and optimize customer journeys, which continue to contribute strong product-led growth in the business.

Annualized Recurring Revenue (“ARR”) is currently the key performance metric our management uses to assess the health and trajectory of our overall Digital Media segment. ARR should be viewed independently of revenue, deferred revenue and remaining performance obligations as ARR is a performance metric and is not intended to be combined with any of these items. We adjust our reported ARR on an annual basis to reflect any exchange rate changes. Our reported ARR results in the

[Table of Contents](#)

current fiscal year are based on currency rates set at the beginning of the year and held constant throughout the year for measurement purposes. We calculate ARR as follows:

Creative ARR	Annual Value of Creative Cloud Subscriptions and Services + Annual Creative ETLA Contract Value
Document Cloud ARR	Annual Value of Document Cloud Subscriptions and Services + Annual Document Cloud ETLA Contract Value
Digital Media ARR	Creative ARR + Document Cloud ARR

Creative ARR exiting fiscal 2023 was \$12.37 billion, up from \$10.98 billion at the end of fiscal 2022. Document Cloud ARR exiting fiscal 2023 was \$2.81 billion, up from \$2.28 billion at the end of fiscal 2022. Total Digital Media ARR grew to \$15.17 billion at the end of fiscal 2023, up from \$13.26 billion at the end of fiscal 2022. Revaluing our ending ARR for fiscal 2023 using currency rates determined at the beginning of fiscal 2024, our Digital Media ARR at the end of fiscal 2023 would be \$15.33 billion or approximately \$160 million higher than the ARR reported above.

Our success in driving growth in ARR has positively affected our revenue growth. Creative revenue in fiscal 2023 was \$11.52 billion, up from \$10.46 billion in fiscal 2022 and representing 10% year-over-year growth. Document Cloud revenue in fiscal 2023 was \$2.70 billion, up from \$2.38 billion in fiscal 2022 and representing 13% year-over-year growth. Total Digital Media segment revenue grew to \$14.22 billion in fiscal 2023, up from \$12.84 billion in fiscal 2022 and representing 11% year-over-year growth driven by strong net new user growth.

Digital Experience

We are a market leader in the fast-growing category addressed by our Digital Experience segment. The Adobe Experience Cloud apps and services are designed to manage customer journeys, enable personalized experiences at scale and deliver intelligence for businesses of any size in any industry. Our differentiation and competitive advantage are strengthened by our ability to use the Adobe Experience Platform to integrate our comprehensive set of solutions.

Adobe Experience Cloud delivers solutions for our customers across the following strategic growth pillars:

- *Data insights and audiences.* Our products, including Adobe Analytics, Customer Journey Analytics, Adobe Product Analytics, and our Real-time Customer Data Platform, deliver actionable data in real time to provide highly tailored and adaptive experiences across platforms.
- *Content and commerce.* Our products help customers manage, deliver, monetize, and optimize content delivery through Adobe Experience Manager and build multi-channel commerce experiences for B2B and B2C customers on a single platform with Adobe Commerce.
- *Customer journeys.* Our products help businesses manage, test, target and personalize customer journeys delivered as campaigns across B2B and B2C use cases, including through Adobe Marketo Engage, Adobe Campaign, Adobe Target and Adobe Journey Optimizer.
- *Marketing planning and workflow.* Our products help businesses intelligently measure, optimize, and plan marketing investments through the Adobe Mix Modeler, and allow businesses to strategically plan, manage, collaborate, and execute on workflows for marketing campaigns and other projects at speed and scale with our enterprise work management app, Adobe Workfront.

In addition to chief marketing officers, chief revenue officers and digital marketers, users of our Digital Experience solutions include advertisers, campaign managers, publishers, data analysts, content managers, social marketers, marketing executives and information management and technology executives. These customers often are involved in workflows that integrate other Adobe products, such as our Digital Media offerings. By combining the creativity of our Digital Media business with the science of our Digital Experience business, such as with our new Adobe GenStudio solution, we help our customers to more efficiently and effectively make, manage, measure and monetize their content across every channel with an end-to-end workflow and feedback loop.

We utilize a direct sales force to market and license our Digital Experience solutions, as well as an extensive ecosystem of partners, including marketing agencies, systems integrators and independent software vendors that help license and deploy our solutions to their customers. We have made significant investments to broaden the scale and size of all of these routes to market, and our recent financial results reflect the success of these investments and our experience-led growth strategy.

Digital Experience revenue was \$4.89 billion in fiscal 2023, up from \$4.42 billion in fiscal 2022 which represents 11% year-over-year growth. Driving this growth was the increase in subscription revenue, which grew to \$4.33 billion in fiscal 2023 from \$3.88 billion in fiscal 2022, representing 12% year-over-year growth.

Macroeconomic Conditions

As a corporation with an extensive global footprint, we are subject to risks and exposures from the evolving macroeconomic environment, including the effects of increased global inflationary pressures and interest rates, fluctuations in foreign currency exchange rates, potential economic slowdowns or recessions and geopolitical pressures, including the unknown impacts of current and future trade regulations. We continuously monitor the direct and indirect impacts of these circumstances on our business and financial results. For example, foreign currency exchange rate fluctuations have negatively impacted our revenue and earnings during fiscal 2023, and may continue to negatively impact our financial results in fiscal 2024.

While our revenue and earnings are relatively predictable as a result of our subscription-based business model, the broader implications of these macroeconomic events on our business, results of operations and overall financial position, particularly in the long term, remain uncertain. *See the section titled "Risk Factors" in Part I, Item 1A of this report for further discussion of the possible impact of these macroeconomic issues on our business.*

Financial Performance Summary for Fiscal 2023

- Total Digital Media ARR of approximately \$15.17 billion as of December 1, 2023 increased by \$1.91 billion, or 14%, from \$13.26 billion as of December 2, 2022.
- Creative revenue of \$11.52 billion increased by \$1.06 billion, or 10%, during fiscal 2023, from \$10.46 billion in fiscal 2022. Document Cloud revenue of \$2.70 billion increased by \$316 million, or 13%, during fiscal 2023, from \$2.38 billion in fiscal 2022.
- Digital Experience revenue of \$4.89 billion increased by \$471 million, or 11%, during fiscal 2023, from \$4.42 billion in fiscal 2022.
- Remaining performance obligations of \$17.22 billion as of December 1, 2023 increased by \$2.02 billion, or 13%, from \$15.19 billion as of December 2, 2022.
- Cost of revenue of \$2.35 billion increased by \$189 million, or 9%, during fiscal 2023, from \$2.17 billion in fiscal 2022.
- Operating expenses of \$10.41 billion increased by \$1.06 billion, or 11%, during fiscal 2023, from \$9.34 billion in fiscal 2022.
- Net income of \$5.43 billion increased by \$672 million, or 14%, during fiscal 2023, from \$4.76 billion in fiscal 2022.
- Cash flows from operations of \$7.30 billion during fiscal 2023 decreased by \$536 million, or 7%, from \$7.84 billion in fiscal 2022.

Revenue

Revenue for fiscal 2021 benefited from an extra week in the first quarter of fiscal 2021 due to our 52/53 week financial calendar whereby fiscal 2021 was a 53-week year compared with fiscal 2023 and 2022 which were 52-week years.

<i>(dollars in millions)</i>	2023	2022	2021	% Change 2023-2022
Subscription	\$ 18,284	\$ 16,388	\$ 14,573	12 %
Percentage of total revenue	94 %	93 %	92 %	
Product	460	532	555	(14)%
Percentage of total revenue	2 %	3 %	4 %	
Services and other	665	686	657	(3)%
Percentage of total revenue	4 %	4 %	4 %	
Total revenue	<u>\$ 19,409</u>	<u>\$ 17,606</u>	<u>\$ 15,785</u>	10 %

Subscription

Our subscription revenue is comprised primarily of fees we charge for our subscription and hosted service offerings, and related support, including Creative Cloud and certain of our Adobe Experience Cloud and Document Cloud services. We primarily recognize subscription revenue ratably over the term of agreements with our customers, beginning with commencement of service. Subscription revenue related to certain offerings, where fees are based on a number of transactions and invoicing is aligned to the pattern of performance, customer benefit and consumption, are recognized on a usage basis.

We have the following reportable segments: Digital Media, Digital Experience, and Publishing and Advertising. Subscription revenue by reportable segment for fiscal 2023, 2022 and 2021 is as follows:

<i>(dollars in millions)</i>	2023	2022	2021	% Change 2023-2022
Digital Media	\$ 13,838	\$ 12,385	\$ 11,048	12 %
Digital Experience	4,331	3,880	3,379	12 %
Publishing and Advertising	115	123	146	(7)%
Total subscription revenue	<u>\$ 18,284</u>	<u>\$ 16,388</u>	<u>\$ 14,573</u>	12 %

Product

Our product revenue is comprised primarily of fees related to licenses for on-premise software purchased on a perpetual basis, for a fixed period of time or based on usage for certain of our original equipment manufacturer and royalty agreements. We primarily recognize product revenue at the point in time the software is available to the customer, provided all other revenue recognition criteria are met.

Services and Other

Our services and other revenue is comprised primarily of fees related to consulting, training, maintenance and support for certain on-premise licenses that are recognized at a point in time and our advertising offerings. We typically sell our consulting contracts on a time-and-materials or fixed-fee basis. These revenues are recognized as the services are performed for time-and-materials contracts and on a relative performance basis for fixed-fee contracts. Training revenues are recognized as the services are performed. Our maintenance and support offerings, which entitle customers, partners and developers to receive desktop product upgrades and enhancements or technical support, depending on the offering, are generally recognized ratably over the term of the arrangement. Transaction-based advertising revenue is recognized on a usage basis as we satisfy the performance obligations to our customers.

Segments

In fiscal 2023, we categorized our products into the following reportable segments:

- *Digital Media*—Our Digital Media segment provides products and services that enable individuals, teams, businesses, and enterprises to create, publish and promote their content anywhere and accelerate their productivity by transforming how they view, share, engage with and collaborate on documents and creative content. Our customers include creative professionals, including photographers, video editors, graphic and experience designers

and game developers; communicators, including content creators, students, marketers and knowledge workers; and consumers.

- *Digital Experience*—Our Digital Experience segment provides an integrated platform and set of products, services and solutions that enable businesses to create, manage, execute, measure, monetize and optimize customer experiences that span from analytics to commerce. Our customers include marketers, advertisers, agencies, publishers, merchandisers, merchants, web analysts, data scientists, developers and executives across the C-suite.
- *Publishing and Advertising*—Our Publishing and Advertising segment contains legacy products and services that address diverse market opportunities, including eLearning solutions, technical document publishing, web conferencing, document and forms platform, web app development, high-end printing and our Adobe Advertising offerings.

Segment Information

<i>(dollars in millions)</i>	2023	2022	2021	% Change 2023-2022
Digital Media	\$ 14,216	\$ 12,842	\$ 11,520	11 %
Percentage of total revenue	73 %	73 %	73 %	
Digital Experience	4,893	4,422	3,867	11 %
Percentage of total revenue	25 %	25 %	24 %	
Publishing and Advertising	300	342	398	(12)%
Percentage of total revenue	2 %	2 %	3 %	
Total revenue	<u>\$ 19,409</u>	<u>\$ 17,606</u>	<u>\$ 15,785</u>	10 %

Digital Media

Revenue by major offerings in our Digital Media reportable segment for fiscal 2023, 2022 and 2021 were as follows:

<i>(dollars in millions)</i>	2023	2022	2021	% Change 2023-2022
Creative Cloud	\$ 11,517	\$ 10,459	\$ 9,546	10 %
Document Cloud	2,699	2,383	1,974	13 %
Total Digital Media revenue	<u>\$ 14,216</u>	<u>\$ 12,842</u>	<u>\$ 11,520</u>	11 %

Revenue from Digital Media increased \$1.37 billion during fiscal 2023 as compared to fiscal 2022, driven by increases in revenue associated with our Creative and Document Cloud subscription offerings due to continued demand amid an increasingly digital environment, strong engagement across customer segments and migrating our customers to higher valued subscription offerings with increased revenue per subscription, partially offset by the impact of foreign currency exchange rate fluctuations.

Digital Experience

Revenue from Digital Experience increased \$471 million during fiscal 2023 as compared to fiscal 2022 primarily due to net new additions across our subscription offerings, partially offset by the impact of foreign currency exchange rate fluctuations.

Geographical Information

<i>(dollars in millions)</i>	2023	2022	2021	% Change 2023-2022
Americas	\$ 11,654	\$ 10,251	\$ 8,996	14 %
Percentage of total revenue	60 %	58 %	57 %	
EMEA	4,881	4,593	4,252	6 %
Percentage of total revenue	25 %	26 %	27 %	
APAC	2,874	2,762	2,537	4 %
Percentage of total revenue	15 %	16 %	16 %	
Total revenue	<u>\$ 19,409</u>	<u>\$ 17,606</u>	<u>\$ 15,785</u>	10 %

Overall revenue during fiscal 2023 increased in all geographic regions as compared to fiscal 2022. Within each geographic region, the fluctuations in revenue by reportable segment were attributable to the factors noted in the segment information above.

Included in the overall change in revenue for fiscal 2023 as compared to fiscal 2022 were impacts associated with foreign currency which were mitigated in part by our foreign currency hedging program. During fiscal 2023, the U.S. Dollar primarily strengthened against EMEA and APAC foreign currencies as compared to fiscal 2022, which decreased revenue in U.S. Dollar equivalents by approximately \$371 million. During fiscal 2023, the foreign currency impacts to revenue were offset in part by net hedging gains from our cash flow hedging program of \$41 million.

See Note 2 of our Notes to Consolidated Financial Statements for additional details of revenue by geography.

Cost of Revenue

<i>(dollars in millions)</i>	2023	2022	2021	% Change 2023-2022
Subscription	\$ 1,822	\$ 1,646	\$ 1,374	11 %
Percentage of total revenue	9 %	9 %	9 %	
Product	29	35	41	(17)%
Percentage of total revenue	*	*	*	
Services and other	503	484	450	4 %
Percentage of total revenue	3 %	3 %	3 %	
Total cost of revenue	\$ 2,354	\$ 2,165	\$ 1,865	9 %

(*) Percentage is less than 1%.

Subscription

Cost of subscription revenue consists of third-party hosting services and data center costs, including expenses related to operating our network infrastructure. Cost of subscription revenue also includes compensation costs associated with network operations, implementation, account management and technical support personnel, royalty fees, software costs and amortization of certain intangible assets.

Cost of subscription revenue increased due to the following:

	Components of % Change 2023-2022
Hosting services and data center costs	7 %
Loss contingency	3
Royalty costs	2
Amortization of intangibles	(1)
Total change	11 %

Cost of subscription revenue during fiscal 2023 included a loss contingency associated with an IP litigation matter.

Product

Cost of product revenue is primarily comprised of third-party royalties, localization costs and costs associated with the manufacturing of our products.

Services and Other

Cost of services and other revenue is primarily comprised of compensation and contracted costs incurred to provide consulting services, training and product support, and hosting services and data center costs.

Cost of services and other revenue increased during fiscal 2023 as compared to fiscal 2022 primarily due to increases in compensation costs partially offset by decreases in professional and consulting fees.

Operating Expenses

(dollars in millions)

	2023	2022	2021	% Change 2023-2022
Research and development	\$ 3,473	\$ 2,987	\$ 2,540	16 %
Percentage of total revenue	18 %	17 %	16 %	
Sales and marketing	5,351	4,968	4,321	8 %
Percentage of total revenue	28 %	28 %	27 %	
General and administrative	1,413	1,219	1,085	16 %
Percentage of total revenue	7 %	7 %	7 %	
Amortization of intangibles	168	169	172	(1)%
Percentage of total revenue	1 %	1 %	1 %	
Total operating expenses	<u>\$ 10,405</u>	<u>\$ 9,343</u>	<u>\$ 8,118</u>	<u>11 %</u>

Research and Development

Research and development expenses consist primarily of compensation and contracted costs associated with software development, third-party hosting services and data center costs, related facilities costs and expenses associated with computer equipment and software used in development activities.

Research and development expenses increased due to the following:

	Components of % Change 2023-2022
Incentive compensation, cash and stock-based	6 %
Base compensation and related benefits	6
Hosting services and data center costs	2
Various individually insignificant items	2
Total change	<u>16 %</u>

Investments in research and development, including the recruiting and hiring of software developers, are critical to remain competitive in the marketplace and are directly related to continued timely development of new and enhanced offerings and solutions. We will continue to focus on long-term opportunities available in our end markets and make significant investments in the development of our subscription and service offerings, apps and tools.

Sales and Marketing

Sales and marketing expenses consist primarily of compensation costs, amortization of contract acquisition costs, including sales commissions, travel expenses and related facilities costs for our sales, marketing, order management and global supply chain management personnel. Sales and marketing expenses also include the costs of programs aimed at increasing revenue, such as advertising, trade shows and events, public relations and other market development programs.

Sales and marketing expenses increased due to the following:

	Components of % Change 2023-2022
Base compensation and related benefits	3 %
Incentive compensation, cash and stock-based	3
Various individually insignificant items	2
Total change	<u>8 %</u>

General and Administrative

General and administrative expenses consist primarily of compensation and contracted costs, travel expenses and related facilities costs for our finance, facilities, human resources, legal, information services and executive personnel. General and administrative expenses also include outside legal and accounting fees, provision for bad debts, expenses associated with computer equipment and software used in the administration of the business, charitable contributions and various forms of insurance.

General and administrative expenses increased due to the following:

	Components of % Change 2023-2022
Professional and consulting fees	9 %
Base compensation and related benefits	5
Incentive compensation, cash and stock-based	3
Various individually insignificant items	(1)
Total change	16 %

Professional and consulting fees increased from fiscal 2023 as compared to fiscal 2022 primarily due to transaction costs associated with our intended acquisition of Figma.

Non-Operating Income (Expense), Net

(dollars in millions)

	2023	2022	2021	% Change 2023-2022
Interest expense	\$ (113)	\$ (112)	\$ (113)	1 %
Percentage of total revenue	(1)%	(1)%	(1)%	
Investment gains (losses), net	16	(19)	16	**
Percentage of total revenue	*	*	*	
Other income (expense), net	246	41	—	**
Percentage of total revenue	1 %	*	*	
Total non-operating income (expense), net	\$ 149	\$ (90)	\$ (97)	**

(*) Percentage is less than 1%.

(**) Percentage is not meaningful.

Interest Expense

Interest expense represents interest associated with our debt instruments. Interest on our senior notes is payable semi-annually, in arrears, on February 1 and August 1.

Investment Gains (Losses), Net

Investment gains (losses), net consists principally of unrealized holding gains and losses associated with our deferred compensation plan assets.

Other Income (Expense), Net

Other income (expense), net consists primarily of interest earned on cash, cash equivalents and short-term fixed income investments. Other income (expense), net also includes realized gains and losses on fixed income investments and foreign exchange gains and losses.

Other income (expense), increased during fiscal 2023 as compared to fiscal 2022 primarily due to increases in interest income driven by higher average interest rates and cash equivalent balances.

Provision for Income Taxes

(dollars in millions)	2023	2022	2021	% Change 2023-2022
Provision for income taxes	\$ 1,371	\$ 1,252	\$ 883	10 %
Percentage of total revenue	7 %	7 %	6 %	
Effective tax rate	20 %	21 %	15 %	

Our effective tax rate decreased by approximately one percentage point during fiscal 2023 as compared to fiscal 2022, primarily due to an increase in the net tax benefit from effects of non-U.S. operations in fiscal 2023.

Our effective tax rate for fiscal 2023 was lower than the U.S. federal statutory tax rate of 21% primarily due to the tax benefits from the U.S. federal research tax credit and non-U.S. operations, partially offset by state taxes.

We recognize deferred tax assets to the extent that we believe these assets are more likely than not to be realized based on evaluation of all available positive and negative evidence. On the basis of this evaluation, we continue to maintain a valuation allowance to reduce our deferred tax assets to the amount realizable. The total valuation allowance was \$405 million as of December 1, 2023, primarily related to certain state credits.

We are a U.S.-based multinational company subject to tax in multiple domestic and foreign tax jurisdictions. The current U.S. tax law subjects the earnings of certain foreign subsidiaries to U.S. tax and generally allows an exemption from taxation for distributions from foreign subsidiaries.

In the current global tax policy environment, the domestic and foreign governing bodies continue to consider, and in some cases introduce, changes in regulations applicable to corporate multinationals such as Adobe. As regulations are issued, we account for finalized regulations in the period of enactment.

Beginning in 2023, under the provisions introduced by the U.S. Tax Act, we are required to capitalize and amortize research and development costs. If the rule is not modified, there will continue to be an adverse impact on our effective rates for income taxes paid, which is partially offset by a benefit to our effective tax rates from the increase in the foreign-derived intangible income deduction.

See Note 10 of our Notes to Consolidated Financial Statements for further information regarding our provision for income taxes.

Accounting for Uncertainty in Income Taxes

The gross liabilities for unrecognized tax benefits excluding interest and penalties were \$501 million, \$321 million and \$289 million at the end of fiscal 2023, 2022 and 2021, respectively. If the total unrecognized tax benefits as of December 1, 2023, December 2, 2022 and December 3, 2021 were recognized, \$356 million, \$203 million and \$199 million would decrease the respective effective tax rates.

As of December 1, 2023 and December 2, 2022, the combined amounts of accrued interest and penalties included in long-term income taxes payable related to tax positions taken on our tax returns were not material.

The timing of the resolution of income tax examinations is highly uncertain as are the amounts and timing of tax payments that are part of any audit settlement process. These events could cause large fluctuations in the balance sheet classification of our tax assets and liabilities. We believe that within the next 12 months, it is reasonably possible that either certain audits will conclude or statutes of limitations on certain income tax examination periods will expire, or both. Although the timing of resolution, settlement and closing of audits is not certain, it is reasonably possible that the underlying unrecognized tax benefits may decrease by up to \$60 million over the next 12 months.

Our future effective tax rates may be materially affected by changes in the tax rates in jurisdictions where our income is earned, changes in jurisdictions in which our profits are determined to be earned and taxed, changes in the valuation of our deferred tax assets and liabilities, changes in or interpretation of tax rules and regulations in the jurisdictions in which we do business, or unexpected changes in business and market conditions that could reduce certain tax benefits.

In addition, tax laws in the United States as well as other countries and jurisdictions in which we conduct business are subject to change as new laws are passed and/or new interpretations are made available. These countries, governmental bodies, such as the European Commission of the European Union, and intergovernmental economic organizations, such as the Organization for Economic Cooperation and Development, have made or could make unprecedented assertions about how taxation is determined and, in some cases, have proposed or enacted new laws that are contrary to the way in which rules and regulations have historically been interpreted and applied. Changes in our operating landscape, such as changes in laws and/or interpretations of tax rules, could adversely affect our effective tax rates and/or cause us to respond by making changes to our business structure which could adversely affect our operations and financial results.

Moreover, we are subject to the examination of our income tax returns by domestic and foreign tax authorities. We regularly assess the likelihood of outcomes resulting from these examinations to determine the adequacy of our provision for income taxes and have reserved for potential adjustments that may result from these examinations. Our policy is to record interest and penalties related to unrecognized tax benefits in income tax expense. While we believe our tax estimates are reasonable, we

cannot provide assurance that the final determination of any of these examinations will not have an adverse effect on our financial position and results of operations.

LIQUIDITY AND CAPITAL RESOURCES

Cash Flows

Our primary source of cash is receipts from revenue. Our primary uses of cash are general business expenses including payroll, income taxes, marketing and third-party hosting services, as well as our stock repurchase program as described below. Other customary sources of cash include proceeds from the maturities and sales of short-term investments. Other customary uses of cash include business acquisitions, repayment of maturing senior notes, purchases of property and equipment and payments for taxes related to net share settlement of equity awards.

This data should be read in conjunction with our Consolidated Statements of Cash Flows.

(in millions)	As of	
	December 1, 2023	December 2, 2022
Cash and cash equivalents	\$ 7,141	\$ 4,236
Short-term investments	\$ 701	\$ 1,860
Working capital	\$ 2,833	\$ 868
Stockholders' equity	\$ 16,518	\$ 14,051

A summary of our cash flows for fiscal 2023, 2022 and 2021 is as follows:

(in millions)	2023	2022	2021
Net cash provided by operating activities	\$ 7,302	\$ 7,838	\$ 7,230
Net cash provided by (used for) investing activities	776	(570)	(3,537)
Net cash used for financing activities	(5,182)	(6,825)	(4,301)
Effect of foreign currency exchange rates on cash and cash equivalents	9	(51)	(26)
Net change in cash and cash equivalents	\$ 2,905	\$ 392	\$ (634)

Cash Flows from Operating Activities

For fiscal 2023, net cash provided by operating activities of \$7.30 billion was primarily comprised of net income adjusted for the net effect of non-cash items. Beginning in 2023, under the provisions introduced by the U.S. Tax Act, we are required to capitalize and amortize research and development costs. This had an adverse impact on our effective rate for income taxes paid and, consequently, on our cash flows from operations. In addition, the primary working capital uses of cash were increases in prepaid expenses attributable to the timing of billings. These impacts were partially offset by working capital sources of cash driven by increases in deferred revenue from our Digital Media and Digital Experience offerings.

Cash Flows from Investing Activities

For fiscal 2023, net cash provided by investing activities of \$776 million was primarily due to maturities and sales of short-term investments partially offset by ongoing capital expenditures.

Cash Flows from Financing Activities

For fiscal 2023, net cash used for financing activities of \$5.18 billion was primarily due to payments for our common stock repurchases, taxes paid related to the net share settlement of equity awards and the repayment of our 2023 Notes. These uses of cash were offset in part by proceeds from re-issuance of treasury stock mainly for our employee stock purchase plan. See the section titled "Stock Repurchase Program" below.

Liquidity and Capital Resources Considerations

Our existing cash, cash equivalents and investment balances may fluctuate during fiscal 2024 due to changes in our planned cash outlay.

Cash from operations could also be affected by various risks and uncertainties, including, but not limited to, risks detailed in the section titled "Risk Factors" in Part I, Item 1A of this report. Based on our current business plan and revenue prospects, we believe that our existing cash, cash equivalents and investment balances, our anticipated cash flows from operations and our available credit facility will be sufficient to meet our working capital, operating resource expenditure and capital expenditure requirements for the next twelve months and for the foreseeable future.

Our cash equivalent and short-term investment portfolio as of December 1, 2023 consisted of asset-backed securities, corporate debt securities, money market funds, time deposits, U.S. agency securities and U.S. Treasury securities. We use professional investment management firms to manage a large portion of our invested cash.

We expect to continue our investing activities, including short-term and long-term investments, purchases of computer and server hardware to operate our network infrastructure, sales and marketing, product support and administrative staff, and facilities expansion. Furthermore, cash reserves may be used to repurchase stock under our stock repurchase program and to strategically acquire companies, products or technologies that are complementary to our business.

On September 15, 2022, we entered into a definitive merger agreement under which we intended to acquire Figma, Inc. (“Figma”) for approximately \$20 billion, comprised of approximately half cash and half stock. On December 17, 2023, we entered into a mutual termination agreement with Figma to terminate the proposed merger. In accordance with the terms of the termination agreement, on December 20, 2023, we paid Figma a termination fee of \$1 billion using cash on hand.

Term Loan Credit Agreement

In January 2023, we entered into a delayed draw credit agreement, providing for a senior unsecured term loan (the “Term Loan”) of up to \$3.5 billion for the purpose of partially funding the purchase price and related fees for our acquisition of Figma. As of December 1, 2023, there were no outstanding borrowings under the Term Loan. Subsequent to December 1, 2023, following execution of the mutual termination agreement with Figma discussed above, the delayed draw term loan agreement was terminated.

Revolving Credit Agreement

We have a \$1.5 billion senior unsecured revolving credit agreement (the “Revolving Credit Agreement”) with a syndicate of lenders, providing for loans to us and certain of our subsidiaries through June 30, 2027. Subject to the agreement of lenders, we may obtain up to an additional \$500 million in commitments, for a maximum aggregate commitment of \$2 billion. As of December 1, 2023, there were no outstanding borrowings under the Revolving Credit Agreement and the entire \$1.5 billion credit line remains available for borrowing. Under the terms of our Revolving Credit Agreement, we are not prohibited from paying cash dividends unless payment would trigger an event of default or if one currently exists. We do not anticipate paying any cash dividends in the foreseeable future.

Commercial Paper Program

In September 2023, we established a commercial paper program under which we may issue unsecured commercial paper up to a total of \$3 billion outstanding at any time, with maturities of up to 397 days from the date of issue. The net proceeds from the issuance of commercial paper are expected to be used for general corporate purposes, which may include working capital, capital expenditures, acquisitions, stock repurchases, refinancing indebtedness or any other general corporate purposes. As of December 1, 2023, there were no outstanding borrowings under the commercial paper program.

Senior Notes

We have \$3.65 billion senior notes outstanding, which rank equally with our other unsecured and unsubordinated indebtedness. As of December 1, 2023, the carrying value of our senior notes was \$3.63 billion and our maximum commitment for interest payments was \$321 million for the remaining duration of our outstanding senior notes. Interest is payable semi-annually, in arrears on February 1 and August 1. Our senior notes do not contain any financial covenants. See Note 17 of our Notes to Consolidated Financial Statements for further details regarding our debt.

Contractual Obligations

Our purchase obligations consist of agreements to purchase goods and services entered into in the ordinary course of business. As of December 1, 2023, the value of our non-cancellable unconditional purchase obligations was \$4.93 billion, primarily relating to contracts with vendors for third-party hosting and data center services. Subsequent to December 1, 2023, we executed agreements associated with certain of our long-term supplier commitments that increased our minimum purchase obligations by \$2.3 billion through December 2028. See Note 16 of our Notes to Consolidated Financial Statements for additional information regarding our purchase obligations.

We lease certain facilities and data centers under non-cancellable operating lease arrangements that expire at various dates through 2032. As of December 1, 2023, the value of our obligations under operating leases was \$484 million. *See Note 18 of our Notes to Consolidated Financial Statements for additional information regarding our lease obligations.*

Other

Beginning in 2023, under the provisions introduced by the U.S. Tax Act, we are required to capitalize and amortize research and development costs. If the rule is not modified, there will continue to be an adverse impact to our effective rates for income taxes paid, which is partially offset by a benefit from the increase in the foreign-derived intangible income deduction.

Stock Repurchase Program

To facilitate our stock repurchase program, designed to return value to our stockholders and minimize dilution from stock issuances, we may repurchase our shares in the open market or enter into structured repurchase agreements with third parties. In December 2020, our Board of Directors granted authority to repurchase up to \$15 billion in our common stock through the end of fiscal 2024.

During fiscal 2023, we repurchased a total of 11.5 million shares, including approximately 7.5 million shares at an average price of \$429.65 through structured repurchase agreements, as well as 4.0 million shares at an average purchase price of \$348.46 through an accelerated share repurchase agreement.

During the fourth quarter of fiscal 2023, we entered into a structured stock repurchase agreement with a large financial institution whereupon we provided them with a prepayment of \$1 billion. As of December 1, 2023, \$354 million of prepayment remained under our outstanding structured stock repurchase agreement.

Subsequent to December 1, 2023, as part of the December 2020 stock repurchase authority, we entered into an accelerated share repurchase agreement with a large financial institution whereupon we provided them with a prepayment of \$2 billion and received an initial delivery of 2.5 million shares, which represents approximately 75% of our prepayment. Upon completion of the \$2 billion accelerated share repurchase agreement, \$150 million remains under our December 2020 authority.

See section titled “Market for Registrant’s Common Equity, Related Stockholder Matters and Issuer Purchases of Equity Securities” in Part II, Item 5 of this report for stock repurchases during the quarter ended December 1, 2023 and Note 14 of our Notes to Consolidated Financial Statements for further details regarding our stock repurchase program.

Indemnifications

In the ordinary course of business, we provide indemnifications of varying scope to customers and channel partners against claims of intellectual property infringement made by third parties arising from the use of our products and from time to time, we are subject to claims by our customers under these indemnification provisions. Historically, costs related to these indemnification provisions have not been significant and we are unable to estimate the maximum potential impact of these indemnification provisions on our future results of operations.

To the extent permitted under Delaware law, we have agreements whereby we indemnify our officers and directors for certain events or occurrences while the officer or director is or was serving at our request in such capacity. The indemnification period covers all pertinent events and occurrences during the officer’s or director’s lifetime. The maximum potential amount of future payments we could be required to make under these indemnification agreements is unlimited; however, we have director and officer insurance coverage that reduces our exposure and enables us to recover a portion of any future amounts paid.

ITEM 7A. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK

All market risk sensitive instruments were entered into for non-trading purposes.

Foreign Currency Risk

Foreign Currency Exposures and Hedging Instruments

In countries outside the United States, we transact business in U.S. Dollars and various other currencies, which subject us to exposure from movements in exchange rates. We may use foreign exchange option contracts and forward contracts to hedge a portion of our forecasted foreign currency denominated revenue and expenses. Additionally, we hedge our net recognized foreign currency monetary assets and liabilities with foreign exchange forward contracts to reduce the risk that our earnings and cash flows will be adversely affected by changes in exchange rates.

Our significant foreign currency revenue exposures for fiscal 2023, 2022 and 2021 were as follows:

<i>(in millions)</i>	2023		2022		2021	
Euro	€	2,842	€	2,487	€	2,209
Japanese Yen	¥	129,127	¥	118,456	¥	104,829
British Pounds	£	818	£	737	£	669
Australian Dollars	\$	973	\$	876	\$	768

As of December 1, 2023, the total notional amounts of all outstanding foreign exchange contracts, including options and forwards, were \$3.83 billion, which included the notional equivalent of \$1.52 billion in Euros, \$773 million in Indian Rupees, \$634 million in British Pounds, \$409 million in Japanese Yen, \$350 million in Australian Dollars and \$135 million in other foreign currencies. As of December 1, 2023, all contracts were set to expire at various dates through November 2024. The bank counterparties in these contracts could expose us to credit-related losses that would be largely mitigated with master netting arrangements with the same counterparty by permitting net settlement transactions. In addition, we enter into collateral security agreements that provide for collateral to be received or posted when the net fair value of these contracts fluctuates from contractually established thresholds.

A sensitivity analysis was performed on all of our foreign exchange derivatives as of December 1, 2023. This sensitivity analysis measures the hypothetical market value resulting from a 10% shift in the value of exchange rates relative to the U.S. Dollar. For option contracts, the Black-Scholes option pricing model was used. A 10% increase in the value of the U.S. Dollar and a corresponding decrease in the value of the hedged foreign currency asset would lead to an increase in the fair value of our financial hedging instruments by \$142 million. A 10% decrease in the value of the U.S. Dollar would lead to a decrease in the fair value of these financial instruments by \$1 million.

As a general rule, we do not use foreign exchange contracts to hedge local currency denominated operating expenses in countries where a natural hedge exists. For example, in many countries, revenue in the local currencies substantially offsets the local currency denominated operating expenses. We also have long-term investment exposures consisting of the capitalization and retained earnings in our non-U.S. Dollar functional currency foreign subsidiaries. As of December 1, 2023 and December 2, 2022, this long-term investment exposure totaled an absolute notional equivalent of \$1.03 billion and \$770 million, respectively. At this time, we do not hedge these long-term investment exposures.

We do not use foreign exchange contracts for speculative trading purposes, nor do we hedge our foreign currency exposure in a manner that entirely offsets the effects of changes in foreign exchange rates. We regularly review our hedging program and assess the need to utilize financial instruments to hedge currency exposures on an ongoing basis.

Cash Flow Hedges of Forecasted Foreign Currency Revenue and Expenses

We may use foreign exchange purchased options or forward contracts to hedge foreign currency revenue denominated in Euros, British Pounds, Japanese Yen and Australian Dollars, or foreign currency expenses in Indian Rupees. We hedge these cash flow exposures to reduce the risk that our earnings and cash flows will be adversely affected by changes in exchange rates. These foreign exchange contracts, carried at fair value, have maturities of up to twelve months. We enter into these foreign exchange contracts to hedge forecasted revenue and expenses in the normal course of business and accordingly, they are not speculative in nature.

We record changes in fair value of these cash flow hedges of foreign currency denominated revenue and expenses in accumulated other comprehensive income (loss) in our Consolidated Balance

Sheets, until the forecasted transaction occurs. When the forecasted transaction affects earnings, we reclassify the related gain or loss on the cash flow hedge to revenue or

operating expenses, as applicable. In the event the underlying forecasted transaction does not occur, or it becomes probable that it will not occur, we reclassify the gain or loss on the related cash flow hedge from accumulated other comprehensive income (loss) to revenue or operating expenses, as applicable. For the fiscal year ended December 1, 2023, there were no net gains or losses recognized in revenue or operating expenses relating to hedges of forecasted transactions that did not occur.

Non-Designated Hedges of Foreign Currency Assets and Liabilities

Our derivatives not designated as hedging instruments consist of foreign currency forward contracts that we primarily use to hedge monetary assets and liabilities denominated in non-functional currencies to reduce the risk that our earnings and cash flows will be adversely affected by changes in foreign currency exchange rates. These foreign exchange contracts are carried at fair value with changes in fair value of these contracts recorded to other income (expense), net in our Consolidated Statements of Income. These contracts reduce the impact of currency exchange rate movements on our assets and liabilities. At December 1, 2023, the outstanding balance sheet hedging derivatives had maturities of 180 days or less.

See Note 6 of our Notes to Consolidated Financial Statements for information regarding our derivative financial instruments.

Interest Rate Risk

Short-Term Investments and Fixed Income Securities

At December 1, 2023, we had debt securities classified as short-term investments of \$701 million. Changes in interest rates could adversely affect the market value of these investments. A sensitivity analysis was performed on our short-term investment portfolio as of December 1, 2023, based on an estimate of the hypothetical changes in market value of the portfolio that would result from an immediate parallel shift in the yield curve. A 150 basis point increase in interest rates would lead to a \$6 million decrease in the market value of our short-term investments. Conversely, a 150 basis point decrease in interest rates would lead to a \$6 million increase in the market value of our short-term investments.

Senior Notes

As of December 1, 2023, we had \$3.65 billion of senior notes outstanding which bear interest at fixed rates, and therefore do not subject us to financial statement risk associated with changes in interest rates. As of December 1, 2023, the total carrying amount of our senior notes was \$3.63 billion and the related fair value based on observable market prices in less active markets was \$3.39 billion.

See Note 17 of our Notes to Consolidated Financial Statements for information regarding our senior notes.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

NOTE 1. BASIS OF PRESENTATION AND SIGNIFICANT ACCOUNTING POLICIES

Operations

Adobe is a global technology company with a mission to change the world through personalized digital experiences. For over four decades, Adobe's innovations have transformed how individuals, teams, businesses, enterprises, institutions, and governments engage and interact across all types of media. Our products, services and solutions are used around the world to imagine, create, manage, deliver, measure, optimize and engage with content across surfaces and fuel digital experiences. We have a diverse user base that includes consumers, communicators, creative professionals, developers, students, small and medium businesses and enterprises. We are also empowering creators by putting the power of artificial intelligence ("AI") in their hands, and doing so in ways we believe are responsible. Our products and services help unleash creativity, accelerate document productivity and power businesses in a digital world. We have operations in the Americas; Europe, Middle East and Africa ("EMEA"); and Asia-Pacific ("APAC").

Basis of Presentation

The accompanying Consolidated Financial Statements include those of Adobe and its subsidiaries, after elimination of all intercompany accounts and transactions. We have prepared the accompanying Consolidated Financial Statements in accordance with generally accepted accounting principles in the United States ("GAAP") and pursuant to the rules and regulations of the United States Securities and Exchange Commission (the "SEC").

Use of Estimates

In preparing Consolidated Financial Statements and related disclosures in conformity with GAAP and pursuant to the rules and regulations of the SEC, we must make estimates and judgments that affect the amounts reported in the Consolidated Financial Statements and accompanying Notes. Estimates are used for, but not limited to, sales allowances and programs, bad debts, stock-based compensation, determining the fair value of acquired assets and assumed liabilities, litigation and income taxes. Actual results may differ materially from these estimates.

Fiscal Year

Our fiscal year is a 52- or 53-week year that ends on the Friday closest to November 30. Our financial results for fiscal 2021 benefited from an extra week in the first quarter of fiscal 2021 due to our 52/53 week financial calendar whereby fiscal 2021 was a 53-week year compared with fiscal 2023 and 2022 which were 52-week years.

Significant Accounting Policies

Revenue Recognition

Our revenue is derived from the sale of cloud-enabled software subscriptions, cloud-hosted offerings, term-based, royalty, and perpetual software licenses, associated software maintenance and support plans, consulting services, training and technical support. Most of our enterprise customer arrangements involve multiple promises to our customers.

Revenue is recognized when a contract exists between us and a customer and upon transfer of control of promised products or services to customers in an amount that reflects the consideration we expect to receive in exchange for those products or services. We enter into contracts that can include various combinations of products and services, which may be capable of being distinct and accounted for as separate performance obligations, or in the case of offerings such as cloud-enabled Creative Cloud and Document Cloud, accounted for as a single performance obligation. Revenue is recognized net of allowances for returns and any taxes collected from customers, which are subsequently remitted to governmental authorities.

Subscription, Product and Services Offerings

We enter into revenue arrangements in which a customer may purchase a combination of our products, services and/or solutions as described above. Certain revenue arrangements provide customers with unilateral cancellation rights, or options to either renew monthly on-premise term-based licenses or use committed funds to purchase other Adobe products or services.

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Fully hosted subscription services (“SaaS”) allow customers to access hosted software during the contractual term without taking possession of the software. Cloud-hosted subscription services may be sold on a fee-per-subscription period basis or based on consumption or usage.

We recognize revenue ratably over the contractual service term, which typically ranges from 1 to 36 months, for hosted services that are priced based on a committed number of transactions where the delivery and consumption of the benefit of the services occur evenly over time, beginning on the date the services associated with the committed transactions are first made available to the customer and continuing through the end of the contractual service term. Over-usage fees and fees based on the actual number of transactions are billed in accordance with contract terms as these fees are incurred and are included in the transaction price of an arrangement as variable consideration. Fees based on a number of transactions, where invoicing is aligned to the pattern of performance, customer benefit and consumption, are typically accounted for utilizing the “as-invoiced” practical expedient. Revenue for subscriptions sold as a fee per period is recognized ratably over the contractual term as the customer simultaneously receives and consumes the benefit of the underlying service.

When cloud-enabled services are highly integrated and interrelated with on-premise software, such as in our cloud-enabled Creative Cloud and Document Cloud offerings, the individual components are not considered distinct and revenue is recognized ratably over the subscription period for which the cloud-enabled services are provided.

The subscription support plans related to those customer arrangements whose revenues we classify as subscription revenues represent stand-ready performance obligations. Revenue from these subscription support plans is recognized ratably over their respective contractual terms and classified as subscription revenue.

Licenses for on-premise software may be purchased on a perpetual basis, as a subscription for a fixed period of time or based on usage for certain of our original equipment manufacturer (“OEM”) and royalty agreements. Revenue from non-cloud enabled on-premise licenses without unilateral cancellation rights or monthly renewal options is recognized at the point in time the software is available to the customer, provided all other revenue recognition criteria are met, and classified as product revenue on our Consolidated Statements of Income. Revenue from on-premise term license or term licensing arrangements with unilateral cancellation rights or monthly renewal options, and any associated maintenance and support, is classified as subscription revenue.

Our services and other revenue is comprised primarily of fees related to consulting, training, maintenance and support for certain on-premise licenses that are recognized at a point in time and our advertising offerings. We typically sell our consulting contracts on a time-and-materials or fixed-fee basis. These revenues are recognized as the services are performed for time-and-materials contracts and on a relative performance basis for fixed-fee contracts. Training revenues are recognized as the services are performed. Our maintenance and support offerings, which entitle customers, partners and developers to receive desktop product upgrades and enhancements or technical support, depending on the offering, are generally recognized ratably over the term of the arrangement. Our transaction-based advertising offerings, where fees are based on a number of impressions per month and invoicing is aligned to the pattern of performance, customer benefit and consumption, are typically accounted for utilizing the “as-invoiced” practical expedient.

Judgments

Our contracts with customers may include multiple goods and services. For example, some of our offerings include both on-premise and/or on-device software licenses and cloud services. Determining whether the software licenses and the cloud services are distinct from each other, and therefore performance obligations to be accounted for separately, or not distinct from each other, and therefore part of a single performance obligation, may require significant judgment. We have concluded that the on-premise/on-device software licenses and cloud services provided in our Creative Cloud and Document Cloud subscription offerings are not distinct from each other such that revenue from each offering should be recognized ratably over the subscription period for which the cloud services are provided. In reaching this conclusion, we considered the nature of our promise to Creative Cloud and Document Cloud customers, which is to provide a complete end-to-end creative design or document workflow solution that operates seamlessly across multiple devices and teams. We fulfill this promise by providing

access to a solution that integrates cloud-based and on-premise/on-device features that, together through their integration, provide functionalities, utility and workflow efficiencies that could not be obtained from either the on-premise/on-device software or cloud services on their own.

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Cloud-based features that are integral to our Creative Cloud and Document Cloud offerings and that work together with the on-premise/on-device software include, but are not limited to: Creative Cloud Libraries, which enable customers to access their work, settings, preferences and other assets seamlessly across desktop and mobile devices and collaborate across teams in real time; shared reviews which enable simultaneous editing and commenting of digital assets across desktop, mobile and web; automatic cloud rendering of a design which enables it to be worked on in multiple mediums; and Sensei, Adobe's cloud-hosted artificial intelligence and machine learning framework, which enables features such as automated photo-editing, photograph content-awareness, natural language processing, optical character recognition and automated document tagging.

Standalone selling price is established by maximizing the amount of observable inputs, primarily actual historical selling prices for performance obligations where available, and includes consideration of factors such as go-to-market model and geography. Individual products may have multiple values for standalone selling price depending on factors such as where they are sold and what channel they are sold through. Where standalone selling price may not be directly observable (e.g., the performance obligation is not sold separately), we maximize the use of observable inputs by using information that may include reviewing pricing practices, performance obligations with similar customers and selling models.

Capitalized costs to obtain a contract are amortized over the expected period of benefit, which we have determined, based on analysis, to be 5 years. We evaluated qualitative and quantitative factors to determine the period of amortization, including contract length, renewals, customer life and the useful lives of our products and acquired products. When the expected period of benefit of an asset which would be capitalized is less than one year, we expense the amount as incurred, utilizing the practical expedient. We regularly evaluate whether there have been changes in the underlying assumptions and data used to determine the amortization period.

When revenue arrangements include components of third-party goods and services, for example in transactions which involve resale, fulfillment or providing advertising impressions to our end customer, we evaluate whether we are the principal, and report revenues on a gross basis, or an agent, and report revenues on a net basis. In this assessment, we consider if we obtain control of the specified goods or services before they are transferred to the customer by evaluating indicators such as which party is primarily responsible for fulfilling the promise to provide the goods or services, which party has discretion in establishing price and the underlying terms and conditions between the parties to the transaction.

We offer limited rights of return, rebates and price protection of our products under various policies and programs with our distributors, resellers and/or end-user customers. We estimate and record reserves for these programs as variable consideration when estimating transaction price. Returns, rebates and other offsets to transaction price are estimated at contract inception on a portfolio basis and assessed for reasonableness each reporting period when additional information becomes available.

General Contract Provisions

We maintain revenue reserves for rebates, rights of return and other limited price adjustments. Distributors are allowed limited rights of return of products purchased during the previous quarter. In addition, distributors are allowed to return products that have reached the end of their lives, as defined by us, and for products that are being replaced by new versions. We offer rebates to our distributors, resellers and/or end-user customers. Transaction price is reduced for these amounts based on actual performance against objectives set forth by us for a particular reporting period, such as volume and timely reporting.

On a quarterly basis, the amount of revenue that is reserved is calculated based on our historical trends and data specific to each reporting period. The primary method of establishing these reserves is to review historical data from prior periods as a percent of revenue to determine a historical reserve rate. We then apply the historical rate to the current period revenue as a basis for estimating future returns. When necessary, we also provide a specific reserve in excess of portfolio-level estimated requirements. This estimate can be affected by the amount of a particular product in the channel, the rate of sell-through, product plans and other factors.

Although our subscription contracts are generally non-cancellable, a limited number of customers have the right to cancel their contracts by providing prior written notice to us of their intent to cancel the remainder of the contract term and consumers have a period of time to terminate certain agreements without penalty. In the event a customer cancels their contract, they are generally not entitled to a refund for prior services we have provided to them. Contracts that include termination rights without substantive penalty are accounted for as contracts only for the committed period. Periods of time after the right of

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

termination are accounted for as optional purchases when they do not represent material rights. For certain of our usage-based license agreements, typically in our royalty and OEM businesses, reporting may be received after the end of a fiscal period. In such instances, we estimate and accrue license revenue. We base our estimates on multiple factors, including historical sales information, seasonality and other business information which may impact our estimates. We do not estimate variable consideration for our sales and usage-based license royalty agreements, consistent with the associated exception for sales and usage-based royalties for the license of intellectual property under the revenue recognition standard.

Property and Equipment

We record property and equipment at cost less accumulated depreciation and amortization. Property and equipment are depreciated using the straight-line method over their estimated useful lives, generally as follows: 3 to 20 years for computers and other equipment, which includes our corporate jet, 5 years for furniture and fixtures, 15 years for building improvements and 35 years for buildings. Leasehold improvements are amortized using the straight-line method over the lesser of the remaining respective lease term or estimated useful life of the asset.

Leases

We determine if an arrangement is or contains a lease at contract inception. In certain of our lease arrangements, primarily those related to our data center arrangements, judgment is required in determining if a contract contains a lease. For these arrangements, there is judgment in evaluating if the arrangement involves an identified asset that is physically distinct or whether we have the right to substantially all of the capacity of an identified asset that is not physically distinct. In arrangements that involve an identified asset, there is also judgment in evaluating if we have the right to direct the use of that asset.

We do not have any finance leases. Operating leases are recorded in our Consolidated Balance Sheets. Right-of-use ("ROU") assets and lease liabilities are measured at the lease commencement date based on the present value of the remaining lease payments over the lease term, determined using the discount rate for the lease at the commencement date. Because the rate implicit in our leases is not readily determinable, we use our incremental borrowing rate as the discount rate, which approximates the interest rate at which we could borrow on a collateralized basis with similar terms and payments and in similar economic environments. As of December 1, 2023, our leases had remaining lease terms of up to 8 years, some of which included options to extend the lease for up to 14 years and options to terminate the lease within approximately 1 year. Optional periods to extend the lease, including by not exercising a termination option, are included in the lease term when it is reasonably certain that the option will be exercised. We also have one land lease that expires in 2091. Operating lease expense is recognized on a straight-line basis over the lease term. We account for lease and non-lease components, principally common area maintenance for our facilities leases, as a single lease component for our facilities and data center leases.

In accordance with accounting requirements, leases with an initial term of 12 months or less are recorded on the balance sheet, with lease expense for these leases recognized on a straight-line basis over the lease term.

Goodwill, Intangibles and Other Long-Lived Assets

Goodwill is assigned to one or more reporting units on the date of acquisition. We review our goodwill for impairment annually during our second quarter of each fiscal year and between annual tests if an event occurs or circumstances change that would more likely than not reduce the fair value of any one of our reporting units below its respective carrying amount. In performing our goodwill impairment test, we first perform a qualitative assessment, which requires that we consider events or circumstances including macroeconomic conditions, industry and market considerations, cost factors, overall financial performance, changes in management or key personnel, changes in strategy, changes in customers, changes in the composition or carrying amount of a reporting unit's net assets and changes in our stock price. If, after assessing the totality of events or circumstances, we determine that it is more likely than not that the fair values of our reporting units are greater than the carrying amounts, then the quantitative goodwill impairment test is not performed.

If the qualitative assessment indicates that the quantitative analysis should be performed, we then evaluate goodwill for impairment by comparing the fair value of each of our reporting units to its carrying value, including the associated goodwill. To determine the fair values, we use the equal weighting of the market approach based on comparable publicly traded

ADOBE INC.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)**

companies in similar lines of businesses and the income approach based on estimated discounted future cash flows. Our cash flow assumptions consider historical and forecasted revenue, operating costs and other relevant factors.

We completed our annual goodwill impairment test in the second quarter of fiscal 2023. We determined, after performing a qualitative review of each reporting unit, that it is more likely than not that the fair value of each of our reporting units substantially exceeds the respective carrying amounts. Accordingly, there was no indication of impairment and the quantitative goodwill impairment test was not performed. We did not identify any events or changes in circumstances since the performance of our annual goodwill impairment test that would require us to perform another goodwill impairment test during the fiscal year.

We amortize intangible assets with finite lives over their estimated useful lives and review them for impairment whenever an impairment indicator exists. We continually monitor events and changes in circumstances that could indicate that the carrying amounts of our long-lived assets, including our intangible assets, may not be recoverable. When such events or changes in circumstances occur, we assess recoverability by determining whether the carrying value of such assets will be recovered through the undiscounted expected future cash flows. If the future undiscounted cash flows are less than the carrying amount of these assets, we recognize an impairment loss based on any excess of the carrying amount over the fair value of the assets. We did not recognize any intangible asset impairment charges for all periods presented.

Our intangible assets are amortized over their estimated useful lives ranging from 3 to 14 years. Amortization is based on the pattern in which the economic benefits of the intangible asset will be consumed or on a straight-line basis when the consumption pattern is not apparent. The weighted average useful lives of our intangible assets were as follows:

	Weighted Average Useful Life (years)
Customer contracts and relationships	10
Purchased technology	5
Trademarks	9
Other	7

Income Taxes

We use the asset and liability method of accounting for income taxes. Under this method, income tax expense is recognized for the amount of taxes payable or refundable for the current year. In addition, deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the financial reporting and tax bases of assets and liabilities, and for operating loss and tax credit carryforwards. Significant judgment is required in determining our current provision for income taxes and deferred tax assets or liabilities. We record a valuation allowance to reduce deferred tax assets to an amount for which realization is more likely than not.

Our assumptions, judgments and estimates relative to the current provision for income taxes take into account our interpretation and application of current tax laws and possible outcomes of current and future examinations conducted by domestic and foreign tax authorities. We have established reserves for income taxes to address potential exposures involving tax positions that could be challenged by tax authorities. We regularly assess the likelihood of outcomes resulting from these examinations to determine the adequacy of our provision for income taxes and associated reserves. Our policy is to record interest and penalties related to unrecognized tax benefits in income tax expense.

Taxes Collected from Customers

We net taxes collected from customers against those remitted to government authorities in our financial statements. Accordingly, taxes collected from customers are not reported as revenue.

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Treasury Stock

Prepayments made for repurchases of our common stock are classified as treasury stock on our Consolidated Balance Sheets and only shares physically delivered to us by each period end are excluded from the computation of net income per share.

We account for treasury stock under the cost method. When treasury stock is re-issued at a price higher than its cost, the difference is recorded as a component of additional paid-in-capital in our Consolidated Balance Sheets. When treasury stock is re-issued at a price lower than its cost, the difference is recorded as a component of additional paid-in-capital to the extent that there are previously recorded gains to offset the losses. If there are no treasury stock gains in additional paid-in-capital, the losses upon re-issuance of treasury stock are recorded as a reduction of retained earnings in our Consolidated Balance Sheets.

Advertising Expenses

Advertising costs are expensed as incurred. Advertising expenses for fiscal 2023, 2022 and 2021 were \$970 million, \$1.04 billion and \$865 million, respectively.

Foreign Currency Translation

We translate assets and liabilities of foreign subsidiaries, whose functional currency is their local currency, at exchange rates in effect at the balance sheet date. We translate revenue and expenses at the monthly average exchange rates. We include accumulated net translation adjustments in stockholders' equity as a component of accumulated other comprehensive income (loss).

Derivative Financial Instruments

In countries outside the United States, we transact business in U.S. Dollars and in various other currencies. We may use foreign exchange option contracts and forward contracts to hedge a portion of our forecasted foreign currency denominated revenue and expenses primarily in Euros, British Pounds, Japanese Yen, Australian Dollars and Indian Rupees. Additionally, we hedge our net recognized foreign currency monetary assets and liabilities with foreign exchange forward contracts to reduce the risk that our earnings and cash flows will be adversely affected by changes in exchange rates.

We recognize all derivative instruments as either assets or liabilities in our Consolidated Balance Sheets and measure them at fair value. Gains and losses resulting from changes in fair value are accounted for depending on the use of the derivative and whether it is designated and qualifies for hedge accounting. Contracts that do not qualify for hedge accounting are adjusted to fair value through earnings.

Gains and losses related to changes in the fair value of foreign exchange forward contracts which hedge certain balance sheet positions are recorded each period as a component of other income (expense), net in our Consolidated Statements of Income. Foreign exchange option contracts and forward contracts hedging forecasted foreign currency revenue and expenses and Treasury lock agreements are designated as cash flow hedges with gains and losses recorded net of tax as a component of accumulated other comprehensive income (loss) in our Consolidated Balance Sheets until the forecasted transaction occurs. When the forecasted transaction affects earnings, we reclassify the related gain or loss on the foreign currency revenue, foreign currency expense or Treasury lock cash flow hedge to revenue, operating expense or interest expense, as applicable.

Concentration of Risk

Financial instruments that potentially subject us to concentrations of credit risk are short-term fixed-income investments, structured repurchase transactions, foreign currency and interest rate hedge contracts and trade receivables.

Our investment portfolio consists of investment-grade securities diversified among security types, industries and issuers. Our cash and investments are held and primarily managed by recognized financial institutions that follow our investment policy. Our policy limits the amount of credit exposure to

any one security issue or issuer and we believe no significant concentration of credit risk exists with respect to these investments.

We enter into master netting arrangements to mitigate credit risk in derivative transactions by permitting net settlement of transactions with the same counterparty. We also enter into collateral security agreements with certain of our counterparties

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

to exchange cash collateral when the net fair value of certain derivative instruments fluctuates from contractually established thresholds.

Credit risk in receivables is limited to OEMs, dealers and distributors of hardware and software products to the retail market, customers to whom we license software directly and our SaaS offerings. A credit review is completed for our new distributors, dealers and OEMs. We also perform ongoing credit evaluations of our customers' financial condition and require letters of credit or other guarantees, whenever deemed necessary. The credit limit given to the customer is based on our risk assessment of their ability to pay, country risk and other factors and is not contingent on the resale of the product or on the collection of payments from their customers. Certain contracts with advertising agencies contain sequential liability provisions, under which the agency is not required to pay until payment is received from the agency's customers. In these circumstances, we evaluate the credit-worthiness of the agency's customers in addition to the agency itself. If we license our software or provide SaaS services to a customer where we have a reason to believe the customer's ability and intention to pay is not probable, the arrangement is not considered to be a revenue contract. Accordingly, we will not recognize any consideration received as revenue until termination or substantive completion of the services.

Adopted Accounting Guidance and Accounting Pronouncements Not Yet Effective

In November 2023, the Financial Accounting Standards Board issued Accounting Standards Update No. 2023-07, Segment Reporting, which expands annual and interim disclosure requirements for reportable segments, primarily through enhanced disclosures about significant segment expenses. The updated standard is effective for our annual periods beginning in fiscal 2025 and interim periods beginning in the first quarter of fiscal 2026. Early adoption is permitted. We are currently evaluating the impact that the updated standard will have on our financial statement disclosures.

There have been no other recent accounting pronouncements, changes in accounting pronouncements or recently adopted accounting guidance during fiscal 2023 that are of significance or potential significance to us.

NOTE 2. REVENUE

Segment Information

We report segment information based on the "management" approach. The management approach designates the internal reporting used by management for making decisions and assessing performance as the source of our reportable segments.

Our Chief Executive Officer, the chief operating decision maker, reviews revenue and gross margin information for each of our reportable segments, but does not review operating expenses on a segment by segment basis. In addition, with the exception of goodwill, we do not identify or allocate our assets by the reportable segments.

Our business is organized into the following reportable segments:

- *Digital Media*—Our Digital Media segment provides products and services that enable individuals, teams, businesses, and enterprises to create, publish and promote their content anywhere and accelerate their productivity by transforming how they view, share, engage with and collaborate on documents and creative content. Our customers include creative professionals, including photographers, video editors, graphic and experience designers and game developers; communicators, including content creators, students, marketers and knowledge workers; and consumers.
- *Digital Experience*—Our Digital Experience segment provides an integrated platform and set of products, services and solutions that enable businesses to create, manage, execute, measure, monetize and optimize customer experiences that span from analytics to commerce. Our customers include marketers, advertisers, agencies, publishers, merchandisers, merchants, web analysts, data scientists, developers and executives across the C-suite.
- *Publishing and Advertising*—Our Publishing and Advertising segment contains legacy products and services that address diverse market opportunities, including eLearning solutions, technical

document publishing, web conferencing, document and forms platform, web app development, high-end printing and our Adobe Advertising offerings.

ADOBE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Our segment revenue and results for fiscal 2023, 2022 and 2021 were as follows:

<i>(dollars in millions)</i>	Digital Media	Digital Experience	Publishing and Advertising	Total
Fiscal 2023				
Revenue	\$ 14,216	\$ 4,893	\$ 300	\$ 19,409
Cost of revenue	665	1,603	86	2,354
Gross profit	<u>\$ 13,551</u>	<u>\$ 3,290</u>	<u>\$ 214</u>	<u>\$ 17,055</u>
Gross profit as a percentage of revenue	95 %	67 %	71 %	88 %
Fiscal 2022				
Revenue	\$ 12,842	\$ 4,422	\$ 342	\$ 17,606
Cost of revenue	561	1,502	102	2,165
Gross profit	<u>\$ 12,281</u>	<u>\$ 2,920</u>	<u>\$ 240</u>	<u>\$ 15,441</u>
Gross profit as a percentage of revenue	96 %	66 %	70 %	88 %
Fiscal 2021				
Revenue	\$ 11,520	\$ 3,867	\$ 398	\$ 15,785
Cost of revenue	429	1,321	115	1,865
Gross profit	<u>\$ 11,091</u>	<u>\$ 2,546</u>	<u>\$ 283</u>	<u>\$ 13,920</u>
Gross profit as a percentage of revenue	96 %	66 %	71 %	88 %

We generally categorize revenue by geographic area based on where the customer manages their utilization of our offerings. Revenue by geographic area for fiscal 2023, 2022 and 2021 were as follows:

<i>(in millions)</i>	2023	2022	2021
Americas:			
United States	\$ 10,460	\$ 9,217	\$ 8,104
Other	1,194	1,034	892
Total Americas	<u>11,654</u>	<u>10,251</u>	<u>8,996</u>
EMEA	4,881	4,593	4,252
APAC	2,874	2,762	2,537
Revenue	<u>\$ 19,409</u>	<u>\$ 17,606</u>	<u>\$ 15,785</u>

Revenue by major offerings in our Digital Media reportable segment for fiscal 2023, 2022 and 2021 were as follows:

<i>(in millions)</i>	2023	2022	2021
Creative Cloud	\$ 11,517	\$ 10,459	\$ 9,546
Document Cloud	2,699	2,383	1,974
Total Digital Media revenue	<u>\$ 14,216</u>	<u>\$ 12,842</u>	<u>\$ 11,520</u>

Subscription revenue by segment for fiscal 2023, 2022 and 2021 were as follows:

<i>(in millions)</i>	2023	2022	2021
Digital Media	\$ 13,838	\$ 12,385	\$ 11,048
Digital Experience	4,331	3,880	3,379
Publishing and Advertising	115	123	146
Total subscription revenue	<u>\$ 18,284</u>	<u>\$ 16,388</u>	<u>\$ 14,573</u>

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Contract Balances

Trade Receivables

A receivable is recorded when an unconditional right to invoice and receive payment exists, such that only the passage of time is required before payment of consideration is due. Timing of revenue recognition may differ from the timing of invoicing to customers. Certain performance obligations may require payment before delivery of the license or service to the customer. Included in trade receivables on the Consolidated Balance Sheets are unbilled receivable balances which have not yet been invoiced, and are typically related to license revenue or services which are delivered prior to invoicing. As of December 1, 2023, the balance of trade receivables, net of allowances for doubtful accounts, was \$2.22 billion, inclusive of unbilled receivables of \$80 million. As of December 2, 2022, the balance of trade receivables, net of allowance for doubtful accounts, was \$2.07 billion, inclusive of unbilled receivables of \$93 million.

Allowance for Doubtful Accounts

We maintain an allowance for doubtful accounts which reflects our best estimate of potentially uncollectible trade receivables and is based on both specific and general reserves. We maintain general reserves on a collective basis by considering factors such as historical experience, credit-worthiness, the age of the trade receivable balances, current economic conditions and a reasonable and supportable forecast of future economic conditions. The allowance for doubtful accounts was \$16 million and \$23 million as of December 1, 2023 and December 2, 2022, respectively.

Contract Assets

A contract asset is recognized when a conditional right to consideration exists and transfer of control has occurred. Contract assets are typically related to subscription and hosted service contracts where the transaction price allocated to the satisfied performance obligations exceeds the value of billings to date. Contract assets are included in prepaid expenses and other current assets for the current portion and other assets for the long-term portion on the Consolidated Balance Sheets. We regularly review contract asset balances for impairment, considering factors such as historical experience, credit-worthiness, age of the balance, current economic conditions and a reasonable and supportable forecast of future economic conditions. Contract asset impairments were not material in fiscal 2023 and 2022. Contract assets were \$141 million and \$97 million as of December 1, 2023 and December 2, 2022, respectively.

Deferred Revenue and Remaining Performance Obligations

Deferred revenue primarily consists of billings or payments received in advance of revenue recognition from subscription services, including non-cancellable and non-refundable committed funds and refundable customer deposits. Deferred revenue is recognized as revenue when transfer of control to customers has occurred. Customers are typically invoiced for these agreements in regular installments and revenue is recognized ratably over the contractual subscription period. The deferred revenue balance is influenced by several factors, including the compounding effects of renewals, invoice duration, invoice timing, size and new business linearity within the quarter. Deferred revenue does not represent the total contract value of annual or multi-year non-cancellable subscription agreements.

Payment terms and conditions vary by contract type, although terms generally include a requirement of payment within 30 to 60 days. In instances where the timing of revenue recognition differs from the timing of invoicing, we have determined our contracts generally do not include a significant financing component. The primary purpose of our invoicing terms is to provide customers with simplified and predictable ways of purchasing our products and services, such as invoicing at the beginning of a subscription term with revenue recognized ratably over the contract period, and not to receive financing from our customers. Any potential financing fees are considered insignificant in the context of our contracts.

As of December 1, 2023, the balance of deferred revenue was \$5.95 billion, which includes \$115 million of refundable customer deposits. Refundable customer deposits represent arrangements in which the customer has a unilateral cancellation right for which we are obligated to refund amounts paid

related to products or services not yet delivered or provided at the time of cancellation on a prorated basis. Arrangements with some of our enterprise customers with non-cancellable and non-refundable committed funds provide options to either renew monthly on-premise term-based licenses or use some or all funds to purchase other Adobe products or services. Non-cancellable and non-refundable committed funds related to these agreements comprised approximately 5% of the total deferred revenue.

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

As of December 2, 2022, the balance of deferred revenue was \$5.41 billion. Significant movements in the deferred revenue balance during the period consisted of increases due to payments received prior to transfer of control of the underlying performance obligations to the customer, which were offset by decreases due to revenue recognized in the period. During the year ended December 1, 2023, approximately \$5.24 billion of revenue was recognized that was included in the balance of deferred revenue as of December 2, 2022.

Transaction price allocated to remaining performance obligations represents contracted revenue that has not yet been recognized, which includes deferred revenue and unbilled amounts that will be recognized as revenue in future periods. Transaction price allocated to remaining performance obligations is influenced by several factors, including the timing of renewals and average contract term. We applied practical expedients to exclude amounts related to performance obligations that are billed and recognized as they are delivered, optional purchases that do not represent material rights, sales and usage-based royalties not yet consumed and any estimated amounts of variable consideration that are subject to constraint.

Remaining performance obligations were approximately \$17.22 billion as of December 1, 2023. Non-cancellable and non-refundable committed funds related to some of our enterprise customer agreements referred to in the paragraph above comprised approximately 5% of the total remaining performance obligations. Approximately 69% of the remaining performance obligations, excluding the aforementioned enterprise customer agreements, are expected to be recognized over the next 12 months with the remainder recognized thereafter.

Contract Acquisition Costs

We recognize an asset for the incremental costs of obtaining a contract with a customer if we expect the benefit of those costs to be longer than one year. We have determined that certain sales incentive programs meet the requirements to be capitalized.

The costs capitalized are primarily sales commissions paid to our sales force personnel. Capitalized costs may also include portions of fringe benefits and payroll taxes associated with compensation for incremental costs to acquire customer contracts and incentive payments to partners.

Capitalized costs to obtain a contract are amortized over the expected period of benefit, which we have determined, based on analysis, to be 5 years. Amortization of capitalized costs are included in sales and marketing expense in our Consolidated Statements of Income. During fiscal 2023, 2022 and 2021, we amortized \$254 million, \$238 million and \$212 million of capitalized contract acquisition costs into sales and marketing expense, respectively. We did not incur any impairment losses for all periods presented.

Capitalized contract acquisition costs were \$656 million and \$629 million as of December 1, 2023 and December 2, 2022, of which \$422 million and \$406 million was long-term and included in other assets in the Consolidated Balance Sheets, respectively. The remaining balance of the capitalized costs to obtain contracts was current and included in prepaid expenses and other current assets.

Refund Liabilities

We record refund liabilities for amounts that may be subject to future refunds, which include sales returns reserves and customer rebates and credits. Refund liabilities are included in accrued expenses on the Consolidated Balance Sheets. Refund liabilities were \$111 million and \$106 million as of December 1, 2023 and December 2, 2022, respectively.

Significant Customers

For all periods presented, there were no customers that represented at least 10% of net revenue or that were responsible for over 10% of our trade receivables.

NOTE 3. ACQUISITIONS

Figma

On September 15, 2022, we entered into a definitive merger agreement under which we intended to acquire Figma, Inc. ("Figma") for approximately \$20 billion, comprised of approximately half cash and half stock.

On December 17, 2023, we entered into a mutual termination agreement with Figma to terminate the proposed merger. In accordance with the terms of the termination agreement, on December 20, 2023, we paid Figma a termination fee of \$1 billion, which we recorded in operating expenses in the first quarter of fiscal year 2024.

Frame.io

On October 7, 2021, we completed the acquisition of Frame.io, a privately held company that provides a cloud-based video collaboration platform, for approximately \$1.24 billion, primarily in cash consideration. The financial results of Frame.io have been included in our Consolidated Financial Statements since the date of the acquisition. Frame.io is reported as part of our Digital Media reportable segment.

The table below represents the final purchase price allocation to total identifiable intangible assets acquired and net liabilities assumed based on their respective estimated fair values as of October 7, 2021.

<i>(dollars in millions)</i>	Amount	Weighted Average Useful Life (years)
Purchased technology	\$ 331	4
In-process research and development ⁽¹⁾	19	N/A
Trademarks	4	3
Customer contracts and relationships	3	10
Total identifiable intangible assets	357	
Net liabilities assumed	(36)	N/A
Goodwill ⁽²⁾	915	N/A
Total purchase price	<u>\$ 1,236</u>	

⁽¹⁾ Capitalized as purchased technology and considered indefinite lived until the completion or abandonment of the associated research and development efforts.

⁽²⁾ Non-deductible for tax purposes.

Workfront

On December 7, 2020, we completed the acquisition of Workfront, a privately held company that provides a workflow platform, for approximately \$1.52 billion in cash consideration. The financial results of Workfront have been included in our Consolidated Financial Statements since the date of the acquisition. Workfront is reported as part of our Digital Experience reportable segment.

⁽¹⁾ Non-deductible for tax purposes.

NOTE 4. CASH, CASH EQUIVALENTS AND SHORT-TERM INVESTMENTS

Cash equivalents consist of highly liquid marketable securities with remaining maturities of three months or less at the date of purchase. We classify our investments in marketable debt securities as “available-for-sale.” We carry these investments at fair value, based on quoted market prices or other readily available market information. Unrealized gains and unrealized non-credit-related losses of marketable debt securities are included in accumulated other comprehensive income, net of taxes, in our Consolidated Balance Sheets. Unrealized credit-related losses are recorded to other income (expense), net in our Consolidated Statements of Income with a corresponding allowance for credit-related losses in our Consolidated Balance Sheets. Gains and losses are determined using the specific identification method and recognized when realized in our Consolidated Statements of Income.

Cash, cash equivalents and short-term investments consisted of the following as of December 1, 2023:

<i>(in millions)</i>	Amortized Cost	Unrealized Gains	Unrealized Losses	Estimated Fair Value
Current assets:				
Cash	\$ 618	\$ —	\$ —	\$ 618
Cash equivalents:				
Money market funds	6,498	—	—	6,498
Time deposits	25	—	—	25
Total cash equivalents	6,523	—	—	6,523
Total cash and cash equivalents	7,141	—	—	7,141
Short-term fixed income securities:				
Asset-backed securities	15	—	—	15
Corporate debt securities	438	—	(4)	434
U.S. agency securities	13	—	(1)	12
U.S. Treasury securities	247	—	(7)	240
Total short-term investments	713	—	(12)	701
Total cash, cash equivalents and short-term investments	<u>\$ 7,854</u>	<u>\$ —</u>	<u>\$ (12)</u>	<u>\$ 7,842</u>

ADOBE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Cash, cash equivalents and short-term investments consisted of the following as of December 2, 2022:

<i>(in millions)</i>	Amortized Cost	Unrealized Gains	Unrealized Losses	Estimated Fair Value
Current assets:				
Cash	\$ 657	\$ —	\$ —	\$ 657
Cash equivalents:				
Corporate debt securities	39	—	—	39
Money market funds	3,479	—	—	3,479
Time deposits	61	—	—	61
Total cash equivalents	3,579	—	—	3,579
Total cash and cash equivalents	4,236	—	—	4,236
Short-term fixed income securities:				
Asset-backed securities	98	—	(1)	97
Corporate debt securities	1,290	—	(24)	1,266
Foreign government securities	5	—	—	5

U.S. Treasury securities	450	—	(16)	434
Total short-term investments	1,901	—	(41)	1,860
Total cash, cash equivalents and short-term investments	\$ 6,137	\$ —	\$ (41)	\$ 6,096

See Note 5 for further information regarding the fair value of our financial instruments.

The following table summarizes the estimated fair value of short-term fixed income debt securities classified as short-term investments based on stated effective maturities as of December 1, 2023:

<i>(in millions)</i>	Estimated Fair Value
Due within one year	\$ 472
Due between one and two years	220
Due between two and three years	9
Total	\$ 701

We review our debt securities classified as short-term investments on a regular basis for impairment. For debt securities in unrealized loss positions, we determine whether any portion of the decline in fair value below the amortized cost basis is due to credit-related factors if we neither intend to sell nor anticipate that it is more likely than not that we will be required to sell prior to recovery of the amortized cost basis. We consider factors such as the extent to which the market value has been less than the cost, any noted failure of the issuer to make scheduled payments, changes to the rating of the security and other relevant credit-related factors in determining whether or not a credit loss exists. During fiscal 2023 and 2022, we did not recognize an allowance for credit-related losses on any of our investments.

See Note 4 for further information regarding the fair value of our financial instruments.

Our fixed income available-for-sale debt securities consist of high quality, investment grade securities from diverse issuers with a weighted average credit rating of AA-. We value these securities based on pricing from independent pricing vendors who use matrix pricing valuation techniques including market approach methodologies that model information generated by market transactions involving identical or comparable assets, as well as discounted cash flow methodologies. Inputs include quoted prices in active markets for identical assets or inputs other than quoted prices that are observable either directly or indirectly in determining fair value, including benchmark yields, issuer spreads off benchmark yields, interest rates and U.S. Treasury or swap curves. We therefore categorize all of our fixed income available-for-sale securities as Level 2. We perform routine procedures such as comparing prices obtained from multiple independent sources to ensure that appropriate fair values are recorded.

The fair values of our money market funds, time deposits and deferred compensation plan assets, which consist of money market and other mutual funds, are based on quoted prices in active markets at the measurement date.

Our over-the-counter foreign currency derivatives are valued using pricing models and discounted cash flow methodologies based on observable foreign exchange and interest rate data at the measurement date.

Our other current financial assets and current financial liabilities have fair values that approximate their carrying values.

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Assets and Liabilities Measured at Fair Value on a Nonrecurring Basis

The fair value of our senior notes was \$3.39 billion as of December 1, 2023, based on observable market prices in less active markets and categorized as Level 2. *See Note 17 for further details regarding our debt.*

NOTE 6. DERIVATIVE FINANCIAL INSTRUMENTS

We may use derivatives to partially offset our business exposure to foreign currency and interest rate risk on expected future cash flows, and certain existing assets and liabilities. We do not use any of our derivative instruments for trading purposes.

We enter into master netting arrangements to mitigate credit risk in derivative transactions by permitting net settlement of transactions with the same counterparty. We do not offset fair value amounts recognized for derivative instruments under master netting arrangements. We also enter into collateral security agreements with certain of our counterparties to exchange cash collateral when the net fair value of certain derivative instruments fluctuates from contractually established thresholds. Collateral posted is included in prepaid expenses and other current assets and collateral received is included in accrued expenses on our Consolidated Balance Sheets.

Cash Flow Hedges

In countries outside the United States, we transact business in U.S. Dollars and in various other currencies. We may use foreign exchange option contracts and forward contracts to hedge a portion of our forecasted foreign currency denominated revenue and expenses. These foreign exchange contracts, carried at fair value, have maturities of up to 12 months. As of December 1, 2023 and December 2, 2022, total notional amounts of outstanding cash flow hedges were \$2.83 billion and \$2.43 billion, respectively, hedging exposures denominated in Euros, Indian Rupees, British Pounds, Japanese Yen and Australian Dollars.

In June 2019, we entered into Treasury lock agreements with large financial institutions which fixed benchmark U.S. Treasury rates for an aggregate notional amount of \$1 billion of our future debt issuance. These derivative instruments hedged the impact of changes in the benchmark interest rate to future interest payments and were settled upon debt issuance in the first quarter of fiscal 2020. We incurred a loss related to the settlement of the instruments which is amortized to interest expense over the term of our debt due February 1, 2030. *See Note 17 for further details regarding our debt.*

As of December 1, 2023, we had net derivative losses on our foreign exchange option contracts expected to be recognized within the next 18 months, of which \$9 million of losses are expected to be recognized into revenue within the next 12 months. In addition, we had net derivative gains of \$1 million on our foreign exchange forward contracts, which are expected to be recognized into operating expenses within the next 12 months. We also had net derivative losses on our Treasury lock agreements, of which \$5 million is expected to be recognized into interest expense within the next 12 months.

To receive hedge accounting treatment, all hedging relationships are formally documented at the inception of the hedge, and the hedges must be highly effective in offsetting changes to future cash flows on hedged transactions. We record changes in fair value of these cash flow hedges in accumulated other comprehensive income (loss) in our Consolidated Balance Sheets, until the forecasted transaction occurs. When the forecasted transaction affects earnings, we reclassify the related gain or loss on the foreign currency revenue, foreign currency expense or Treasury lock cash flow hedge to revenue, operating expense or interest expense, as applicable. In the event the underlying forecasted transaction does not occur, or it becomes probable that it will not occur, we reclassify the gain or loss on the related cash flow hedge from accumulated other comprehensive income (loss) to the same income statement line item as the hedged item. We evaluate hedge effectiveness at the inception of the hedge prospectively, and on an ongoing basis both retrospectively and prospectively. If we do not elect hedge accounting, or the contract does not qualify for hedge accounting treatment, the changes in fair value from period to period are recorded in the same income statement line item as the hedged item.

For fiscal 2023, 2022 and 2021, there were no net gains or losses recognized in income relating to hedges of forecasted transactions that did not occur.

ADOBE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
Non-Designated Hedges

Our derivatives not designated as hedging instruments consist of foreign currency forward contracts that we primarily use to hedge monetary assets and liabilities denominated in non-functional currencies. The changes in fair value of these contracts are recorded to other income (expense), net in our Consolidated Statements of Income. Changes in the fair value of the underlying assets and liabilities associated with the hedged risk are generally offset by the changes in the fair value of the related contracts.

As of December 1, 2023, total notional amounts of outstanding foreign currency forward contracts hedging monetary assets and liabilities were \$998 million, primarily hedging exposures denominated in Euros, Indian Rupees, British Pounds and Australian Dollars. As of December 2, 2022, total notional amounts of outstanding contracts were \$814 million, primarily hedging exposures denominated in Euros, British Pounds, Indian Rupees and Australian Dollars. At December 1, 2023 and December 2, 2022, the outstanding balance sheet hedging derivatives had maturities of 180 days or less.

Fair value asset derivatives are included in prepaid expenses and other current assets and fair value liability derivatives are included in accrued expenses on our Consolidated Balance Sheets. The fair value of derivative instruments on our Consolidated Balance Sheets as of December 1, 2023 and December 2, 2022 were as follows:

	2023		2022	
	Fair Value Asset Derivatives	Fair Value Liability Derivatives	Fair Value Asset Derivatives	Fair Value Liability Derivatives
Derivatives designated as hedging instruments:

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
Deferred Tax Assets and Liabilities

The tax effects of the temporary differences that gave rise to significant portions of the deferred tax assets and liabilities as of December 1, 2023 and December 2, 2022 were as follows:

<i>(in millions)</i>	2023	2022
Deferred tax assets:		
Capitalized expenses	\$ 984	\$ 298
Intangible assets	320	653
Credit carryforwards	366	333
Reserves and accruals	125	98
Operating lease liabilities	97	104
Stock-based compensation	65	108
Net operating loss carryforwards of acquired companies	44	88
Benefits relating to tax positions	68	56
Other	48	41
Total gross deferred tax assets	2,117	1,779
Valuation allowance	(405)	(402)
Total deferred tax assets	1,712	1,377
Deferred tax liabilities:		
Acquired intangible assets	263	354
Prepaid expenses	107	110
Operating lease right-of-use assets	89	97
Depreciation and amortization	77	67
Total deferred tax liabilities	536	628
Net deferred tax assets	\$ 1,176	\$ 749

Deferred tax assets and liabilities are recognized for the expected future tax consequences of temporary differences between the financial reporting and tax bases of assets and liabilities, and for operating loss and tax credit carryforwards.

As of December 1, 2023, we had state net operating loss and tax credit carryforwards of approximately \$446 million and \$352 million, respectively. We also had federal tax credit carryforwards of approximately \$80 million. The majority of the state tax credits can be carried forward indefinitely, and the remaining net operating loss and tax credit carryforwards will expire in various years from fiscal 2024 through 2040. Certain net operating loss and tax credit carryforwards are subject to an annual limitation and/or are reduced by a valuation allowance. The net carrying amount of such assets is expected to be fully realized.

In assessing the realizability of deferred tax assets, management determined that it is more likely than not that we will not fully realize certain available tax assets in domestic and foreign jurisdictions. Deferred tax assets are offset by a valuation allowance to the extent it is more likely than not that they are not expected to be realized. As of December 1, 2023, we continue to maintain a valuation allowance of \$405 million primarily related to certain state credits. For fiscal 2023, the increase in the valuation allowance was \$3 million.

As we repatriate foreign earnings for use in the United States, the distributions will generally be exempt from federal income taxes. As of December 1, 2023, the cumulative amount of foreign earnings considered permanently reinvested upon which taxes have not been provided, and the corresponding unrecognized deferred tax liability, was not material.

ADOBE INC.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)***Accounting for Uncertainty in Income Taxes*

During fiscal 2023 and 2022, the aggregate changes in our total gross amount of unrecognized tax benefits were as follows:

<i>(in millions)</i>	2023	2022
Beginning balance	\$ 321	\$ 289
Gross increases in unrecognized tax benefits – prior year tax positions	103	20
Gross decreases in unrecognized tax benefits – prior year tax positions	(9)	(18)
Gross increases in unrecognized tax benefits – current year tax positions	108	53
Lapse of statute of limitations	(14)	(4)
Tax settlements	(13)	(18)
Foreign exchange gains and losses	5	(1)
Ending balance	<u>\$ 501</u>	<u>\$ 321</u>

Our policy is to record interest and penalties related to uncertain tax positions within the provision for income taxes. As of December 1, 2023 and December 2, 2022, the combined amounts of accrued interest and penalties included in long-term income taxes payable related to tax positions taken on our tax returns were not material.

While we file federal, state and local income tax returns globally, our major tax jurisdictions are Ireland, California and the United States. We are subject to the examination of our income tax returns by various domestic and foreign tax authorities with 2019 being the earliest fiscal year open for examination in all of our major tax jurisdictions. We regularly assess the likelihood of outcomes resulting from these examinations to determine the adequacy of our provision for income taxes and have reserved for potential adjustments that may result from these examinations. While we believe our tax estimates are reasonable, we cannot provide assurance that the final determination of any of these examinations will not have an adverse effect on our financial position and results of operations.

The timing of the resolution of income tax examinations is highly uncertain as are the amounts and timing of tax payments that are part of any audit settlement process. These events could cause large fluctuations in the balance sheet classification of our tax assets and liabilities. We believe that within the next 12 months, it is reasonably possible that either certain audits will conclude or statutes of limitations on certain income tax examination periods will expire, or both. Although the timing of resolution, settlement and closing of audits is not certain, it is reasonably possible that the underlying unrecognized tax benefits may decrease by up to \$60 million over the next 12 months.

NOTE 11. BENEFIT PLANS*Retirement Savings Plan*

The Adobe Inc. 401(k) Retirement Savings Plan, qualified under Section 401(k) of the Internal Revenue Code, is a retirement savings plan covering substantially all of our U.S. employees. Under the plan, eligible employees may contribute up to 65% of their pretax or after-tax salary, subject to the IRS annual contribution limits. In fiscal 2023, we matched 50% of the first 6% of the employee's eligible compensation. We contributed \$85 million, \$76 million and \$64 million in fiscal 2023, 2022 and 2021, respectively. We are under no obligation to continue matching future employee contributions and, at our discretion, may change our practices at any time.

Deferred Compensation Plan

The Adobe Inc. Deferred Compensation Plan is an unfunded, non-qualified, deferred compensation arrangement under which certain executives are able to defer a portion of their annual compensation. Participants may elect to contribute up to 75% of their base salary and 100% of other specified compensation, including commissions and bonuses. Members of the Board of Directors are also eligible to participate and are able to defer their directors' fees and elect cash benefit distributions in the same manner as executives. Additionally, members of the Board are permitted to defer equity awards. Participants are able to elect the payment of benefits to begin on a specified date at least three years

after the end of the plan year in which election is made or, with respect to equity awards, vests. For cash benefit elections, distributions are made in cash in the form of a lump sum, or

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

five, ten, or fifteen-year annual installments. For equity award elections, distributions are made in stock in the form of a lump sum payment only.

Certain deferred compensation is invested in money market and other mutual funds and subsequently recorded as other assets on our Consolidated Balance Sheets, with corresponding unrealized holding gains and losses recorded as investment gains (losses) in our Consolidated Statements of Income. Undistributed deferred compensation is recorded as long-term liabilities on our Consolidated Balance Sheets.

As of December 1, 2023 and December 2, 2022, the invested amounts under the plan totaled \$206 million and \$160 million, respectively. As of December 1, 2023 and December 2, 2022, undistributed deferred compensation due to participants totaled \$222 million and \$178 million, respectively.

NOTE 12. STOCK-BASED COMPENSATION

Our stock-based compensation programs are long-term retention programs that are intended to attract, retain and provide incentives for employees, officers and directors, and to align stockholder and employee interests. We have the following stock-based compensation plans and programs:

Restricted Stock Units and Performance Share Programs

We grant restricted stock units and performance share awards to eligible employees under our 2019 Equity Incentive Plan ("2019 Plan"). Restricted stock units generally vest over four years. Certain grants have other vesting periods approved by the Executive Compensation Committee of our Board of Directors (the "ECC").

As of December 1, 2023, we had reserved 64.0 million shares of our common stock for issuance under our 2019 Plan and had 34.3 million shares available for grant.

Our Performance Share Programs aim to help focus key employees on building stockholder value, provide significant award potential for achieving outstanding company performance and enhance our ability to attract and retain highly talented and competent individuals. The ECC approves the terms of each of our Performance Share Programs, including the award calculation methodology. In January 2023, the ECC approved the 2023 Performance Share Program.

Shares outstanding under our 2023 and 2022 Performance Share Programs may be earned based on the achievement of (i) an objective relative total stockholder return measured over a three-year performance period, as well as (ii) revenue-based financial metrics measured over three one-year performance periods. Each type of performance goal is weighted 50% and achievement of each performance goal is determined independently of the other. Shares associated with each performance goal are not awarded until the corresponding performance targets are defined.

Shares outstanding under our 2021 Performance Share Program may be earned based on the achievement of an objective relative total stockholder return measured over a three-year performance period.

Performance share awards in each of our 2023, 2022 and 2021 Performance Share Programs will cliff-vest upon the later of (i) the three-year anniversary of the earliest vesting commencement date in the respective Performance Share Program, or (ii) the ECC's certification of the level of achievement of the final performance period in the respective Performance Share Program, contingent upon the participant's continued service. Participants can earn between 0% and 200% of the target number of performance shares.

As of December 1, 2023, the shares awarded under our 2023, 2022 and 2021 Performance Share Programs remained outstanding and unvested.

Employee Stock Purchase Plan

Our Employee Stock Purchase Plan ("ESPP") allows eligible employee participants to purchase shares of our common stock at a discount through payroll deductions. The ESPP consists of twenty-four-month offering periods with four six-month purchase periods in each offering period. Employees

purchase shares in each purchase period at 85% of the market value of our common stock at either the beginning of the offering period or the end of the purchase period, whichever price is lower. If the

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

market value of our common stock at the end of a purchase period is lower than the market value at the beginning of the offering period, participants are rolled over into the subsequent offering, resulting in a reset of the offering price and the twenty-four month offering period.

The ESPP will continue until the earlier of termination by the Board of Directors or the date on which all of the shares available for issuance under the plan have been issued.

As of December 1, 2023, we had reserved 103.0 million shares of our common stock for issuance under the ESPP and approximately 9.6 million shares remain available for future issuance.

Issuance of Shares

Upon vesting of restricted stock units and performance shares or purchase of shares under the ESPP, we will issue treasury stock. If treasury stock is not available, common stock will be issued. In order to minimize the impact of on-going dilution from issuance of shares, we instituted a stock repurchase program. See Note 14 for information regarding our stock repurchase programs.

Valuation of Stock-Based Compensation

Stock-based compensation cost is measured at the grant date based on the fair value of the award.

Our restricted stock units are valued based on the fair market value of the award on the grant date. Our performance share awards which are contingent upon achievement of relative total stockholder return are valued using a Monte Carlo Simulation model. Our performance share awards which are contingent upon achievement of revenue-based financial metrics are valued based on the fair market value of the award on the grant date.

We use the Black-Scholes option pricing model to determine the fair value of ESPP purchase rights. The determination of the grant date fair value of our ESPP purchase rights is affected by our stock price as well as assumptions regarding a number of complex and subjective variables. These variables include our expected stock price volatility over the expected term of the awards, actual and projected employee stock option exercise behaviors, a risk-free interest rate and any expected dividends.

Summary of Restricted Stock Units

Restricted stock unit activity for fiscal 2023 was as follows:

	Number of Shares (in millions)	Weighted Average Grant Date Fair Value	Aggregate Fair Value ⁽¹⁾ (in millions)	Weighted Average Remaining Contractual Life (years)
Beginning outstanding balance	7.4	\$ 449.94		
Awarded	4.8	\$ 376.83		
Released	(3.9)	\$ 424.00		
Forfeited	(0.5)	\$ 436.70		
Ending outstanding balance	<u>7.8</u>	\$ 418.63	\$ 4,770	1.36
Expected to vest	7.0	\$ 419.46	\$ 4,276	1.29

⁽¹⁾ The aggregate fair value is calculated using the closing stock price as of December 1, 2023 of \$612.47.

The weighted average grant date fair values of restricted stock units granted during fiscal 2023, 2022 and 2021 were \$376.83, \$457.96 and \$504.69, respectively. The total fair value of restricted stock units vested during fiscal 2023, 2022 and 2021 was \$1.71 billion, \$1.30 billion and \$1.83 billion, respectively.

ADOBE INC.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)***Summary of Performance Shares*

Performance share activity for fiscal 2023 was as follows:

	Number of Shares (in millions)	Weighted Average Grant Date Fair Value	Aggregate Fair Value ⁽¹⁾ (in millions)	Weighted Average Remaining Contractual Life (years)
Beginning outstanding balance	0.4	\$ 495.23		
Awarded	0.2	\$ 437.58		
Released	(0.1)	\$ 498.74		
Forfeited	—	\$ 491.86		
Ending outstanding balance	<u>0.5</u>	\$ 465.71	\$ 284	1.32
Expected to vest	0.4	\$ 466.10	\$ 255	1.26

⁽¹⁾ The aggregate fair value is calculated using the closing stock price as of December 1, 2023 of \$612.47.

Shares released during fiscal 2023 resulted from 63% achievement of target for the 2020 Performance Share Program, as certified by the ECC in the first quarter of fiscal 2023.

The weighted average grant date fair values of performance share awards granted during fiscal 2023, 2022 and 2021 were \$437.58, \$402.24 and \$325.24, respectively. The total fair value of performance share awards vested during fiscal 2023, 2022 and 2021 was \$39 million, \$192 million and \$212 million, respectively.

Summary of Employee Stock Purchase Plan Shares

Employees purchased 1.1 million shares at an average price of \$286.31, 0.8 million shares at an average price of \$333.92, and 1.0 million shares at an average price of \$294.15 for fiscal 2023, 2022 and 2021, respectively. The intrinsic value of shares purchased during fiscal 2023, 2022 and 2021 was \$185 million, \$73 million and \$256 million, respectively. The intrinsic value is calculated as the difference between the market value on the date of purchase and the purchase price of the shares.

During fiscal 2023, the rollover provision of our ESPP was triggered and resulted in incremental expense to be recognized over the new twenty-four-month offering period, which did not have a material impact on our Consolidated Statements of Income.

Compensation Costs

We recognize the estimated compensation costs of restricted stock units, net of estimated forfeitures, on a straight-line basis over the requisite service period of the entire award, which is generally the vesting period. The estimated compensation cost is based on the fair value of our common stock on the date of grant.

Compensation costs for our performance share awards which are contingent upon achievement of relative total stockholder return are recognized, net of estimated forfeitures, on a straight-line basis over the requisite performance period or service period of the entire award, whichever is longer. Compensation costs for our performance share awards which are contingent upon achievement of revenue-based financial metrics are recognized, net of estimated forfeitures, based upon the expected levels of achievement, which are assessed periodically until certification by the ECC.

We estimate forfeitures at the time of grant and revise those estimates in subsequent periods if actual forfeitures differ from those estimates. We use historical data to estimate forfeitures and record stock-based compensation expense only for those awards that are expected to vest.

As of December 1, 2023, there was \$2.87 billion of unrecognized compensation cost, adjusted for estimated forfeitures, related to non-vested stock-based awards and purchase rights which will be recognized over a weighted average period of 2.24 years. Total unrecognized compensation cost will be adjusted for future changes in estimated forfeitures.

ADOBE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

Total stock-based compensation costs included in our Consolidated Statements of Income for fiscal 2023, 2022 and 2021 were as follows:

(in millions)

	2023	2022	2021
Cost of revenue	\$ 115	\$ 97	\$ 70
Research and development	874	726	549
Sales and marketing	495	417	307
General and administrative	234	200	164
Total ⁽¹⁾	<u>\$ 1,718</u>	<u>\$ 1,440</u>	<u>\$ 1,090</u>

⁽¹⁾ During fiscal 2023, 2022 and 2021, we recorded tax benefits related to stock-based compensation costs of \$299 million, \$291 million and \$395 million, respectively.

NOTE 13. ACCUMULATED OTHER COMPREHENSIVE INCOME (LOSS)

The components of accumulated other comprehensive income (loss) and activity, net of related taxes, for fiscal 2023 were as follows:

(in millions)	December 2, 2022	Increase / Decrease	Reclassification Adjustments	December 1, 2023
Net unrealized gains / losses on available-for-sale securities	\$ (41)	\$ 24	\$ 5 ⁽¹⁾	\$ (12)
Net unrealized gains / losses on derivative instruments designated as hedging instruments	17	(12)	(31) ⁽²⁾	(26)
Cumulative foreign currency translation adjustments	(269)	22	—	(247)
Total accumulated other comprehensive income (loss), net of taxes	<u>\$ (293)</u>	<u>\$ 34</u>	<u>\$ (26)</u>	<u>\$ (285)</u>

⁽¹⁾ Reclassification adjustments for gains / losses on available-for-sale securities are classified in other income (expense), net.

⁽²⁾ Reclassification adjustments for gains / losses on foreign currency hedges are classified in revenue or operating expenses, depending on the nature of the underlying transaction, and reclassification adjustments for gains / losses on Treasury lock hedges are classified in interest expense.

Taxes related to each component of other comprehensive income (loss) were immaterial for the fiscal years presented.

NOTE 14. STOCK REPURCHASE PROGRAM

To facilitate our stock repurchase program, designed to return value to our stockholders and minimize dilution from stock issuances, we may repurchase our shares in the open market or enter into structured repurchase agreements with third parties. In December 2020, our Board of Directors granted authority to repurchase up to \$15 billion in our common stock through the end of fiscal 2024.

During fiscal 2023 and 2022, we entered into accelerated share repurchase agreements (“ASRs”) with large financial institutions whereupon we provided them with prepayments of \$1.4 billion and \$2.4 billion, respectively. Under the terms of our ASRs, the financial institutions agree to deliver a portion of shares to us at contract inception and the remaining shares at settlement. The total number of shares delivered and average purchase price paid per share are determined upon settlement based on the Volume Weighted Average Price (“VWAP”) over the term of the ASR, less an agreed upon discount.

During fiscal 2023, 2022 and 2021, we also entered into structured stock repurchase agreements with large financial institutions whereupon we provided them with prepayments totaling \$3 billion, \$4.15 billion and \$3.95 billion, respectively. Under the terms of these structured stock repurchase agreements, the financial institutions agree to deliver shares to us at monthly intervals during the respective contract terms, and the number of shares delivered each month are determined based on the total notional amount of the contracts, the number of trading days in the intervals and the VWAP during the intervals, less an agreed upon discount.

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

During fiscal 2023, we repurchased a total of 11.5 million shares, including approximately 7.5 million shares at an average price of \$429.65 through structured repurchase agreements, as well as 4.0 million shares at an average price of \$348.46 through the ASR entered into during fiscal 2023. During fiscal 2022, we repurchased approximately 15.7 million shares, including approximately 10.4 million shares at an average price of \$375.03 through structured repurchase agreements, as well as 5.3 million shares at an average price of \$451.55 through the ASR entered into during fiscal 2022. During fiscal 2021, we repurchased approximately 7.2 million shares at an average price of \$536.17 through structured repurchase agreements.

For fiscal 2023, 2022 and 2021, the prepayments were classified as treasury stock on our Consolidated Balance Sheets at the payment date, though only shares physically delivered to us by December 1, 2023, December 2, 2022 and December 3, 2021 were excluded from the computation of net income per share. As of December 1, 2023, \$354 million of prepayment remained under our outstanding structured stock repurchase agreement.

Subsequent to December 1, 2023, as part of the December 2020 stock repurchase authority, we entered into an accelerated share repurchase agreement with a large financial institution whereupon we provided them with a prepayment of \$2 billion and received an initial delivery of 2.5 million shares, which represents approximately 75% of our prepayment. Upon completion of the \$2 billion accelerated share repurchase agreement, \$150 million remains under our December 2020 authority.

NOTE 15. NET INCOME PER SHARE

Basic net income per share is computed using the weighted average number of common shares outstanding for the period, excluding unvested restricted stock units and performance awards. Diluted net income per share is based upon the weighted average common shares outstanding for the period plus dilutive potential common shares, including unvested restricted stock units, stock purchase rights and performance share awards using the treasury stock method. Performance share awards are included based on the number of shares that would be issued as if the end of the reporting period was the end of the performance period and the result was dilutive.

The following table sets forth the computation of basic and diluted net income per share for fiscal 2023, 2022 and 2021:

(in millions, except per share data)

	2023	2022	2021
Net income	\$ 5,428	\$ 4,756	\$ 4,822
Shares used to compute basic net income per share	457.1	469.5	477.3
Dilutive potential common shares from stock plans and programs	2.0	1.4	3.7
Shares used to compute diluted net income per share	459.1	470.9	481.0
Basic net income per share	\$ 11.87	\$ 10.13	\$ 10.10
Diluted net income per share	\$ 11.82	\$ 10.10	\$ 10.02
Anti-dilutive potential common shares	2.7	4.2	0.2

ADOBE INC.**NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)****NOTE 16. COMMITMENTS AND CONTINGENCIES***Unconditional Purchase Obligations*

Our purchase obligations consist of agreements to purchase goods and services entered into in the ordinary course of business. The following table summarizes our non-cancellable unconditional purchase obligations for each of the next five years and thereafter as of December 1, 2023, primarily relating to contracts with vendors for third-party hosting and data center services:

(in millions)

Fiscal Year	Purchase Obligations
2024	\$ 1,202
2025	882
2026	884
2027	762
2028	789
Thereafter	411
Total	<u>\$ 4,930</u>

Subsequent to December 1, 2023, we executed agreements associated with certain of our long-term supplier commitments that increased our minimum purchase obligations by \$2.3 billion through December 2028.

Royalties

We have royalty commitments associated with the licensing of certain offerings and products. Royalty expense is generally based on a dollar amount per unit or a percentage of the underlying revenue. Royalty expense, which was recorded in our cost of revenue on our Consolidated Statements of Income, was approximately \$246 million, \$228 million and \$202 million in fiscal 2023, 2022 and 2021, respectively.

Indemnifications

In the ordinary course of business, we provide indemnifications of varying scope to customers and channel partners against claims of intellectual property infringement made by third parties arising from the use of our products and from time to time, we are subject to claims by our customers under these indemnification provisions. Historically, costs related to these indemnification provisions have not been significant and we are unable to estimate the maximum potential impact of these indemnification provisions on our future results of operations.

To the extent permitted under Delaware law, we have agreements whereby we indemnify our officers and directors for certain events or occurrences while the officer or director is or was serving at our request in such capacity. The indemnification period covers all pertinent events and occurrences during the officer's or director's lifetime. The maximum potential amount of future payments we could be required to make under these indemnification agreements is unlimited; however, we have director and officer insurance coverage that reduces our exposure and enables us to recover a portion of any future amounts paid. We believe the estimated fair value of these indemnification agreements in excess of applicable insurance coverage is minimal.

Legal Proceedings

We are subject to legal proceedings, claims, including claims relating to intellectual property, commercial, employment and other matters, and investigations, including government investigations, that arise in the ordinary course of our business. Some of these disputes, legal proceedings and investigations may include speculative claims for substantial or indeterminate amounts of damages. We consider all claims on a quarterly basis in accordance with GAAP and based on known facts assess whether potential losses are considered reasonably possible or probable and estimable. Based upon this assessment, we then evaluate disclosure requirements and whether to accrue for such claims in our

financial statements. This determination is then reviewed and discussed with the Audit Committee of the Board of Directors.

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

We make a provision for a liability when it is both probable that a liability has been incurred and the amount of the loss can be reasonably estimated. These provisions are reviewed at least quarterly and adjusted to reflect the impacts of negotiations, settlements, rulings, advice of legal counsel and other information and events pertaining to a particular case. As of December 1, 2023, we accrued provisions for legal liabilities that were probable and estimable, which were not material to our financial statements. Unless otherwise specifically disclosed in this note, we have determined that no disclosure is required related to any claim against us because: (a) there is not a reasonable possibility that a loss exceeding amounts already recognized (if any) may be incurred with respect to such claim; (b) a reasonably possible loss or range of loss cannot be estimated; or (c) such estimate is immaterial.

All legal costs associated with litigation are expensed as incurred. Litigation is inherently unpredictable. However, we believe that we have valid defenses with respect to the legal matters pending against us. It is possible, nevertheless, that our consolidated financial position, results of operations or cash flows could be negatively affected by an unfavorable resolution of one or more of such proceedings, claims or investigations.

Since June 2022, we have been cooperating with the Federal Trade Commission (the “FTC”) staff in response to a Civil Investigative Demand seeking information regarding our disclosure and subscription cancellation practices relative to the Restore Online Shoppers’ Confidence Act. In November 2023, the FTC staff asserted that they had the authority to enter into consent negotiations to determine if a settlement regarding their investigation of these issues could be reached. We are currently engaging in discussion with the FTC. The defense or resolution of this matter could involve significant monetary costs or penalties and have a significant impact on our financial results and operations. There can be no assurance that we will be successful in negotiating a favorable settlement or in litigation. Any remedies or compliance requirements could adversely affect our ability to operate our business or have a materially adverse impact on our financial results. At this stage, we are unable to estimate a reasonably possible financial loss or range of any potential financial loss, if any, as a result of this investigation.

On October 20, 2023, a securities class action captioned *Pembroke Pines Firefighters & Police Officers Pension Fund et al v. Adobe, Inc. et al*, Case No. 1:23-cv-09260, was filed in the U.S. District Court for the Southern District of New York (the “Securities Action”) naming Adobe and certain of our current and former officers as defendants. The Securities Action purports to be brought on behalf of purchasers of the Company’s stock between July 23, 2021 and September 15, 2022 (the “Class Period”), and alleges that certain public statements made by Adobe during the Class Period related to competition from Figma and the adequacy of Adobe’s existing offerings to counter harms Adobe may have faced due to Figma’s growing market position were materially false and misleading. The Securities Action seeks unspecified compensatory damages, attorneys’ fees and costs, and extraordinary equitable and/or injunctive relief.

On November 16, 2023, a shareholder derivative action captioned *Shah v. Narayan et al*, Case No. 1:23-cv-01315, was filed in the U.S. District Court for the District of Delaware (the “Shah Action”), purportedly on behalf of Adobe. On January 3, 2024, a second shareholder derivative action captioned *Gervat v. Narayan et al*, Case No. 1:24-cv-00006, was filed in the U.S. District Court for the District of Delaware (the “Gervat Action,” and together with the Shah Action, the “Derivative Actions”), purportedly on behalf of Adobe. The Derivative Actions are based largely on the same alleged facts and circumstances as the Securities Action, and name certain of our current and former officers and members of our Board of Directors as defendants and Adobe as a nominal defendant. The Derivative Actions allege claims for breach of fiduciary duty, unjust enrichment, waste of corporate assets, and violations of Section 10(b) of the Securities Exchange Act of 1934 and seek recovery of unspecified damages and attorney’s fees and costs, as well as disgorgement of profits and certain payments and benefits, in the case of the Gervat Action, and improvements to Adobe’s corporate governance and internal procedures, in the case of the Shah Action, on behalf of Adobe.

We dispute the allegations of wrongdoing in the Securities Action and the Derivative Actions and intend to vigorously defend ourselves in these matters. In view of the complexity and ongoing and uncertain nature of the outstanding proceedings and inquiries, at this time we are unable to estimate a reasonably possible financial loss or range of financial loss, if any, that we may incur to resolve or settle the Securities Action and the Derivative Actions.

In connection with disputes relating to the validity or alleged infringement of third-party intellectual property rights, including patent rights, we have been, are currently and may in the future be subject to claims, negotiations or complex, protracted litigation. Intellectual property disputes and litigation may be very costly and can be disruptive to our business operations by diverting the attention and energies of management and key technical personnel. Although we have successfully

ADOBE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

defended or resolved past litigation and disputes, we may not prevail in any ongoing or future litigation and disputes. Third-party intellectual property disputes could subject us to significant liabilities, require us to enter into royalty and licensing arrangements on unfavorable terms, prevent us from licensing certain of our products or offering certain of our services, subject us to injunctions restricting our sale of products or services, cause severe disruptions to our operations or the markets in which we compete, or require us to satisfy indemnification commitments with our customers including contractual provisions under various license arrangements and service agreements.

NOTE 17. DEBT

The carrying value of our borrowings as of December 1, 2023 and December 2, 2022 were as follows:

<i>(dollars in millions)</i>	Issuance Date	Due Date	Effective Interest Rate	2023	2022
1.70% 2023 Notes	February 2020	February 2023	1.92%	\$ —	\$ 500
1.90% 2025 Notes	February 2020	February 2025	2.07%	500	500
3.25% 2025 Notes	January 2015	February 2025	3.67%	1,000	1,000
2.15% 2027 Notes	February 2020	February 2027	2.26%	850	850
2.30% 2030 Notes	February 2020	February 2030	2.69%	1,300	1,300
Total debt outstanding, at par				\$ 3,650	\$ 4,150
Less: Current portion of debt, at par				—	(500)
Unamortized discount and debt issuance costs				(16)	(21)
Carrying value of long-term debt				<u>\$ 3,634</u>	<u>\$ 3,629</u>
Carrying value of current debt, net of unamortized discount and debt issuance costs				<u>\$ —</u>	<u>\$ 500</u>

Senior Notes

In January 2015, we issued \$1 billion of senior notes due February 1, 2025. The related discount and issuance costs are amortized to interest expense over the term of the notes using the effective interest method. Interest is payable semi-annually, in arrears, on February 1 and August 1.

In February 2020, we issued \$500 million of senior notes due February 1, 2023, \$500 million of senior notes due February 1, 2025, \$850 million of senior notes due February 1, 2027 and \$1.30 billion of senior notes due February 1, 2030. Our total proceeds of approximately \$3.14 billion, net of issuance discount, were used for general corporate purposes including repayment of debt instruments due in fiscal 2020. The related discount and issuance costs are amortized to interest expense over the respective terms of the notes using the effective interest method. Interest is payable semi-annually, in arrears, on February 1 and August 1.

During the first quarter of fiscal 2023, the \$500 million of senior notes due February 1, 2023 became due and were repaid.

Our senior notes rank equally with our other unsecured and unsubordinated indebtedness. We may redeem the notes at any time, subject to a make-whole premium. In addition, upon the occurrence of certain change of control triggering events, we may be required to repurchase the notes, at a price equal to 101% of their principal amount, plus accrued and unpaid interest to the date of repurchase. The notes do not contain financial covenants but include covenants that limit our ability to grant liens on assets and to enter into sale and leaseback transactions, subject to significant allowances.

Term Loan Credit Agreement

In January 2023, we entered into a delayed draw term loan credit agreement (the “Term Loan Credit Agreement”), providing for a senior unsecured term loan (the “Term Loan”) of up to \$3.5 billion for the purpose of partially funding the purchase price for our intended acquisition of Figma and the related fees and expenses incurred in connection with the acquisition. The Term Loan was available for funding in a single drawing upon the closing of the Figma acquisition at any time

ADOBE INC.

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)

prior to March 15, 2024. The Term Loan would mature two years following the initial funding date and required no scheduled principal amortization payments prior to maturity. The Term Loan could be prepaid and terminated at our election at any time without premium or penalty. At our election, the Term Loan would bear interest at either (i) term Secured Overnight Financing Rate ("SOFR"), plus a margin, (ii) adjusted daily SOFR, plus a margin, or (iii) base rate, plus a margin. Base rate is defined as the highest of (a) the federal funds rate plus 0.50%, (b) the agent's prime rate, or (c) term SOFR plus 1.00%. The margin for term SOFR and adjusted daily SOFR loans was based on our debt ratings, and ranges from 0.750% to 1.250%. The margin for base rate loans was based on our debt ratings, and ranged from 0.000% to 0.250%. In addition, commitment fees determined according to our debt ratings were payable quarterly in an amount ranging from 0.040% to 0.100% per annum until the funding of the Term Loan.

The Term Loan Credit Agreement contained customary representations, warranties, affirmative and negative covenants, events of default and indemnification provisions in favor of the lenders similar to those contained in the Revolving Credit Agreement. As of December 1, 2023, there were no outstanding borrowings under the Term Loan.

Subsequent to December 1, 2023, we entered into a mutual termination agreement with Figma to terminate the previously announced merger agreement. Consequently, the Term Loan Credit Agreement was terminated. *See Note 3 of our Notes to Consolidated Financial Statements for further information regarding the Figma transaction.*

Revolving Credit Agreement

In June 2022, we entered into a credit agreement ("Revolving Credit Agreement"), providing for a five-year \$1.5 billion senior unsecured revolving credit facility, which replaced our previous five-year \$1 billion senior unsecured revolving credit agreement entered into in October 2018 (the "Prior Revolving Credit Agreement"). The Revolving Credit Agreement provides for loans to Adobe and certain of its subsidiaries that may be designated from time to time as additional borrowers. Pursuant to the terms of the Revolving Credit Agreement, we may, subject to the agreement of lenders to provide additional commitments, obtain up to an additional \$500 million in commitments, for a maximum aggregate commitment of \$2 billion. At our election, loans under the Revolving Credit Agreement will bear interest at either (i) term SOFR, plus a margin, (ii) adjusted daily SOFR, plus a margin, (iii) alternative currency rate, plus a margin, or (iv) base rate, which is defined as the highest of (a) the federal funds rate plus 0.50%, (b) the agent's prime rate, or (c) term SOFR plus 1.00%. The margin for term SOFR, adjusted daily SOFR and alternative currency rate loans is based on our debt ratings, and ranges from 0.460% to 0.900%. In addition, facility fees determined according to our debt ratings are payable on the aggregate commitments, regardless of usage, quarterly in an amount ranging from 0.040% to 0.100% per annum. We are permitted to permanently reduce the aggregate commitment under the Revolving Credit Agreement at any time. Subject to certain conditions stated in the Revolving Credit Agreement, Adobe and any of its subsidiaries designated as additional borrowers may borrow, prepay and re-borrow amounts at any time during the term of the Revolving Credit Agreement.

The Revolving Credit Agreement contains customary representations, warranties, affirmative and negative covenants, including events of default and indemnification provisions in favor of the lenders. The negative covenants include restrictions regarding the incurrence of liens and indebtedness, certain merger transactions, dispositions and other matters, all subject to certain exceptions.

The facility will terminate and all amounts owing thereunder will be due and payable on the maturity date unless (a) the commitments are terminated earlier upon the occurrence of certain events, including an event of default, or (b) the maturity date is further extended upon our request, subject to the agreement of the lenders.

As of December 1, 2023, there were no outstanding borrowings under this Revolving Credit Agreement.

Commercial Paper Program

In September 2023, we established a commercial paper program under which we may issue unsecured commercial paper up to a total of \$3 billion outstanding at any time, with maturities of up to 397 days from the date of issue. The net proceeds from the issuance of commercial paper are expected

to be used for general corporate purposes, which may include working capital, capital expenditures, acquisitions, stock repurchases, refinancing indebtedness or any other general corporate purposes. As of December 1, 2023, there were no outstanding borrowings under the commercial paper program.

ADOBE INC.
NOTES TO CONSOLIDATED FINANCIAL STATEMENTS (Continued)
NOTE 18. LEASES

We lease certain facilities and data centers under non-cancellable operating lease arrangements that expire at various dates through 2032. We also have one land lease that expires in 2091. Our lease agreements do not contain any material residual value guarantees, material variable payment provisions or material restrictive covenants.

Operating lease expense was \$117 million, \$121 million and \$119 million for fiscal 2023, 2022 and 2021, respectively. We recognized operating lease expense in cost of revenue and operating expenses in our Consolidated Statements of Income. Our operating lease expense includes variable lease costs and is net of sublease income, both of which are not material.

Supplemental cash flow information for fiscal 2023, 2022 and 2021 related to operating leases was as follows:

<i>(in millions)</i>	2023	2022	2021
Cash paid for amounts included in the measurement of operating lease liabilities	\$ 97	\$ 107	\$ 116
Right-of-use assets obtained in exchange for operating lease liabilities	\$ 32	\$ 59	\$ 60

The weighted-average remaining lease term and weighted-average discount rate for our operating lease liabilities as of December 1, 2023 were 6 years and 2.50%, respectively.

As of December 1, 2023, the maturities of lease liabilities under operating leases were as follows:

<i>(in millions)</i>	Operating Leases ⁽¹⁾
Fiscal Year	
2024	\$ 83
2025	80
2026	74
2027	74
2028	62
Thereafter	111
Total lease liabilities	\$ 484
Less: Imputed interest	38
Present value of lease liabilities	\$ 446

⁽¹⁾ Legally binding minimum lease payments for leases signed but not yet commenced as of December 1, 2023 were not material.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and Board of Directors
Adobe Inc.:

Opinions on the Consolidated Financial Statements and Internal Control Over Financial Reporting

We have audited the accompanying consolidated balance sheets of Adobe Inc. and subsidiaries (the Company) as of December 1, 2023 and December 2, 2022, the related consolidated statements of income, comprehensive income, stockholders' equity, and cash flows for each of the fiscal years in the three fiscal year period ended December 1, 2023, and the related notes (collectively, the consolidated financial statements). We also have audited the Company's internal control over financial reporting as of December 1, 2023, based on criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of the Company as of December 1, 2023 and December 2, 2022, and the results of its operations and its cash flows for each of the fiscal years in the three fiscal year period ended December 1, 2023, in conformity with U.S. generally accepted accounting principles. Also in our opinion, the Company maintained, in all material respects, effective internal control over financial reporting as of December 1, 2023 based on criteria established in *Internal Control - Integrated Framework (2013)* issued by the Committee of Sponsoring Organizations of the Treadway Commission.

Basis for Opinions

The Company's management is responsible for these consolidated financial statements, for maintaining effective internal control over financial reporting, and for its assessment of the effectiveness of internal control over financial reporting, included in the accompanying Management's Annual Report on Internal Control over Financial Reporting. Our responsibility is to express an opinion on the Company's consolidated financial statements and an opinion on the Company's internal control over financial reporting based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (PCAOB) and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the consolidated financial statements are free of material misstatement, whether due to error or fraud, and whether effective internal control over financial reporting was maintained in all material respects.

Our audits of the consolidated financial statements included performing procedures to assess the risks of material misstatement of the consolidated financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the consolidated financial statements. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements. Our audit of internal control over financial reporting included obtaining an understanding of internal control over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. Our audits also included performing such other procedures as we considered necessary in the circumstances. We believe that our audits provide a reasonable basis for our opinions.

Definition and Limitations of Internal Control Over Financial Reporting

A company's internal control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide

reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Because of its inherent limitations, internal control over financial reporting may not prevent or detect misstatements. Also, projections of any evaluation of effectiveness to future periods are subject to the risk that controls may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Critical Audit Matter

The critical audit matter communicated below is a matter arising from the current period audit of the consolidated financial statements that was communicated or required to be communicated to the audit committee and that: (1) relates to accounts or disclosures that are material to the consolidated financial statements and (2) involved our especially challenging, subjective, or complex judgments. The communication of a critical audit matter does not alter in any way our opinion on the consolidated financial statements, taken as a whole, and we are not, by communicating the critical audit matter below, providing a separate opinion on the critical audit matter or on the accounts or disclosures to which it relates.

Performance obligations in cloud-enabled software subscriptions

As discussed in Note 1 to the consolidated financial statements, cloud-enabled services are highly integrated and interrelated with on-premise or on-device software licenses in the Company's Creative Cloud and Document Cloud subscription offerings. Because of this, the cloud-based services and the on-premise/on-device software licenses are not considered distinct from each other and the applicable subscription is accounted for as a single performance obligation.

We identified the assessment of performance obligations in these cloud-enabled software subscription offerings as a critical audit matter. A high degree of subjective auditor judgment was required to assess the nature of the Company's Creative Cloud and Document Cloud offerings, their intended benefit to customers as an integrated offering, and the level of integration that exists between the cloud-enabled services and the on-premise/on-device licenses.

The following are the primary procedures we performed to address this critical audit matter. We evaluated the design and tested the operating effectiveness of an internal control related to the assessment of distinct performance obligations. We read the Creative Cloud and Document Cloud subscription offering agreements to understand the contractual terms and conditions. We participated in product demonstrations and performed interviews with the Company's product and engineering department to both understand and observe specific functionalities of the integrated offering and evaluate the nature of the promise made to the Company's Creative Cloud and Document Cloud customers. We evaluated the features and functionalities of the Creative Cloud and Document Cloud subscription that can be accessed only when using the on-premise/on-device software while connected to the Adobe cloud to assess that customers receive the intended benefit from each solution only as an integrated offering.

ITEM 9. CHANGES IN AND DISAGREEMENTS WITH ACCOUNTANTS ON ACCOUNTING AND FINANCIAL DISCLOSURE

None.

ITEM 9A. CONTROLS AND PROCEDURES

Disclosure Controls and Procedures

Our management has evaluated, under the supervision and with the participation of our Chief Executive Officer and Chief Financial Officer, the effectiveness of our disclosure controls and procedures as of December 1, 2023. Based on their evaluation as of December 1, 2023, our Chief Executive Officer and Chief Financial Officer have concluded that our disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934, as amended) were effective at the reasonable assurance level to ensure that the information required to be disclosed by us in this Annual Report on Form 10-K was (i) recorded, processed, summarized and reported within the time periods specified in the SEC's rules and regulations and (ii) accumulated and communicated to our management, including our Chief Executive Officer and Chief Financial Officer, to allow timely decisions regarding required disclosure.

Our management, including our Chief Executive Officer and Chief Financial Officer, does not expect that our disclosure controls and procedures or our internal control over financial reporting will prevent all errors and all fraud. A control system, no matter how well conceived and operated, can provide only reasonable, not absolute, assurance that the objectives of the control system are met. Further, the design of a control system must reflect the fact that there are resource constraints and the benefits of controls must be considered relative to their costs. Because of the inherent limitations in all control systems, no evaluation of controls can provide absolute assurance that all control issues and instances of fraud, if any, within Adobe have been detected.

Management's Annual Report on Internal Control over Financial Reporting

Our management is responsible for establishing and maintaining adequate internal control over financial reporting (as defined in Rule 13a-15(f) under the Securities Exchange Act of 1934, as amended). Our management assessed the effectiveness of our internal control over financial reporting as of December 1, 2023. In making this assessment, our management used the criteria established in Internal Control - Integrated Framework (2013) issued by the Committee of Sponsoring Organizations of the Treadway Commission. Our management has concluded that, as of December 1, 2023, our internal control over financial reporting is effective based on these criteria.

KPMG LLP, the independent registered public accounting firm that audited our financial statements included in this Annual Report on Form 10-K, has issued an attestation report on our internal control over financial reporting, which is included herein.

Changes in Internal Control over Financial Reporting

There were no changes in our internal control over financial reporting during the quarter ended December 1, 2023 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

ITEM 9B. OTHER INFORMATION

None.

ITEM 9C. DISCLOSURE REGARDING FOREIGN JURISDICTIONS THAT PREVENT INSPECTIONS

Not applicable.

PART III

ITEM 10. DIRECTORS, EXECUTIVE OFFICERS AND CORPORATE GOVERNANCE

The information required by this Item 10 of Form 10-K that is found in our 2024 Proxy Statement to be filed with the SEC in connection with the solicitation of proxies for the Company's 2024 Annual Meeting of Stockholders ("2024 Proxy Statement") is incorporated herein by reference to our 2024 Proxy Statement. The 2024 Proxy Statement will be filed with the SEC within 120 days after the end of the fiscal year to which this report relates. For information with respect to our executive officers, see the section titled "Executive Officers" in Part I, Item 1 of this report.

ITEM 11. EXECUTIVE COMPENSATION

The information required by this Item 11 of Form 10-K is incorporated herein by reference to our 2024 Proxy Statement.

ITEM 12. SECURITY OWNERSHIP OF CERTAIN BENEFICIAL OWNERS AND MANAGEMENT AND RELATED STOCKHOLDER MATTERS

The information required by this Item 12 of Form 10-K is incorporated herein by reference to our 2024 Proxy Statement.
